TWELVE PAGES TODAY.

NUMBER

## BIDS ON BEN MILAM HIGHWAY BUILDING READY BY JULY 25

ROAD TO BURLESON COUNTY  
LINE FROM AD HALL WILL  
BE CONSTRUCTED IN 1922.

Bids for the construction of the Ben Milam Highway running from Ad Hall to the Burleson county line through the city of Cameron by way of the McCown Bridge road thence to Milano, will be opened on July 25.

This announcement is made by Giles L. Avriett, of the good roads committee and auditor of Milam county.

This highway is named the Ben Milam Highway on the suggestion of Hon. C. M. Beard of Milano who as a member of the legislature went before the Highway Commission and presented the name. The highway has not been called by name and few people are familiar with the facts. It is altogether desirable and proper that this highway should be known and called by name.

Milam county was named for this hero of Texas war for independence and all will be glad to honor his memory by naming one of the important highways of the state for him.

Following is minutes of the meeting:  
Roll call showed the following present:

Officers—Robert McLane, president; W. W. Chambers, vice president; J. R. Hays acting secretary.

Directors—J. W. Coleman, Dr. Jas. Watson, John E. Mangum, C. R. Phillips.

Committee Chairmen—Edwin York, J. D. Dobbins, Giles L. Avriett, W. M. Cobb, W. G. Gillis.

Minutes of the previous meeting were read, and upon motion adopted.

Giles L. Avriett reporting for the good roads committee, stated that the bids for the Ad Hall road from McCown bridge to the Burleson county line would be opened July 25th.

\$45.00 was allowed for the Milam County Oil Men's Association banquet upon motion of Giles L. Avriett seconded by Dr. Jas. Watson.

Upon motion of Giles L. Avriett, seconded by W. W. Chambers the surplus money from the Posey Deep well basket dinner was paid into the treasury of the club.

For the Cameron Base Ball Club Mr. Lesovsky asked the Commercial Club for \$50 per week for the remaining time they should play; upon motion of J. W. Coleman seconded by W. G. Gillis a committee of three was appointed to co-operate with the ball committee in raising the money.

Mr. Chambers called the attention of the Commercial Club to the importance of the Reclamation meeting and urged that every member of the Club and the citizens of the community be present.

## CLARENCE REDFIELD BUYS INTEREST IN BUSINESS.

Clarence Redfield, formerly with the local postal service and later a student in Baylor University, has purchased half interest in the business of F. F. Reed, grocer and confection dealer. Clarence recently returned from California where he toured the west with the Shriners. He is a Cameron boy and deserves the patronage of the public.

## ED R. BENTLEY TO SPEAK IN CAMERON

CANDIDATE FOR STATE SUPER-  
INTENDENT WILL ADDRESS  
VOTERS HERE FRIDAY.

Ed R. Bentley of McAllen, candidate for State Superintendent of Public Instruction, will address the voters of Milam county at the court house Friday afternoon at 3:30 o'clock July 7.

Friends of Mr. Bentley in Cameron are making a campaign to get a large crowd to hear the candidate. Mr. Bentley is recognized as perhaps the leading candidate in the race for State Superintendent and many friends in Cameron are seeking his election.

## EARLE B. MAYFIELD WILL SPEAK HERE SATURDAY, JULY 8

SENATORIAL CANDIDATE TO AD-  
DRESS VOTERS AT COURT  
HOUSE 3:30 P. M.

Earle B. Mayfield, candidate for United States Senator, will address the voters of Milam county at the court house in Cameron Saturday July 8 at 3:30 p. m.

Friends of Mr. Mayfield are this week arranging to give the railroad commissioner a big reception and a large crowd to hear his address. Mr. Mayfield has many supporters in Milam county who are now urging his election to the Senate of the United States.

The candidacy of Mr. Mayfield is pitched largely on the question of railroad rates and the encroachment of the federal government through its interstate Commerce Commission upon the rate making power of the Texas Railroad Commission.

Mr. Mayfield is a good speaker and his presentation of the rate question will appeal to all thinking men and women.

His friends in Cameron are making an effort to carry the county for him and with the large membership for the Mayfield committee it appears that the railroad commissioner will be a leading candidate in the race in this county.

While Mr. Mayfield will speak in the afternoon of Saturday it is expected that he will have a large crowd to hear him.

## BOX SUPPER.

A Box Supper will be held at the Sandy Creek School house Friday July 14. Announcement of this supper is made by R. S. Cloud who invites all the candidates and the general public to attend this supper.

## METHODIST CHURCH.

Rev. I. F. Butts Sunday School Field Secretary of the Texas Conference will preach at the Methodist church Sunday morning.

Rev. C. T. Tally will preach at night and hold third Quarterly Conference.

## LECTURER DRAWS LARGE CROWDS AT THE PARK

WORLD TRAVELER AND LECT-  
URER HERE REMAINDER  
OF THE WEEK.

Dr. Hubert Yeuell lecture entertainments which started at the Methodist church Sunday night are creating a largely increasing interest. Last night every seat in the City Park was occupied and large numbers were standing. The entertainments were taken to the Park Tuesday night at the general request of the people. The first night several interruptions hindered the progress of the entertainment owing to some irregularities in the lighting system. Dr. Yeuell has a special wire attached direct to his machines so that on Wednesday night there was not one break from start to finish. The best people of the city are in attendance and Wednesday night after the performance Mr. W. H. Triggs in calling for the offering said that nothing in our Chautauqua this year has been comparable to Dr. Yeuell's entertainments and that Cameron had never seen or heard anything just quite like it.

Efforts are being made to have Dr. Yeuell stay over Sunday and repeat the Passion Play which was received so enthusiastically Monday night.

Tonight the Yeuell's subject is "France—Yesterday and Today". On Friday night he will give "Ben Hur." Saturday night his popular patriotic travelogue on "Wonders of America" will be given.

Mrs. Mattie F. Rutland left for her home in Nashville, Tenn., last Monday. She will stop in Dallas for a visit with her sister, Mrs. Oscar Adams.

## Cullen F. Thomas Speaks To 1500 Democrats Here In Behalf of His Candidacy

More than 1500 Milam county Democrats heard Cullen F. Thomas speak in behalf of his candidacy for the Senate of the United States on last Friday night June 30.

Hundreds cheered the candidate as for more than two hours he vigorously defended his record and discussed the issues of the campaign. Mr. Thomas always a favorite with Milam county democrats has awakened a live interest in his candidacy here and his many friends are laying the lines for a big majority in the county when the vote is cast.

Coming from Rockdale Mr. Thomas was accompanied by Hon. T. S. Henderson, O. L. Kidd, Jeff T. Kemp and others. He was introduced by Mr. Henderson who in eloquent speech paid a tribute to the political record of Mr. Thomas.

In opening his speech Mr. Thomas said that in times past he had campaigned the state for other causes and for other men and that now he comes to plead his own cause.

Reference was made by Mr. Thomas to his record as a Democrat and in answer to those who are challenging his Democracy. He was cheered when he said that he had penned the plat-forms on which many of his critics had stood for election in Texas. The chief difference, he said, between his brand of Democracy and those who are criticizing him is that his record on prohibition did not co-inside with their views. Sterling Strong who has come out for Bob Henry was rapped by Mr. Thomas for his misrepresentation of him on the moral questions that have figured in Texas politics for many years.

Friends of Mr. Thomas as well as the friends of other candidates resent the attack of Mr. Strong as a malicious and willful disregard of the facts in the case.

It required two hours for Mr. Thomas to deliver his speech. He spoke freely and fluently and the applause was frequent. Many women were present to hear his address.

Mr. Thomas defended the League of Nations in its entirety and made a comparison of the views of his opponents and asked the voters which of them they would choose.

"The hour is at hand for every man and woman in Texas, who believes in the League of Nations as the best machinery yet set up on the earth to preserve the world's peace, to make choice among candidates for the United States Senate.

"No political question has arisen during our country's history bigger with destiny for mankind. Good and patriotic men in both parties have opposed America's entrance in the league. I believe the failure of our Government to accept the League of Nations is an unspeakable tragedy.

"The people of Texas are called upon to select their spokesmen in the Senate to voice their own sentiment and faith. Who among us will they commission?"

"Will they choose Colonel Bob Henry, in the past and now an uncompromising foe of the league?"

"Will it be Governor Jim Ferguson, who bolted his party two years ago in the campaign when the paramount issue dividing the two old parties was the fate of the league?"

"Will it be Commissioner Earle

Mayfield, content with his own candidacy for re-election two years ago and lending no aid to the forces in Texas fighting resolutely for the league?"

"Will it be Senator Culberson, who, though a supporter, passed through all those stormy days, inside and outside the Senate, in Texas and throughout the Union, without his voice being once heard in defense of the league?"

"Will it be Colonel Ousley, inactive in the past, who during this campaign grown faint of heart, announces to Texas that he regards the result of the national election two years ago as a mandate from the people against the league."

"I was for the league when Woodrow Wilson brought it back from Paris. I was for the league when Woodrow Wilson fell stricken on the political battlefield, while commander in chief of the Democratic forces. I am for the league as Woodrow Wilson, in patient exile, awaits in faith the day of vindication and victory.

"Two years ago, as a private citizen, I fought hard in Texas against the powerful forces that planned repudiation of the league. I was chairman of the committee of men and women on resolutions in the State-wide conference and penned the address that called to arms in Texas the friends of the league. I was a member of the subplatform committee of the State convention, and as such I was one of the two members who wrote the plank that plighted the faith of the Democracy of Texas in the league. I was honored as a delegate to the national convention in San Francisco that declared the loyalty of the intrepid Democracy of the Nation to the league. I traversed Texas from border to border, repelling as best I could the assaults of all those inside and outside the party who sought to destroy the league.

"I am not yet ready to surrender, I would make appeal to 1924. I would turn from the diaster of Goliad to the glory of San Jacinto.

"I want to see the standard of Democracy two years hence placed in the hands of some great American who believes in the league. I want to see in the White House a worthy successor of Woodrow Wilson, inspired by his toil and sacrifice for the league. I want to see a militant Democracy in every State of the Union seek triumph with candidates for the Senate who will work and fight for the league. I want to see the Democratic party represented on the floor of the Senate by spokesmen who will give battle to the Reeds, and Borahs and Lodges, who conspired to destroy the league.

"And then I want to see my country hear the call of the wide world and take its seat reserved at Geneva at the head of the league of our best hope for stabilizing the world's business and safeguarding the world's peace."

Sam Mewhinney, farmer and stock raiser of the Buckholts community and president of the Milam County Purebred Livestock and Poultry Association, was in Cameron Saturday on business and looking after some details of the meeting of the association held in Cameron Monday.

## Largest Producer In History of Minerva Making 35 Barrels

Baggett and House drilling on the Henry farm, have brought in the largest producer in the history of the Milam county fields. At the usual depth for oil in the shallow territory, the well is making a good 35 barrels daily the production coming from 16 feet of oil sand that is said to be unbroken. The well flows when agitated and is the first well in the field that has been drilled in that will flow for any length of time. This firm is reported to be getting nearly 50 barrels of crude daily from 2 wells. Their number three is drilling and will be completed this week.

The Owens Petroleum Co., number 6 Henry, 80 acres have a light well in this part of the field. The Lee Oil Company in their number 10 Niehous is reported to be a 15 barrel well at the usual depth.

All the deep tests are shut down, some of them it is said will start drilling soon. The Owens Refining Company plant at Minerva are working on the new still, which will be completed and placed in operation the coming week.

The pipe line runs for the last half of June was 227 barrels daily.

## JACKSONVILLE TEAM COMING TO CAMERON FOR 6 GAME SERIES

FANS TO GET GLIMPSE OF RIVAL  
TEAMS IN ACTION FOLLOW-  
ING WACO SERIES.

Cameron baseball fans will have a chance to see Manager Frank Bridges fast Jacksonville club in action against our own club, after the series played in Waco. Manager Rogers of the Comets has arranged for the Jacksonville club to meet the Comets on their home grounds Saturday July 15th. This game should eclipse even the fondest expectations of the fans, and will be a steller base ball affair, regardless of which way the series go in Waco.

The class of ball that will be played during the crucial series between the two fast clubs at least equal to that of the Texas League will be displayed next week, with each club fighting for the series. Hundreds of Cameron base ball fans are expected will go to Waco for the games each day. It is being planned to have at least two special coaches for the fans on the opening day Monday July 10th carrying the rooters' to Waco, and a special rate for the round trip is being arranged for, the Cameron Concert band will furnish the music for the occasion and several hundred fans are expected will go for the opener.

The Comets have staged three shut outs in a row and seems they cannot be headed. Manager Frank Bridges club will run up against stronger opposition than any it has encountered this season, when it meets the Comets in Waco next week. Cameron meets the fast Caldwell team in Caldwell today, returning home for tomorrow for a game with the Rosebud Roses, Saturday a game is scheduled with the Belton crew, while on Sunday the Comets go to Rosebud for a game, thence to Waco for the little world series, starting Monday July 10 to 15 inclusive.

Fans wishing to make reservations for the trip will get in touch with Frank Lesovsky, secretary of the Cameron Base Ball Club at once.

## \$2,000 IS PAID BY CITY FOR PROPERTY ADJOINING PARK

PUBLIC HEALTH SERVED BY  
REMOVAL OF SLAUGHTER  
PENS NEAR LIMITS.

Purchase of property adjoining the Wilson-Ledbetter Park near the City Limits for \$2000 by the city of Cameron has removed a menace to the public health. The property was formerly operated as a slaughter pen for killing of cattle for local markets. The purchase of this equipment was first mentioned in the Commercial Club when the civic improvement committee of which Edwin York is chairman. The club voted to ask the city to buy the property.

Oxsheer Smith and George T. Graves, members of the council also advocated the purchase of this property. When the matter was presented to the new council the finance composed of O. M. Smith, George T. Graves, and Henry M. Hefley, was instructed to negotiate the purchase.

The matter of closing this deal was delayed several months because of matters pertaining to the purchase price and because later it was thought by the council it would not be wise to buy this property on account of the probability of other property being thus used near the city limits. However the city through the finance committee has been able to complete the purchase and the unsanitary conditions about the park will be removed.

The city has undertaken to finance a park program for Cameron which will give the city playgrounds and open air amusements.

Miss Lillie Mag Jeter is spending the week in Milano with her sister, Mrs. Walter Newton.

## REPUBLICANS SPLIT IN MILAM COUNTY; CONTEST LOOM

FRICTION DEVELOPS IN RAY-  
OF LEADERS AND TWO CON-  
VENTIONS HAVE BEEN  
CALLED.

Republican Leaders in Milam county are split and two calls by separate chairmen have been issued for a convention on the same date. Dr. G. B. Taylor, prominent republican, has issued for publication a for a county convention to be held July 29 to which is signed the name Frank Redfield, as chairman for county.

In June Sam Mewhinney, the old chairman for the county at the meeting, issued a call for the meeting on July 29.

Dr. Taylor is authority for statement that friction has developed among the leaders and for the reason that he among others claim Mr. Mewhinney in calling the convention named men for precinct chairmen who had not been elected by original committee.

A meeting was held Saturday 1 in Cameron and Frank Redfield named as chairman by dissident Republicans who are to contest course of the former chairman.

The following call is issued by Taylor:

Cameron, Texas, July 5, 1922.  
To the Republican voters of Milam County:

In compliance with the law, and the instructions of State Republican Executive Committee, and of the publican Executive Committee of county, a delegated convention of Republican voters of Milam County hereby called to meet in the city of Cameron, being the County seat said County, at two p. m., on 29th day of July, 1922:

First—To elect delegates and ternate delegates to the Republican State Convention to be held on August 8th, 1922.

Second—To elect delegates and ternate delegates to each of the various Republican District Conventions to be held on August 29th, 1922.

Third—To nominate a complete County Republican ticket for County and Precinct officers, designated.

Fourth—To transact such other further business as may properly come before said Convention.

Each election precinct will be entitled to one vote in this County Convention for every twenty-five votes or major fraction thereof, cast in such precinct for John G. Culbertson, republican candidate for Governor 1920; each precinct in any event entitled to one vote in such convention.

Republican Precinct Conventions will be held in each election precinct in this County on Saturday, July 22, 1922, and due notice of the hour and place for the holding of such Precinct Primary Conventions will be distributed in each Precinct by the Republican Precinct Chairman thereof.

All citizens who are qualified voters under the law, regardless of past political affiliations, who believe in principles of the Republican Party and who will pledge themselves support its nominees in good faith are eligible to participate in such precinct and county convention, and they are cordially invited so to do.

FRANK REDFIELD,  
Republican County Chairman Milam County Texas.

Mr. and Mrs. Dow Eplen return to Cameron Saturday from Anders and Navasota where they have been for the past two weeks visiting relatives. The trip served as a vacation for Mr. and Mrs. Eplen, the former making several fishing trips along the streams of that country company with friends. Mr. Eplen associated with and half owner of the Cameron Furniture Company in Cameron.

Mrs. George A. Thomas, Sr., spent Thursday in Waco with her niece Mrs. Tom Law.

Mrs. R. D. Brown left Thursday to visit her mother at Weatherford.

## LOCAL AND PERSONAL

Mrs. John Snyder and daughter are visiting Mrs. Geo. T. Graves this week.

Mrs. Gandy and Mrs. Fox motored to Taylor Tuesday.

Mr. Jeff Hefley and family spent Tuesday in Rockdale.

Mr. S. D. Bowles of Dallas was in Cameron last week end on business and a guest in the home of Mr. and Mrs. W. M. Ross.

Mr. and Mrs. Jones Wofford of Houston made a short visit to Mr. Wofford's mother, Mrs. Hallie Wofford last week end.

Mr. and Mrs. C. W. Lawrence, Mr. and Mrs. Hayden Lawrence, Mrs. Robert McLane and Edwin Shaw motored to Taylor Wednesday of last week to attend the wedding of Miss Katherine McLane. Miss McLane is the eldest daughter of Mr. and Mrs. Will McLane who were residents of Cameron for many years.

Mr. and Mrs. J. C. Tucker, Miss Gladys Watson, accompanied Mr. T. F. Hardy Monday as far as Rockdale on his way to Austin.

Mrs. Paul Ledbetter and children of Dallas are visiting Mrs. Ledbetter's sister, Mrs. Dan Tyson and other relatives.

Mr. and Mrs. Paul Brown and son, Jacob Ralston Brown, are visiting with Mrs. Brown's parents, Mr. and Mrs. J. M. Ralston.

Miss Grace Mangum spent a few days with her parents then returned to San Marcos where she is attending Summer School.

Mr. and Mrs. Joe Bass motored to Marlin and accompanied Mr. Elwell that far on his way to his new home in Oklahoma.

Mrs. Tom Henderson, Sr., will spend Thursday in Waco with her daughter, Miss Mary Lake Henderson.

Mr. and Mrs. John F. McLane of Waco, spent last week end with their parents, Mr. and Mrs. John B. McLane and Mr. and Mrs. Ernest Egert.

Miss Louise Gillon of Dallas is spending the month of July with her mother, Mrs. W. A. Gillon.

Miss Francis Morrison spent a few days last week in Rockdale visiting relatives.

Miss Bebe Neblett of Anderson is in Cameron to visit for several days with her sister, Mrs. Dow Eplen. Mr. and Mrs. Eplen have just returned from a two weeks visit to Anderson.

FOR SALE—Black Jersey Heifer, fresh in milk.  
R. E. Sharpe.

Little Miss Bebecca Perry, of San Antonio, is visiting her grandparents, Mr. and Mrs. E. A. Wallace.

Miss Grace Gillon returned from a visit in Dallas last week and will spend the Summer with her mother, Mrs. W. A. Gillon.

George Banzhaf, county farm demonstrator, was in Cameron Saturday in the interest of the farm short course to be given at the A. & M. College in a few days. Mr. Banzhaf is also taking an active interest in the Milam County Purebred Livestock and Poultry Association.

Mrs. Conn Miller is visiting for several days in Galveston the guest of Mrs. Caldwell, Mr. Miller's sister.

Mr. and Mrs. John Lovin and children of Rockdale spent Sunday in Cameron.

Little Miss Emma Howard Thomas of Gause visited in Cameron this week.

George Cone spent Sunday in Austin.

Judge Kemp and daughter, Ruth, spent the fourth in Rockdale.

The Herald editor is in receipt of a post card from J. T. Parma who with Mrs. Parma and little daughter are now in California for a vacation. Mr. Parma writes from Los Angeles and says that the cool climate is quite a relief from the desert drives through Arizona and other places not excepting Torrid Texas. Mr. Parma is touring the Western states while away having gone in his automobile. In Cameron he is head of the Motor League Branch and a director in the Cameron Commercial Club and will gather much valuable information about roads and tourists parks while away.

12. What Is The Matter With the Secretary?—E. Q. Vestal, Grand Secretary.

13. The Annual Report G. E. Meliff, San Antonio.

14. Question Box.

Hilton E. Howell

Severely Injured

THROWN TO STREET FROM AUTO TRUCK YOUNG MAN ESCAPES FATAL INJURY.

Hilton E. Howell, graduate from the law department of the University of Texas, and son of Mr. and Mrs. T. A. Howell of Cameron, was severely injured Thursday afternoon when he was thrown from an auto truck to the street and his body severely cut and bruised.

The Howell Brothers, famous musicians, were moving a piano to their home and Hilton was standing in the bed of the truck when the truck rounding a street corner toppled the piano and both Mr. Howell and instrument were thrown to the street.

An automobile driven by Miss Nelle DuBois was passing the truck at the time of the accident and it is thought that in falling Mr. Howell hit the moving car. The piano is also thought to have fallen in part across his body but not sufficient to precipitate the entire weight of the instrument.

Mr. Howell was picked up from the street by his brother and men who witnessed the fall and taken to the Jackson & Read Pharmacy. Dr. M. C. Sapp was called and the injured

man taken to the office of the doctor over the First National Bank where examination was made and treatment given.

The most severe injury sustained was across the right shoulder and the collar bone and breast. It was found that no bones were broken and that no internal injury was sustained.

Mr. Howell showed remarkable courage and nerve, walking from the street to the drug store and then with slight assistance up the steps to the doctor's office where later he refused to be carried to the examination table, walking across the room and without assistance got upon the table for the ordeal of examination and dressing of his wounds.

Mr. Howell graduated this year from the University of Texas law department and having obtained his license to practice law was planning to go to Dallas to enter a well known law firm. His injuries, while not serious, are expected to delay his plans for several weeks.

The Howell Brothers have become famous for their musical talent, now composing one of the leading jazz bands and orchestras of the state. They were able to attend the University because of their talents which brought them ready funds to pursue their studies. Their father and mother are musicians also, Mr. Howell famous as a violin player, and Mrs. Howell as a music teacher.

Friends of Hilton in Cameron will be interested to know that his injuries are not serious and that although badly bruised and shaken he will recover in a short time.

## TO THE CITIZENS OF CAMERON, TEXAS.

Feeling that, in spite of nearly seventeen years I have lived in Cameron, I am not very well known to most of you, and since the President of the United States, Warren G. Harding, has appointed me to be Postmaster in Cameron, the Senate confirming that appointment, I wish you to know a little of my personal history, especially before coming to Cameron.

I was born in London, Ohio, of Scotch-Irish and English people; my father was a Presbyterian minister and his grandfather, also a Presbyterian minister, performed patriotic service for the government during the Revolutionary war so that I was enabled through him to be a member of the D. A. R. and I am still a member in the Henry Downs Chapter in Waco.

After passing through the Public and High Schools of London, Ohio, I spent four years at the Western College at Oxford, Ohio, graduating in the classical and musical courses. The next two years I taught Public School Music in London, Ohio, and in the summer of 1894, I went with my mother and sister to Europe spending the next three winters in Vienna, Austria studying music and languages French German and Italian, and the summers we spent in travel, through Belgium, Holland, Germany, France, Switzerland, Bohemia, Austria and Italy, coming home by way of Gibraltar and New York. In September, 1897, through a friend I was invited to come to Baylor University, Waco, Texas, to teach Vocal Music and I came and taught there five years, having charge of the voice work, private and chorus, glee clubs, chapel and concerts. I also taught one year in Birmingham, Ala., and one year in Portland, Oregon, at St. Helen's Hall. In 1905, upon invitation, I came to Cameron and have been here constantly since that time, attending to my home and family.

During the war, owing to the floods, the fall in prices, as well as failure of crops as many of you know, the financial losses of our family were very great, notwithstanding which we did our little portion of war work as I was a regularly appointed agent in the district given me, in the various Liberty Loans, War Fund and Red Cross Drives.

Basing my application for Postmaster at Cameron upon qualifications gained through education, travel and experience, I felt I was fitted to serve in this way, in the administration of our President, Warren G. Harding.

The postoffice is a part of the government and as such is carried on for the people and by the people. Therefore I am ready to do what I can to make the business of the postoffice run smoothly for you and for the government and I ask your co-operation in making this office the very best of its kind in this state and the country.

Thanking you,

Very truly,

Mrs. Bessie Finley Hefley,

Postmaster.

Cameron, Texas, July 5, 1922.

Alfred Walston who has been in the Baylor University, has returned to Cameron. He recently went to California with the Shriners, being a member of the Waco Shrine.

# EVAN'S Corner

This corner is devoted to business, politics and general news.

After 500 years have passed the modern scholar has undertaken to rob old man Columbus of the honor of discovering America.

Perhaps in another hundred years, some will steadfastly refuse to accept Geo. Washington as the "father of our country."

The 4th passed off nicely—no mishaps or misfortunes. The worst thing I heard of was Taylor getting walloped by the Comets.

This corner spent the day in Rosebud and had a good time shaking hands with old friends.

Do you want to buy a good second hand oil stove? I have a 5 burner Detroit with built-in oven, burns oil or gasoline. It is in good condition. Cost \$63 and you can have it for \$15. Mrs. Evans prefers to cook over a real good hot wood stove—one that heats up the whole house.

We have a few second hand watches for sale.

We repair watches, clock and jewelry. Fit glasses, eat fried chicken and vote just like we want to—You are invited to see me.

## GUS EVANS Jeweler and Optician

Geo. A. Thomas & Sons, Drug Store.

Rev. R. C. White, pastor of the First Baptist church in Cameron is this week holding a protracted meeting at the Baptist church in Ben Arnold. As soon as this meeting is completed he will hold a meeting in Maysfield. The Christian people of Cameron are asked to attend these services and to help in the meeting.

Miss Eugenia Wallace returned Saturday from a visit in San Antonio where she visited her sister, Mrs. Ira Perry.

Mrs. Bertha Barrett and sons, Don and Robert Lee, returned last week from a pleasant visit to relatives and friends at Davilla.

Dr. and Mrs. J. M. Woodson and son, Burbank of Temple were in Cameron Saturday of last week to spend the day with Mr. and Mrs. S. P. Cross.

Price Cross who has been in Cameron for several days has returned to his home in Greenville.

## This Month Gala Time For Turks --Beginning of Religious Festivals --Fast By Day, Feast By Night

No. 40 Rue Brousse-Pera, Constantinople, Turkey, 28 May 1922.  
Mr. Alfred E. Brady,  
Cameron, Texas, U. S. A.

My Dear Son—This month has been a gala time for the Turks. Religious of course, but they make of it quite a feast, nevertheless. The beginning of the religious festivals are the occasion of the Sultan proceeding in state to one of his many palaces and this year he chose the Seraglio Palace in Stamboul, and such a gorgeous turnout, with his large retinue entirely surrounding the carriage—soldiers afoot, horseback, officers of high rank and government officials entirely surrounding him and in magnificent attire—all made quite an imposing sight as they moved thru the streets to Stamboul where it seemed that the entire population had turned out to do him honor. This is the month of Ramazan, the month of fasting by day and feasting by night, at which time it is considered a crime to eat anything during the day, and it has been reported that the Sultan, as head of the Church issued an edict that this part of the church law must be kept to the letter this year. He stated to his people that they had been lax in their duty which had brought them great trouble, and that his soldiers and police were to arrest any who broke this part of the law this year. All day one sees Turks going about the streets counting their prayer beads, and towards night the crowds are so dense that it is with great difficulty that one passes thru. While they are supposed to sleep during the day, few of them do so after ten o'clock. All night long one hears them talking, laughing, singing and making merry—the street merchants can be heard calling their wares, pianos, phonographs going, the scuffle of feet on the pavement, the laugh and chatter of the young folks as they stroll about, makes it seem quite unreal.

The feast of Hirka-i-Shed (Holy Mantle Day) occurs on the 15th, of Ramazan. Shecker Byram (Sweet-meat Feast), lasting three days, falls at the end of Ramazan; a Curban Byram (Sacrifice Feast), lasting four days and commemorative of Abraham's sacrifice, falls at a period after Shecker Byram. A Suray Emin, or despatch of the caravan with presents for the shrines at Mecca and the conveyance of pilgrims, takes place some four days before Ramazan sets in. On the 10th, Persians celebrate at Valide Khan, in Stamboul, the martyrdom of Hussein, son of Ali. I attended Shecker Byram at St. Sophia and may say it was the most impressive I have ever witnessed. No foreigners are allowed below, but are asked to go to the gallery above. A mass of people all round and in building—hundreds failed to get in—not a seat in this vast building, an entire standing in row after row clear across the floor so close that their shoes touched each other. Every man has his shoes off and standing as if attention, when suddenly the priest poked, and as if by magic, every one of the seven or eight thousand men went low, came up and again bowed to their knees and placed the lip of the floor and came up crossing their hands to the front. Again and in this was repeated with clock-work precision. The 99 names of God were chanted 99 times, prayer after prayer repeated and many things done I could not understand. This is tight when true believers look for return of their prophet, Muhammed, and is called the "Night of Power." The Koran (written in Arabic) is the Turkish Bible and Tur Law combined in one. Compiled published two or three years after death of the prophet Muhammed's author, by his father-in-law, Shecker. It contains 114 chapters, 60 verses. Believed by all Moslems have been delivered to Muhammed by the archangel Gabriel during the career of Muhammed. There are five commandments: to pray five times daily, to give alms to the poor, to perform the pilgrimage to Mecca, to fast the month of Ramazan, observance of cleanliness—and to this they always wash their feet before going to pray, no matter how cold the weather.

Among the comments not binding there is to abstain from wine and gambles to break the Sabbath (Friday) eat pork and game, etc. A will under no consideration kill. In the Koran the prophet is his followers to believe in God, in the angels, in the other prophets, set down at 124,000 and himself, in the five books of Revelations, Psalms, Old Testament, the New Testament, the resurrection of the dead, the judgment,

and the existence of Heaven and Hell. In prayer, one's face must be turned toward Mecca. It is not absolutely necessary that one go to a Mosque to pray provided the order of prayer is observed—but one must pray five times a day. In January and February I have seen people by hundreds washing their feet in the long granite and marble troughs just outside the Mosque, and snow and ice covering the ground. Think it over.

Mosque of Sultan Bayazid, called by many "The Pigeon Mosque" is interesting only on account of its courtyard, which is the finest of any mosque court in Constantinople. The columns supporting the numerous domes of the arcade running round it were taken from Greek monuments and churches. In the center of the court is a beautiful fountain surrounded by large trees. There are dozens and dozens of Turks selling beads, perfumes and other Oriental articles, seal-cutters, Persian and Turkish sweets, etc. There are hundreds of pigeons to be seen all over the building, in the trees, on the ground and on every bit of resting place to be found. A grain stall is kept in the court for the purpose of feeding them, and the very poor, sick, lame, halt and blind will spend a few piasters for grain to throw them, even tho the ground be covered with grain. They think their Prophet will see and send them good luck and prosperity, for it is said that Sultan Bayazid bought from a poor woman a single pair of pigeons and presented them to the mosque, and that all these are the descendants of this pair.

It is quite astonishing when you realize that 7 to 8000 men were in St. Sophia, and that there dozens of dozens of places like this, but of course not so large. Have been told that all of them are full each year on this particular time. The Cistern of 1901 Columns is extremely interesting, (altho it has only 639 columns) and said to be the finest in Constantinople. Dates from the time of Constantine the Great. It is 195 feet long by 167 wide, altho looking much larger than this. I went down the steep steps leading to the water, got in a small boat and went all over the place—it has electric lights strung about so that one will not become lost. I wondered if perhaps the roof would cave in with the fifty or more houses of top, the tramways, autos, carts, horses and people walking about above. Makes a fellow creepy to be way down below ground that way in a cistern made hundreds of years ago, and with large tunnels leading in many directions that the people even now do not know just where they go. The ceiling looked to be twenty feet or more high, and it is said that mud had settled on the bottom from dirt accumulated there for centuries, filling up a great part of it—looked big enough as it was, to me. The guide said that no one knew just where the water entered—it "just comes in" he said. It looks like the ruins of an enormously large castle, with its tall marble columns, row on row, with their peculiar inscriptions and odd letters.

Went again to see the Porphyry, or Burnt Column. Originally 120 feet high, but only about 90 now. Composed of 6 blocks of porphyry, so cleverly joined as to look like a monolith. It formerly supported a bronze statue of Apollo, altered to represent Constantine, and brought by him from Rome, like the column itself. About one hundred years ago the Turks thought it was about to fall, so placed huge iron bands round it—suppose it will stand another 1000 years. Very interesting. Numerous fires in the past few hundred years have discolored it, and people call it now, "the burnt column."

A Russian lady came to the office the other day to ask for some money with which to buy her daughter a wedding dress—I told her we were not running a matrimonial bureau, and of course could not help her. She seemed not to understand that we could not give her fifty or sixty liras for such an important thing as wedding dress, some perfume a few bottles of wine and such simple things. Asked why she, a poor girl needed such finery when they had no money, she replied that it would be a disgrace to me married without being "all dolled up"—tried to explain to her that our money went to feed the hungry, care for the sick, and clothe the actually needy. After a few questions, it seemed that about all this couple would have after they were married was a couple pewter spoons and three dish-rags with which to set up house-keeping.

After waiting, waiting, and waiting

for the past six months for a large box that was shipped me from Berlin via water freight, it finally came in a few days ago. This box was made up of a number of packages accumulated in the Berlin office from you folks and friends in America, and shipped to me from Stettin, Germany by boat. The box, as I say, came in, but the thing was completely empty! Say, but there was a mad "guy" around here for about forty minutes, when I found a 11 my stuff gone. I proceeded to talk good, straight American language to the customs official, but what could he do? Nothing. And after taking a last look at the empty box, I gave it a kick and left the thing on the dock. I did not need kindling wood. What was in this box am sure I do not know, nor from whom the packages were—nor how many packages.

For fear that you do not know the latest among parlor athletes, will give you the newest fad in eating soup. This fashion has been introduced by the Russian Refugees who have lost their bushy whiskers in the "cooty" plants on the borders of civilization. Without whiskers it is almost impossible to eat soup with the approved Russian accent. The poor refugees were at their wits end until the famous Russian inventor, Souper Alexandrovich Dounroskythivoutkzenski inventor of the "whatsiz" a tool that is a combination mousetrap, corkscrew and egg-beater, devised the plan of inhaling soup through a large sponge that completely covers the mouth. You dip up a sponge full of soup, place it gently over the mouth and then inhale. It works perfectly. A fellow can close his eyes and imagine the rest of the world eating soup thru the most splendid whiskers. This custom prevails throughout Poland, Germany, Turkey and Persia, and every time you go into a Cafe you hear that all these nations like soup. Personally, have about lost my taste for soup.

The most wonderful strawberries, apricots and such small vegetables are on the market now. Strawberries almost grow wild here—in fields of from five to twenty-five or more acres are to be seen on all sides just outside the city. Quite cheap too. Am feasting now on these, as the season will not last long in case hot weather sets in. Watermelons are on the market, but have no idea where they are

from. Eggplant about a yard long, with the approved bright purple color, but certainly do not taste like our plants at home. Rather good, tho. A sort of squash-like do-dad-thing that looks like a gourd at one end, a cucumber at the other, but is about twenty inches long, and tastes like boiled ice-cream (if you know what I mean), it is usually served stuffed with rice and chopped meats, chicken livers, etc. Rather a nice dish after one gets used to it.

My work continues interesting. Much to be done, much that we can never do because funds are not available and time would not permit with the force we are able to carry, should we have additional funds. What these folks will do this winter is more than I can say. Tell all your friends to contribute their old clothes to the

Near East, as the more they clothe will lighten the load my office has to bear. Love to all.

### GIRL'S STATEMENT WILL HELP CAMERON.

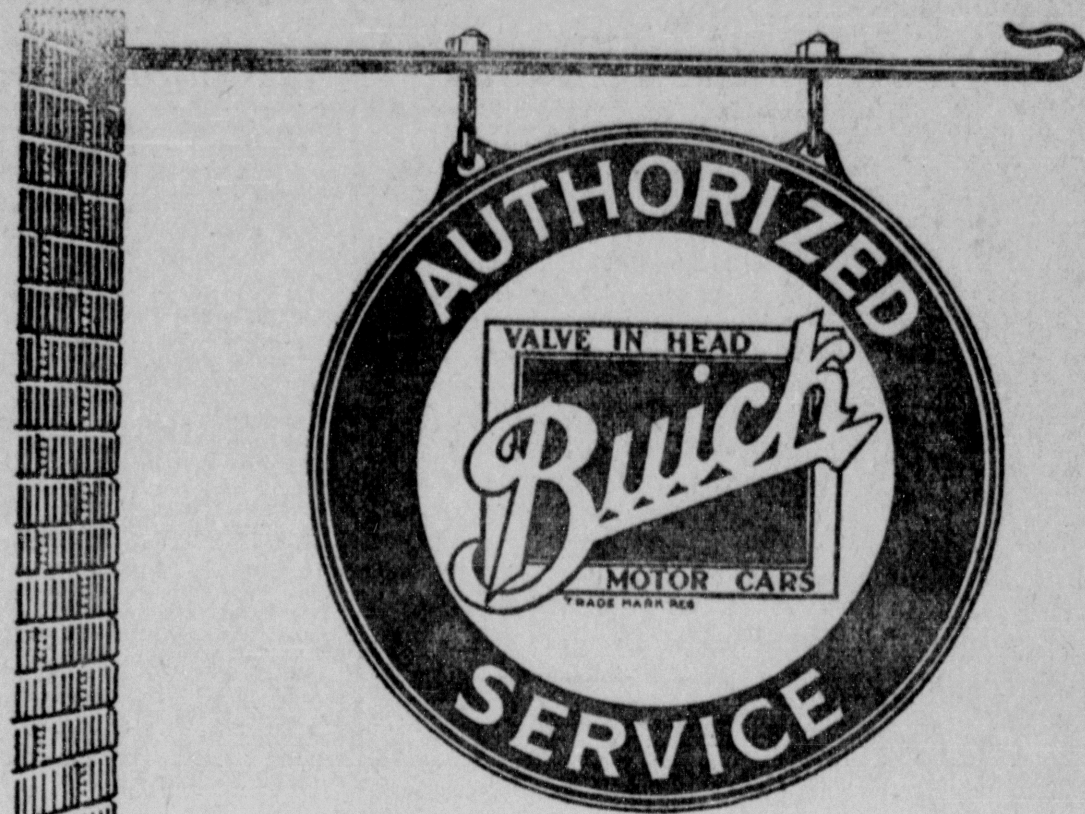

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-i-ka I can eat anything." Adler-i-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. New Cameron Drug Company. (Adv.)

Tanlac builds up the weak, runs down system and makes you feel strong, sturdy and well, as nature intended. For sale by the New Cameron Drug Company and druggists everywhere.

## Pains Were Terrific

Read how Mrs. Albert Gregory, of R. F. D. No. 1, Blufford, Ill., got rid of her ills. "During... I was awfully weak... My pains were terrific. I thought I would die. The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach... I simply felt as if life was for but a short time. My husband was worried. One evening, while reading the Birthday Almanac, he came across a case similar to mine, and went straight for some Cardui for me to try.

TAKE

# CARDUI

The Woman's Tonic

"I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my ills left me, and I went through... with no further trouble. My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui." For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women.

# AROUND THE COURT HOUSE

## DISTRICT COURT.

The State of Texas vs. W. C. Bryant, charged with unlawful sale of intoxicating liquor, which was tried last week, resulted in a verdict of guilty and punishment assessed at one year in penitentiary.

The State of Texas vs. Fritz Rochetzky charged with unlawful sale of intoxicating liquor, verdict of guilty, and punishment assessed at one year in the penitentiary.

In the trial of the W. C. Bryant case the state put a witness on the stand expecting to prove by him his purchase of liquor from defendant, but the witness said he did not know the party who had sold him the liquor, but admitted having made affidavit before the Justice of the Peace at Thorndale and had testified before the grand jury that he purchased it from the defendant, but stated that he had made a false statement before the grand jury. After witness retired from the witness stand the court ordered the sheriff to take witness into custody to await complaint on charge of perjury. The witness was placed under bond for \$1,000 to await the action of the grand jury. The court overruled motions for new trial in the cases of Bryant and Hochetzsky, and they appealed to the Court of Criminal Appeals.

The State of Texas vs. Fred Calvin, charged with burglary, set for Tuesday, June 27th.

The State of Texas vs. Rinhard King, charged with burglary, set for Tuesday, June 27th.

The State of Texas vs. Joe Brown, charged with theft of horse, set for Tuesday, June 27th.

The State of Texas vs. Ed. Schiller selling intoxicating liquor, set for Wednesday, June 28th.

The State of Texas vs. Joe Syper, unlawfully selling intoxicating liquors set for Thursday, June 29th.

The State of Texas vs. two cases unlawfully selling intoxicating liquors set for Friday, June 30th.

The case of Will Heintze vs. Jas. A. Baer, receiver of the I. & G. N. Railroad Co., set for Monday, was reset for July 11th. This is a suit for damages for the overflow on Brushy Creek crossing near Thorndale.

## COMMISSIONERS COURT.

Commissioners Court met in special session this week. Road matters were considered.

## COUNTY COURT.

In the case of Geo. E. Bursleson vs. Bluford Graves for foreclosure of mortgage on car, requiring two days for trial, resulted in verdict in favor of defendant Graves.

In the case of Rudolph Bowling for failing to register gin, he was fined \$25 and cost.

## OLD-TIME COLD CURE—

DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

## RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Get a 35 cent bottle of

tion to the town of Cameron, consideration \$3,000.

W. S. C. Tucker to W. F. Luckey, lots in Thorndale out of the J. J. Liendo survey, consideration \$525.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills for constipation.

# FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

# SCHEDULE

## OF CAMERON BASEBALL TEAM

To July 14th

July 6th, Caldwell at Caldwell.

July 7th, Rosebud at Cameron.

July 8th, Open.

## THE CAMP MEETING—JULY 21-31

In order that two of three towns and four or five neighborhoods, several miles away might reach the meeting with reasonable ease, the place has been located at the Conoley school house, on the highway leading from Thorndale to Gano.

There is a little church house near by for the convenience of mothers and little children and the feeble or sick that may attend. Water will be provided daily. Those wishing to camp for a time can easily do so. The July dates suit best all families on farms.

Effort is being made for a country-wide meeting, hence the co-operation of all is desired. It is aimed to be an interchurch arrangement. It behooves all desiring a better country to put interest, work, sacrifice and prayer into it. Any selfishness or personal feeling would blight the influence and destroy the happiness of those manifesting it. BEWARE!

One day will be given to the American Legion, all enlisted men, and to the mothers and wives of such men. And one day will be for boys and girls. Dinner will be served on those days; soldiers and children first, respectively, with their mothers and wives. Dinner both Sundays.

The Tabernacle will be built out of lumber and covered with wagon sheets if they can be had. Kindly secure and let us have as many as possible the more the better. Place owners name on the canvass.

If any are lost or destroyed they will be paid for.

The seating capacity will be about 1000 and the best of lights already arranged for, will be used.

A man will care for the grounds day and night. All churches and part. If any can not join in a union their preachers are requested to take meetings for two weeks here, what about the meeting in heaven for all eternity. All kinds of musical instruments are again solicited. A small Revival book of old songs, shaped notes, will be used. A 15 cent book. Different leaders will be asked, from time to time, to lead the music. So be at your best and keep in a good humor.

You may not preach, but you can pray and have faith in God, and that is the main thing in a revival.

Numbers of friends out of the church are manifesting interest and have offered help, which is greatly appreciated. Of course church members will rally to the work. Pray for a great awakening.

Look for further notice and advertisement.

Irvin B. Manly, Pastor,  
Methodist Church Thorndale.

MR. CAMPBELL SOLICITS  
YOUR CO-OPERATION.

Thorndale Champion:

Regarding the Purebred Livestock and Poultry Association organized at Rockdale June 10, of which I was elected a Director for the Thorndale territory, I wish to have the co-operation of everybody in this territory interested in Purebred Livestock or Poultry and both Farmers and Business Men in my efforts to serve this territory, and any suggestions will be gladly considered.

The next meeting is to be held at Cameron Monday, July 3rd, and the question of our fall shows and sales and any other business which may come before the meeting will be considered at this meeting, and it is very

IF BACKACHE OR  
KIDNEYS BOTHER

Eat less meat and take a glass of  
Salts to flush out kidneys—  
Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

important that we have a good membership from this end of the county so as to give our community a better representation and influence in the Association. Therefore I earnestly urge every person in this territory who is interested in the promotion of better livestock and poultry to join the association and give it your active support. The Agricultural class of The Thorndale High School is hereby invited to become members. The Commercial Club of other towns in the county are co-operating and I solicit the co-operation and counsel of the local club; in fact, I am whole heartedly indorsing the organization of this county into the Association for I believe there is a great need of more and better cows, hogs, turkeys and chickens with our system of farming and I suggest that all who wish to become members either send their application to Mr. J. B. White, secretary at Cameron, or see one of the membership committee for Thorndale consisting of Robert Poe, A. K. Campbell and myself, before the next meeting. Be on hand Monday July 3.

If the Champion can spare space I will try to keep the community posted as to the progress and community benefits derived from the Association.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

sociation.

Pledging my earnest co-operation,  
I am,

Respectfully,  
J. D. Campbell

CAMERON CITIZENS TO  
MAKE UP FISHING PARTY.

R. D. Brown, city secretary and treasurer and manager of the Cameron Compress Company; R. P. Jeter of the Jeter Lumber Company; Chas. A. Pitts, cotton merchant and Fred Thompson with the Cameron Compress Company, will leave Cameron on July 6 for Devils river where they will spend about one month on a vacation.

The party will go in the vicinity of Del Rio. All are true and tried fishermen and can recount many happy stories of camp life in the canyons and up where the eagle soars among the crags. The party will go by auto and when they reach their destination

will be many miles from the busy haunts of civilization.

R. D. Brown is completing this week an artificial bug, an ingenious invention to be used as a bait when casting for the big speckled ones in the waters of the Devils. While this process of invention has been going on Mr. Brown has confided to a few friends about how he expects the trout and bass to chase this bug and for the benefit of many lovers of forest and stream who will swelter in the stuffy confines of office and factory while these fishermen pass away the happy hours in the blue mountain fastness, the Herald will ask him to prepare to tell us all about it when he returns.

## BOX SUPPER.

At Marlow school house Monday night, July 10th for the benefit of the school. Candidates and the general public is invited to attend.

## No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Advertising is not an expense, it's an investment.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

"Where there is smoke there is always fire," so when twenty million well-known men and women in all walks of life say Tan's is a good medicine, there must be something to it. For sale by the New Cameron Drug Company and druggists everywhere.

## BUCKHOLTS NEWS ITEMS.

Mrs. T. S. McFarland and children of Washington, D. C., are guests in the home of Mr. and Mrs. W. E. Coley.

Will Robinson of Rockdale is visiting his daughter, Mrs. W. E. Coley. E. V. Ewing and wife of Oenaville, spent the week end visiting their parents, Mr. and Mrs. G. L. Ewing.

G. L. Ewing our popular and efficient pharmacist made a flying trip to Oenaville this week.

Born to Mr. and Mrs. W. T. Walker, a daughter. May she become a power in the nation.

Born to Mr. and Mrs. J. R. Shelton, a daughter. May she now and always gladden the hearts of her proud parents.

Dr. Cleve Odom and wife of San Antonio arrived here this morning having been called home on account of the death of Mrs. Odom's father, Mr. Shelley of near, Rogers.

Miss Audrey Criswell, is visiting her sister Mrs. T. D. Bryant, in Waco this week.

J. P. Skinner has just returned from Huntsville, and will resume duty on his route tomorrow. He has been greatly missed by the lady patrons.

The United States Civil Service Commission at the request of the Postmaster General, announces a competitive examination for postmaster in this place. This examination will be held in the Federal Building at Cameron, Texas, on July 15th, 1922. Apply at this office (Buckholts) for application and other forms showing complete and definite information. Applications must be properly executed on standard form, and filed with the Commission at Washington, D. C., in time to arrange for the examination.

All Day Barbecue and Picnic at Buckholts, July 12th. Come every body and enjoy a day of genuine recreation and pleasure, all your friends and relatives will be here, come meet them, bring a full basket if you will, if not will have plenty of the choicest barbecue any how. Good music, public speaking by Senatorial, State and county candidates. Base ball by two

of the fastest teams in this section. Big dance at night. Every body is enthusiastic over this picnic and we promise that it won't be a tame affair.

vis anyone to try Doan's Kidney Pills who has any kind of kidney complaint."

Price 60c, at all dealers. Don't

simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pitts had. Foster-Milburn Co., Effgers, Buffalo, N. Y.

Hot Water Each Morning  
Puts Roses in Your Cheeks

to look one's best and feel one's best, to enjoy an inside bath each morning

flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach. Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

## BUCKHOLTS PEOPLE TO GIVE BARBECUE

**JULY 12 DATE SET FOR ENTERTAINMENT AND PUBLIC SPEAKING.**

The people of Buckholts will give a big barbecue with public speaking by candidates for public office on Wednesday July 12.

D. R. Criswell of Buckholts was in Cameron Wednesday to announce the coming entertainment.

The barbecue will be held in the Adams grove near the city business district. A large canvass will be stretched for the comfort of the people on that day.

Mr. Criswell says that candidates for state and national offices will be asked to attend the meeting and to deliver addresses. The people of Cameron are invited to attend the barbecue and a special invitation is extended to the candidates in the county.

### METHODIST SUNDAY SCHOOL SCORES SUNDAY BASEBALL.

In regular session last Sunday June 25, the Methodist Sunday School adopted the following resolution:

Resolved that the Cameron Sunday School is very much opposed to playing base ball on Sunday and earnestly requests the management of the Cameron team that they refrain from playing baseball on Sunday at any place.

Resolved also that an invitation shall be extended to every member of the Cameron team to Sunday School.

### ASSISTANT CASHIER OF BANK AT THE AGE OF 20.

Mr. Clay A. Gibner of Spearman, Texas, is one of the youngest Assistant Cashiers in the country. He has the following to say in regard to his position: "Being only twenty years of age and now holding the office of Assistant Cashier of the First National Bank of this city. I feel that my record should be an encouragement to other young people who want to gain their independence. Before entering the above bank, I took a course at the Tyler Commercial College, and I take pleasure in recommending their courses to anyone who many want to qualify for a position in the business world. My observation is that the Tyler Commercial College is conducted in a very able manner, and their courses are well worth the time and money they require."

In our big illustrated catalogue are scores of other letters from our graduates. You will find them interesting. The catalogue is free. Fill in name and address and it will come to you by return mail. We prepare you for positions as Bookkeeper, Stenographer, Accountant, Private Secretary, Station Agent, Telegraph Operator, Cotton Classifier and Wireless Operator. We also teach by mail. Positions secured.

### Piles Cured in 5 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding piles. Instantly relieves itching piles, and you can get restful sleep after the first application. Price 60c

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely. Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00

### OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache—no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure. (Advertisement.)

### SAYS CALOMEL SALIVATES AND LOOSENS TEETH.

The Very Next Dose of this Treacherous Drug May Start

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take

a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. Don't take calomel! It makes you

sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

## 3 LIVESTOCK SHOWS FORMILAM COUNTY; STOCKMEN MEET

### COUNTY SHOW AT CAMERON TO BE OPEN TO ALL EXHIBITORS.

Co-operation in the promotion of three live stock and poultry shows in Milam county during the fall of 1922 is the part the Milam county Purebred Livestock and Poultry Association will play in representing these vital interests of the county.

The co-operation of the Association will be given to the Thorndale Chamber of Commerce which holds a community livestock and poultry show in August and also the Rockdale Chamber of Commerce which holds an annual show in that city. The shows at Thorndale and Rockdale will be held just prior to the County Livestock and Poultry Show which will be held in Cameron on September 29 and 30, Friday and Saturday respectively.

The date for the Milam County Livestock and Poultry Show has been set for September 29 and 30 for the benefit of a number of Milam County hog, cattle and poultry raisers who will exhibit at the Dallas fair which begins on October 6.

At the first regular meeting of the Association held in Cameron Monday President Sam Mewhinney appointed a committee of three to confer with the several chambers of commerce of the county regarding the shows. To this committee, the names of the President and Secretary of the Association were added by motion. The committee is as follows:

Robert Poe, Thorndale; W. E. Gaither, Rockdale; George T. Graves, Cameron; Sam Mewhinney, Buckholts and J. B. White, Cameron.

A big feature of the Milam county show to be held in Cameron will be an auction sale of fine livestock and poultry. This is to be made an annual feature of the show. The following Committee was appointed to assemble livestock and poultry to go on the auction block during the two days of the show:

George Banzhaf, Rockdale; Paul Graves, Buckholts; R. E. Sharpe, Cameron; Sam Mewhinney, Buckholts; J. D. Campbell, Thorndale. The livestock and poultry to be auctioned off will be purebred stuff and in most instances has been donated by the exhibitors, the proceeds to go to the maintenance of the show.

Because its members are owners of all of the Purebred Livestock and Poultry in the county, the Association will be able to give invaluable assistance to the several commercial bodies of the county in arranging these shows.

The county show will be financed by the Cameron Chamber of Commerce and business men of Cameron. The program for the show will be worked out Friday night when the Association meets.

The meeting in Cameron Monday was attended by stockmen and poultry raisers from all parts of the county who have become members of the Association to aid in the promotion of the Livestock and Poultry industry in the county. A large number of new members were enrolled at the meeting.

President Sam Mewhinney set the date for the next meeting at Thorndale and September 5, being the first Tuesday in September. This will be a called meeting because Monday is a day on which A. & M. College men cannot leave the College. The constitution of the Association sets the meeting for the first Monday every two months but as it is planned to have A. & M. speakers at the Thorndale meeting the meeting has been called for Tuesday.

Hon. T. S. Henderson of Cameron addressed the meeting on Monday, expressing gratification at the organization of such an association in

Milam county. Mr. Henderson has been interested in livestock for many years, being an extensive farm and ranch owner in the county. He bespoke success for the association in the great work it has undertaken among the livestock and poultry raisers of the county.

Hon. C. M. Beard of Milano, former member of the Legislature from Milam county, and who is a member of the Association, spoke to the members of the Association, encouraging its aims and purposes. Mr. Beard who is a breeder of purebred livestock said that the association if possible should permit none but purebred stuff on the farms of the county. Purebred sires he said will solve the problem of better livestock and urged the members to adopt the policy of encouraging at all times the best of breeding methods. Mr. Beard also encouraged the poultry industry which he said had become one of the leading industries of the farm.

George Banzhaf, county agent, said that the purebred male among all livestock is fifty per cent of the herd. He said the members must swat the scrub male in their herds and among other things he proposed the publication of a bulletin for the benefit of the members to advertise the livestock of the county. He outlined the manner in which A. & M. College will aid the Association.

Robert Poe of Thorndale, breeder of famous Barred Rock chickens and who recently took three of the silver cups out of four offered at the San Antonio poultry exhibits, presented the show as a means of advertising the livestock and poultry. Mr. Poe will help the committee arrange the poultry premium lists and exhibits this year.

R. E. Sharpe of Cameron, breeder of the famous White Leghorn chickens, outlined what may be accomplished by persistence in the business and the use of proper strains of chickens and methods of care and breeding. Mr. Sharpe has developed a famous flock of White Leghorn birds and will be one of the principal exhibitors at the county fair this year.

Robert Poe told of the success of the Barred Rock Association of San Antonio of which J. N. Kincaid is president. Two years ago this association started with five members but is now one of the largest and most influential in America. Last year the association held a great show in San Antonio and for this year has secured the National show, the first time it has been held in the south, and Barred Rock exhibits will be in Houston from all over America and Canada.

W. M. Cobb, chairman of the Commercial Club committee for the Live-

stock show was present to act for the club, also C. R. Phillips, T. S. Henderson and George T. Graves. Mr. Cobb asked the Association for its co-operation in staging the county show in Cameron. On motion of T. S. Henderson as mentioned above the committee of five was named to co-operate in planning for the show.

It was decided after some discussion to make the exhibits open to the world and to encourage other counties to send in their livestock to the show at Cameron. At first it was thought best to confine the exhibits to Milam county producers but a brief canvass of the situation found members of the Association anxious to have outside competition in order to encourage better exhibits and better livestock in the county.

Scott Baldrige of Rockdale, breeder of the Big Bone Poland China hogs who took first prize at Dallas Fair last year, will give hog to the auction sale and will donate the proceeds to the expense of the show. Mr. Baldrige was cheered for his generous gift and was quickly followed by J. D. Campbell of Thorndale who offered a Poland China pig and some Barred Rock Chickens for the auction. In a short address Mr. Campbell stressed the advertising value of the show to the producers of Livestock.

George T. Graves, breeder of the

famous Hereford cattle, advocated the open competition plan that more and better livestock will be brought to Cameron show.

R. E. Sharpe also advocated the open show and offered to contribute some of his famous White Leghorn chickens to the auction block for the benefit of the county.

Reports from the membership committees over the county were heard and the following new members were reported to the secretary of the Association. Rockdale: J. E. Cook, John C. Scott, G. M. Edmonson, D. R. Wallis, B. Rekenbrecht, Perry & Quebe, Dr. H. G. Coulter, L. A. Baxter, H. L. Hudson, Ed. Simms, Citizens State Bank, First National Bank W. E. Gaither, H. P. Talley, W. E. White, Bob Hale, Rockdale State Bank, Daniel Sandford; Milano: C. M. Beard, Walter Newton, Lesser Newton; Thorndale: Robert Poe, Chas. Saller; Buckholts: J. A. Walschak, W. F. Sharpe, H. A. Fuchs, T. F. Criswell; Cameron: J. W. Coleman, J. D. Eplen, H. M. Hefley, J. K. Freeman, R. B. Pool, Dr. Jas. Watson, S. P. Cross, R. P. Jeter, Dr. M. C. Sapp, C. W. Read, Matt. B. Bailey, R. B. Rylander, T. S. Henderson, W. M. Cobb, Chas. Pollard, R. L. Batte, George T. Graves, J. D. Nesbitt, J. B. Rogers, C. R. Phillips, Cameron State Bank, H. E. Reason-

over; Davilla: H. B. Payne, B. H. Keith, B. M. Jennings.

Membership committees will continue their work until the county has been thoroughly canvassed for members. In a short time the work of getting listed with the secretary of all livestock in the county so that a catalog may be issued for the benefit of advertising will begin.

J. B. WHITE Secretary.

### No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVES' TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and set as a General Tonic, and tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. In paper bottle.

# FIREY CROSS SHEDS LIGHT ON 15,000 KLANSMEN IN WACO

2000 MADE CITIZENS OF INVISIBLE EMPIRE KNIGHTS OF KU KLUX KLAN.

Waco, Texas, June 28.—Under the suffused light from a flaming cross of red, erected at a height above the entire surroundings, and readily seen for miles around, and in an open space illuminated by the head lights from 3,621 automobiles facing the open square, approximately 15,706 men participated in the initiation of 2008 into the Invisible Empire, of the Ku Klux Klan Thursday night in the pasture of Ollie Buchanan, four miles on the McGregor road. The scene was characterized as one of the most impressive and brilliant ever witnessed in this section of the county, and the program included a big barbecue.

Under a pledge of secrecy, a reporter from the Times-Herald was invited to the big barbecue and picnic which was held in conjunction with the initiation, and was allowed to witness the initiation in part, at times being taken to a considerable distance, and then brought nearer.

Great preparations had evidently been made for the event for some weeks beforehand, as everything seemed to be timed exactly to clockwork, and every detail apparently had been arranged with minute care. Representatives from klans from all over the state of Texas were said to have attended the initiation, which was a most impressive sight.

Early Thursday afternoon in Waco it seemed evident that something was "in the air." Men from all over the county were seen in town, and "it wasn't Saturday, either." As someone remarked in the afternoon before the events, it seemed that almost all the cars favored, or were favored by, the men. As early as 5:30 o'clock cars began to wend their way to the scene of the big barbecue and picnic on the McGregor road, and that section of the county was soon literally alive with cars. A constant stream of automobiles traveled from Waco, out the McGregor road, and progress was exceedingly slow. White robed figures some on horseback, stood guard around the field, and none but the properly qualified were admitted. An adding machine was installed at each entrance, it was stated, and the record made thereby of those attending. Cars were parked in a line around an open space approximately a half mile each way, the fronts of the cars pointing toward the center. Within the center of the space was the point designated for the initiation, and equipped as such.

Although all the klansmen had not arrived until fully 8 o'clock, the barbecue dinner was begun near 7, and there was plenty for late arrivals. Provisions had been made to accommodate 10,000 men, but the relay plan solved the problem of the serving of the additional number attending. According to officials in charge of the serving, five tons of beef and one ton of goat meat were barbecued over a 900-foot pit, and served on tables extending over a space aggregating 8,000 feet. The tables were made of boards 12 inches wide, laid two across and it is said these boards laid end to end would have reached approximately to the Amicable building from the picnic grounds.

There were three barrels of pickles used, about 30,000 buns provided, and coffee was served from a 300-gallon coffee pot, said to be the largest coffee pot ever made in Waco. Ten thousand cups, 10,000 plates, 10,000 spoons, and 10,000 knives and forks were provided, it was said, and every other detail arranged accordingly. Everybody was given more than plenty, and 25 barrels of ice-water located at convenient stations over the field served the klansmen.

The initiation scene was a most impressive one. Just about dark, and prior to the beginning of the ceremonies, a big cross, erected on a 50 foot telephone pole, and measuring 25 feet wide by a little more than that long and studded with hundreds of red colored electric bulbs, blazed forth amid the cheers of all. The scene of the ceremony was a slightly sloping hill-side, and the cross was at a height above all. It was plainly visible from the road, and could even be seen from Waco. Electricity from four lighting plants illumined the cross, and furnished lights for the activities.

The two thousand and more candidates for initiation were lined up in a column of fours, and marched past two lines of white robed figures. Before the ceremonies had begun, all

impressive prayer was spoken by a minister, said to have been a member. The candidates marched into an open space surrounded by klansmen, and there the initiation was held.

In the center of the ring an American flag was raised amid the cheers of Klansmen, and delicately and beautifully colored lights played on it while it waved in the breeze, making a most impressive sight. A truly flaming fiery cross was also carried, its flames being fed from a gas tank. The strains of "America," "Nearer, My God, To Thee," and other impressive songs were heard from the group as the writer viewed that part of the ceremony from a distance. Absolute silence prevailed among the thousands surrounding the candidates as the solemn ceremony progressed.

Old men walked by the side of young men in the initiation. All seemed to have forgotten everything and a certain look on their faces betrayed a feeling of common enjoyment and a real purpose. One very old man had to be assisted in the march by a robed klansman, but he appeared to be the happiest of all.

As the ceremony began, the headlights of the thousands of automobiles were turned on, and the immense square was illumined by their glare. The sky overhead was clear, and a new moon seemed to shower down its good will on the scene.

Following the initiation, several short addresses were made by klansmen, both of Waco, and by those who had come from afar. The purposes of the klans were told, and its virtues extolled by all. An interesting point was brought out by one of the speakers when he asked all men who had been klansmen in the reconstruction days of the Civil War to stand. There was a goodly sprinkling of white haired men who stood, and some of them shouted. With the red illumined cross high up above all, the headlights from the automobiles still glaring in on the scene, and the moon sinking low on the horizon, the speaking continued for a period, and then the meeting came to an end.

## MARLOW PRESBYTERIAN CHURCH SERVICES JULY 9.

## RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest

## THE STORY OF A CHECK.

Here is a fine example of home industry benefits.

Last week the Owens Refining Company issued a check to John W. House for \$18.00. This check was given Mr. House for royalty on oil lands. The check was given the Electric Service Station by Mr. House. The check then in turn was given to the Owens Refining Company in payment for gasoline for the filling station.

Thus within a few days the check again rests with the original giver.

Think of the money sent away they never pay a debt in the community and never comes back.

## CHARLES HOWES OF MILANO WITHDRAWS FROM TREASURER RACE

Charles Howes of Milano, candidate for county treasurer of Milano county has withdrawn from the race. While no formal announcement has been made by Mr. Howes his name was not placed upon the ballot when given to the Herald printing department for printing.

Mr. Howes was for many years postmaster of Milano and has many friends in that section of the county.

## 666

666 is a prescription for Colds, Fever and LaGrippe. It's the most speedy remedy we know.

LOST—Highly valued watch fob, gold locket on leather strap. Locket hand engraved on one side with J. E. M. engraved on the other side. Lost at ball park please return to J. E. Mangum for reward. 8 2t

## Habitual Constipation Cured in 14 to 21 Days

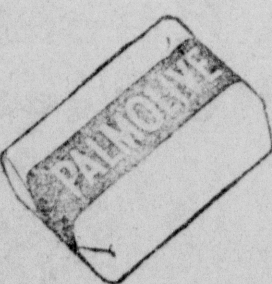

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

## HEALING CREAM STOPS CATARRH

Clogged Air Passages Open at Once—Nostrils Cleared

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.

## DOES YOUR COMPLEXION RIVAL THE ROSE'S?

A pretty girl should look her best in the morning—awakening with flower-like freshness of complexion, welcoming the revelations of searching sunshine.

Such charm is not necessarily a gift of nature, but the result of knowing what your skin needs—of giving it the intelligent daily care which makes it bloom with health.

The secret is a thorough cleansing every day to remove all dirt, surplus cold cream, rouge and powder. This can only be done with soap.

The soap must be mild, balmy and soothing in its action. Palmolive is such a soap. It is the scientific blend of Palm and Olive oils, the cosmetic cleansers of Cleopatra.

You can buy Palmolive Soap at all first class groceries and drug stores.

THE PALMOLIVE COMPANY  
Milwaukee, Wis.

## To Stop a Cough Quick

Take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

## Use Floor Paint For Your Floors

Don't think that any old paint will do for your floors. It will do, of course, if you don't care how your floors look.

However, if you want them to look their best and keep looking that way, you want to use the best floor paint you can get.

We recommend Lowe Brothers Hard Drying Floor Paint. It's easy to apply; dries quickly and hard, and stays hard. Makes any floor as easy to keep clean as a varnished or waxed one.

We have it in all the popular colors.

They give stomachs a chance to rest in warm weather because they digest so easily. Eat Kellogg's regularly and get away from so much heavy foods and see how much better every one in the house feels!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! None are genuine without it!

Also makers of KELLOGG'S KRUMBLER and KELLOGG'S BRAN, cooked and krumbled

## Free Proof That Ironized Yeast Builds Weight

Beautifies Skin and Gives New Energy To Thin, Run-down Folks

Do you need more flesh? Are you run-down, pale or scrawny looking? Do you lack energy—or is your skin blemished by humiliating pimples, blackheads or boils? If so, here is good news for you! Simply mail coupon below for the famous Three Day FREE Trial Treatment of IRONIZED YEAST. Take these remarkable tablets—two with each meal. Then get ready for a surprise!

## Watch the Quick Results!

You simply will not believe your eyes when you see how quickly your skin begins to freshen, and how quickly pimples, etc., begin to disappear. Note the immediate increase in appetite and energy. And as for putting new, hard flesh on your bones—not flabby fat, but good firm flesh—people report gaining five pounds and more on the very first package of IRONIZED YEAST!

## Yeast Best With Iron

The reason IRONIZED YEAST brings such splendid results is because it contains a specially cultured medicinal yeast which is unequalled for its richness in the essential Water Soluble B vitamins. Also contains the correct amount of the two other vitamins—Fat Soluble A and Water Soluble C—which are equally important to health, yet lacking in the modern diet. Vitamins bring fine results even if taken alone—but when taken with a proper amount of easily assimilated organic iron, as in IRONIZED YEAST, these results are secured often in just half the usual time!

## Try Ironized Yeast Today

Simply mail coupon for the wonderful Three Day FREE Trial Test. Or go to your druggist and get IRONIZED YEAST on our guarantee that the first package will bring satisfactory results or your money instantly refunded. You will be amazed at the quick improvement IRONIZED YEAST shows in you. Get it today!

## WARNING!

There are certain types of yeast which have absolutely no medicinal value. By insisting on IRONIZED YEAST, and refusing cheaper imitations or substitutes, you can be sure that you are taking a vitamin tonic treatment which is unsurpassed in effectiveness, convenience and genuine health-building value.

## FREE!

Amazing 3-Day Test Mail this coupon with your name and address to The Ironized Yeast Company, Atlanta, Ga. By return mail you will receive absolutely FREE our famous 3-Day Trial Treatment. Watch the Results! Dept. 811

Note: Full Sized Packages of IRONIZED YEAST Sold at all Druggists

#### HONEST WEIGHTS AND MEASURES.

The Cameron Herald Magazine Section of date of July 20, will have a story on "Honest Weight and Measures," written by Chas. E. Baugham, commissioner Markets and Warehouse Department State of Texas. All our readers will appreciate this story. It deals with short weights and measures as practiced by a few dishonest dealers in Texas.

Subscribe for the Cameron Herald and get the Magazine Section free.

#### SECRET OF HAPPY MARRIAGE.

In the forthcoming issue of our Magazine Section of July 20, date is an article written by Kathleen Norris, entitled: "Secret of Happy Marriage." The writer is of the opinion that the average bride is bewildered with the glamour of her wedding day and expects an easy, joyful time all the rest of her life. "In fact," explains Mrs. Norris, "successful marriage lies in service

and in motherhood, and in work, mixed with thoughtfulness and tenderness for the husband."

Subscribe for the Cameron Herald and get our Magazine Section without extra cost.

#### THE TEXAS FARMER IN PIONEER DAYS.

Mr. Geo. W. Tyler, of Belton, was a Texas pioneer farmer and he tells in the Monthly Magazine Section of the Cameron Herald to be issued July 20, how his father and other pioneer farmers cultivated the land in the 40's and 50's plowing altogether with oxen and mowing the grain with scythes (or cradles) Our black lands, writes Mr. Tyler, were once regarded as "worthless prairie" until the introduction of barb wire which afforded a practical means of fencing the prairie lands. WATCH for our magazine section!

## CAMERON 2; CALDWELL 1.

Although the Caldwell nine picked out eight safe ones with the bat off Slim Haislip they could not make them count and Cameron, superior in diamond tactics, made five hits net 2 runs. It was something of a pitchers battle between Severn for the Caldwell nine and Haislip for the Comets.

The score:

CALDWELL—	AB	H	R	PO	A	E
B. Rankin, ss.	5	1	1	1	5	2

## CAMERON 19; ROSEBUD 4.

Adding machines were necessary on last Thursday to compute the totals. It was a wild massacre of good ball club when the Comets putting on a little extra blaze made twenty-two hits count for nineteen runs off Rosebud at Comet park. Casualties from the Roses firing line read like the casualty lists of Vimy ridge. The Roses exhausted their firing squad and everybody was given an opportunity to pitch but the Comet artillery had the range and Manager Rogers called for a little more grape shot.

Rosebud made nine errors which contributed to the expensive gains made by the Comets. Cook and Edens pitching for Cameron gave up only six hits which the buds could make count for only 4 runs. It required two hours and twenty minutes to play the game. Homer Peel who has dropped to second place in batting came up six times and cracked out five hits for the day. One of the features of the game was the home run by Edens.

The score:

ROSEBUD—	AB	H	R	PO	A	E
Ellis, 2b. ss.	5	1	0	1	4	1

Totals 45 22 19 27 15 3

Struck out by Cook 6, Edens 1, Munch 1, Woods 1; base on balls off Munch 3, Cook 4, Wood 1, Edens 2; hits off Cook 4 in 7 innings, off Edens 2 in 2 innings, off Lanning 2 in 1 inning, off Woods 10 in 4 innings; Stolen bases Mulcahay 3, Nowlin 1; two base hits, Peel, McGlasson, Nowlin, Mulcahay and Edens; home run Edens; time of game 2:30; Umpire West and Shumate.

skyline of batting average and is leading the club with a per cent of 472. He has displaced Peel who is second with an average of 376. The following table will show the batting and fielding averages of the club members:

# FLOOD CONTROL TO BE TALKED HERE

## COMMERCIAL CLUB MEETING FRIDAY NIGHT FOR RECLAMATION PROGRAM.

Reclamation of more than 100,000 acres of farm lands in the valley of Little River and the Brazos in Milam and Brazos counties, will be planned at a meeting to be held here Friday night.

The Legislature has made provision where bonds may be voted by districts to carry on levee and reclamation work.

The following out of town speakers will be on hand:

Luther A. Johnson, Corsicana.  
C. S. Clark, Austin.  
A. H. Dunlap, Austin.  
C. E. Elsworth, Austin.  
Lee Rountree and Jackson of Bryan.

## LEFTY THOMAS HAS KALSOMINE SUPPLY.

Taylor—Lefty Thomas tossed his glove out on the diamond in Taylor Tuesday, and the Taylorites were beat, but didn't know until the customary nine innings of baseball were reeled off before a great holiday gathering of 1500 Williamson and Milam county fans. Thomas applied the kalsomine to the locals in artful fashion. Only three hits were obtained off his delivery and the Comets

hung up another victory, this time by a score of 4 to 0.

Mike Flannagan of one-time more or less big league fame, and who still still has that fast one, which has made him one of the most feared pitchers in independent circles for the past few years, was in the box for Taylor, and he gave a very creditable box exhibition. A two-base hit by Red Partain of the visitors with two on, however, proved his undoing. Homer Peel, sensational Cameron youngster, also hit a double. At that, however, only six hits were garnered off the delivery of the former Southwestern university pitcher, and it was a real battle all the way through.

The pitching of Thomas was the outstanding feature. Not a Taylorite reached first base off his delivery after the third stanza. The great south-paw is looking better on each day out, and is bound to deal some misery to the much-touted Jacksonville team in Waco next week.

Both clubs were superb in the field today.

The score:

	R	H	E
Cameron	4	6	0
Taylor	0	3	1

Thomas and Henderson; Flannagan and Ferguson.

Struck out by Thomas 6, by Flannagan 5. Umpires, Proctor and Brock.

## ENTHUSIASTS NOW ASSURED TRAVELING BE CONVENIENT.

J. E. Smith, local agent of the S. A.

and A. P. railway, the Cameron Chamber of Commerce and the Waco News-Tribune are in receipt of a letter from George F. Lupton, general passenger agent of that railway at San Antonio, announcing that the southbound "Sap" due to leave Waco at about 4 p. m. will not leave this city next Monday, Tuesday, Wednesday, Thursday and Friday until after the base ball games between Jacksonville and Cameron are staged.

This is done at the request of local authorities and those of Cameron, in order that the hundreds of Cameron and Rosebud fans, as well as those from other communities along the line may come to Waco on the train which arrives here at about noon, and then leave immediately after the contest of each afternoon.

With the co-operation of the S. A. and A. P. railway in making the semi-pro "world series" a success, there is hardly a doubt but that enthusiasts from Cameron, Rosebud, Let, Ben Arnold and all down the line, as well as fans below Cameron will flood the city for the great series.

The train will leave each afternoon immediately after the game.

Both Cameron and Jacksonville continue to stamp all opposition. The Comets have run their list of victories to well over 20, with only one defeat and the Jacksonville Bears have lost only two games in nearly 20 starts.

Lefty Thomas, former Fort Worth Panther star, who pitched the Cats to a 1 to 0 victory over the Cincinnati Reds during the training season, is regaining his early-season cunning

with the Comets, and will probably be sent to the mound in the opener next Monday. He will probably be opposed by Teddy Lyon, all-conference base ball and basket ball star during the past season at Baylor.

It will be largely the Baylor university team, eligibles and ineligibles against the cream of the University of Texas and Texas A. and M. talent. Battles worth going miles to see can be expected daily. E. W. Provence is fast getting the well known turtle-back diamond at Carroll field in top shape, and by Monday it will be in just as good condition as it was during the intercollegiate season.

Rivalry between the adherents of the two clubs is becoming keener each day. While it is natural that the exact portion of the Waco fans line up with Manager Bridges and the Baylor stars, the Comets are not without their following in this city. Nothing better than even money is being offered on this crucial series, and the Jacksonville backers are getting just about all their money called. Odds of 2 to 1 were offered Wednesday by a Cameron backer that Lyons would not win two games during the series, but there were no callers.

The short end of that bet doesn't sound so good, although granting that Teddy is a wonderful pitcher.

Mrs. Edward Cathom of Dallas is in the city visiting her parents, Mr. and Mrs. J. D. Cone.

FOR RENT—Two furnished rooms for light house keeping. Phone 388.

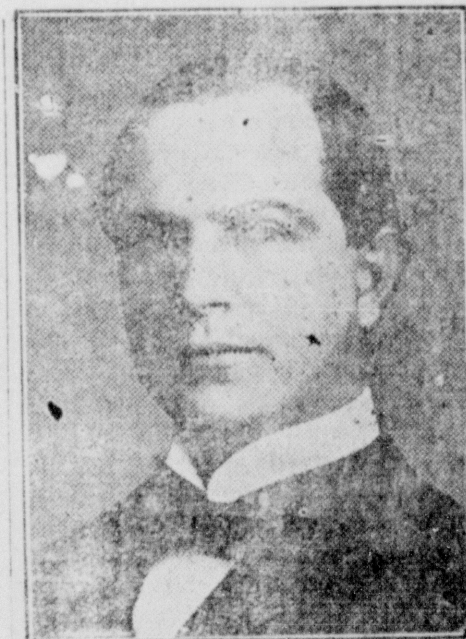

# EARLE B. MAYFIELD

Candidate For

## United States Senator

Will Address the Citizens of Milam County at

**CAMERON**  
Saturday, July 8th  
AT 3 P. M.

EARLE B. MAYFIELD

On The Court House Lawn---HEAR HIM!

Mr. Mayfield is the only candidate for the United State Senate who offers a definite program to the solution of the many perplexing problems confronting the people at this time.

The farmers and the entire public are suffering from excessive freight and passenger rates, and Mr. Mayfield offers definite relief.

Statistics show that at many points it costs more to ship a calf 100 miles than the animal is worth, while all over Texas our farmers are having to let their product decay in the field on account of the prohibitive freight rates. Mr. Mayfield is truly the farmers friend.

Mr. Mayfield has always been a staunch prohibitionist and a leader for the cause of woman suffrage

He stood for these issues in the days when they were unpopular. He has been unswerving in his convictions, and has had the courage to express and make a fight for his beliefs. Hundreds of women Mayfield Clubs have been organized in Texas.

Mr. Mayfield is an eloquent speaker and his platform appeals to people of every walk of life. He has made the most vigorous campaign of any candidate for the Senate, having delivered more than 150 addresses in behalf of his candidacy. It will be a treat to hear him.

All voters of Milam and surrounding counties are invited to attend his speaking here Saturday night which will be the epochal event of the present political campaign.

## W. A. Johnson of Hall County Here

## CANDIDATE FOR LIEUTENANT GOVERNOR GREET'S FRIENDS IN COUNTY.

W. A. Johnson of Hall county, former Lieutenant Governor, and now a candidate for re-election to that office was in Cameron Thursday greeting his friends, having come over from Rockdale.

Mr. Johnson has always carried Milam county and has many strong friends and supporters here who are urging his candidacy for the lieutenant governorship.

The stand of Mr. Johnson on the prohibition question is well known and his political record is one of standing for clean politics and all moral issues.

Regarding his race Mr. Johnson said:

"My record for ten years, as a member of the Senate, stands four-square for Economy, Efficiency and Law Enforcement. I am the author of the law raising the age of consent for girls, the law which put pool halls out of Texas, and the first resolution to investigate Jim Ferguson. I am for Prohibition and Equal Suffrage. A ruling by me, in the chair of the Senate, made it possible to ratify the Equal Suffrage Amendment in Texas."

By MRS. W. A. GILLON

### PATRIOTIC PARTY.

Last Monday night Mr. and Mrs. John Mangum entertained quite a number of their friends at a forty-two party on the lawn.

The lawn was strung with electric lights and colored lanterns.

The color scheme of red, white and blue was carried out in every way.

Fifteen tables were arranged covered with red white and blue covers and marked with numbers hanging between two flags. Tally pads featured "Uncle Sam," score cards were shields and when a game was scored a fire cracker was attached, while "84" favors were "baby giant" fire crackers, flags, caps, kewpees, horns, and hats, suit cases, drums filled with candy, and parasols.

The party was given in honor of Mrs. John Snyder of El Paso, and Mrs. Mangum was assisted in entertaining and serving by Mesdames George Graves, Fritz Fahrendorf, Snyder and Myrtle Avriett.

Red punch was served throughout the evening and at the close delicious brick cream in the stars and stripes and angel food cake was served.

### MRS. KERBY BOWLES HONORED.

Mr. A. R. Tucker, manager of the Bell Telephone Company left last week for Burk Burnett, and Mrs. Kerby Bowles was made chief cashier and supervisor, and Mr. Roy Elkins of Hillsboro was made manager of wire department. Mrs. Bowles well deserves her promotion having served so efficiently so long.

### WESLEY BIBLE CLASS.

Last Thursday afternoon the Wesley Bible class of the M. E. church entertained with a picnic party at the city park. Mrs. W. H. Triggs has charge of the class now.

They sang and several talks were made and an unique contest, gotten up by Mrs. R. H. McIntosh, was given.

The contest was "Sweet Courtship." Mrs. McIntosh read the story and the ladies filled out the blanks. Mrs. S. A. Cottle won the prize, a delicious cake.

### MRS. CLAUD TRIGGS HONORED.

Last Friday afternoon Mrs. Alex Triggs entertained at forty-two in honor of her new sister, Mrs. Claud Triggs. The home was decorated in all kinds of cut flowers.

Six tables were arranged and a number of spirited games played.

Mrs. Triggs was assisted throughout the afternoon in entertaining and serving by Mesdames W. H. Triggs, W. O. Triggs, W. A. Bonds and Miss Estha Fielder.

A combination salad and ice course was served, wafers, fruit salad in tomato cups and sherbet.

Plate favors were miniature brides. The guests present were the Kilcare-Sigma Phi Club, Cameron's other bride, Mrs. Hayden Lawrence and a few other friends.

### MRS. GILES AVRIETT

ENTERTAINES.

Last Thursday morning handsomely gowned women and girls thronged to

the home of Mrs. Giles L. Avriett knowing from other experiences that this party would be another charming success.

Mrs. Avriett, in her usual joyous and happy style welcomed fifty or more ladies.

Her little home was most artistically decorated throughout. Baskets and vases held pink crepe myrtle, lavender phlox, zenias, and other pink and lavender flowers in keeping with color scheme pink and lavender.

Twelve tables were arranged, with table No. 1, especially decorated and prepared for the two brides, Mesdames Claud Triggs and Hayden Lawrence, this table was decorated with blue birds hanging from the ceiling with the breeze blowing them about over the heads of the brides.

Miniature corsage bouquets made of orange blossoms marked their places.

At this time Master Giles Avriett came in and said he wanted to make a speech to the brides, which he did in a courtly way. The names of his piece was "The Four Leaf Clover." If these brides will remember Giles' little speech and "love and smile and have faith" they will indeed have happy lives.

Beautiful floral design score cards fan and butterfly shape were distributed and with a glorious south breeze blowing and electric fans a number of enjoyable games were played.

Mrs. J. C. Tucker won high score and was presented with an arm bouquet of lavender parenial phlox, and Mrs. L. R. McCown was consoled with a large bouquet of lavender and pink zenias.

Eighty-four favors added life and zest during the games. There were small ivory fans, lunch baskets, tennis rackets, potted plants and kewpies, and were distributed by Miss Myrtle Avriett.

Mrs. Avriett was assisted by her sisters, Mesdames Charles McDermott, W. O. Triggs, Wm. Rogers, Misses Jeff Lewis, Myrtle Avriett and Mrs. Fritz Fahrendorf.

A delicious two course luncheon was served consisting of shrimp salad, potato chips, sandwiches, wafers, pineapple salad, olives and lavender colored ice cream—each glass decorated with a pink, blue or white butterfly—and angel food cake.

The ladies were profuse in thanking Mrs. Avriett for the mornings pleasure and congratulating her upon the success of her party.

### DANCE AT BURLINGTON.

The young people of Burlington gave a dance Tuesday night and invited some of the young people from Cameron.

The Howell Bros. Band—"The Moonshiners," played for the dance.

Those attending from Cameron were: Misses Jaunita Caldwell and guest, Ellinor Phillips, Nona Hubert, Irene Cheeves, Ruth Wiley, Gladys Watson, Mary and Jenny Tyson, Gladys Walker and Mary Young. Jack Adams, Albert Collins, Leslie Ballard, Emil Klatt, Vernor Roberts, Fountain Flinn and others.

### TYSON-McCALL.

A wedding of unusual interest was that of Mr. Clyde Tyson of Cameron and Miss Winnie McCall of Rogers.

Last Friday morning at 7 o'clock the relatives and intimate friends gathered at the home of the brides' parents, Mr. and Mrs. D. B. McCall to witness the sweet and impressive ceremony.

The home was very effectively decorated with floral baskets of gladiolas and ferns.

A beautiful arch in lattice style was made of fern under which the bridal couple stood.

Very sweetly, Miss Jenny Tyson, sister of the groom, played the Bridal chorus from Lohengrin.

The attendants entered first, Mr. Roy Tyson and Miss Sue Belle McCall followed by the bride on the arm of the groom. The Rev. J. F. Adams, of the M. E. church officiating using the ring ceremony.

The bride wore a handsome going away gown with accessories entome and carried a tiny brides' Bible from which fell snowy blossoms.

Miss McCall is the accomplished and talented daughter of Mr. and Mrs. D. B. McCall of Rogers, a graduate of Rogers High School, and later attending State University at Austin, after which she became a very popular and efficient teacher at Calvert and Taylor.

Mr. Tyson is the son of Mr. and Mrs. R. R. Tyson of Cameron, a graduate of Cameron High School and later attended A. and M. College and State University. He is now a popular young business man of Hillsboro, associated with the Cooper Grocery Company, wholesale grocers, of Waco.

Immediately after the ceremony a reception was held and the guests served delicious punch by Mrs. J. W. Thomas.

Amid hasty congratulations and best wishes the happy couple departed in their car for Houston, Galveston and other points of interest. After a few days they will be at home in Hillsboro.

The Cameron Herald and a number of other friends wish for this worthy couple long life and prosperity.

### Hosmer-McLane Wedding Wednesday High Noon.

At high noon Wednesday the W. T. McLane on West Seventh Street was the scene of what was certainly the most charming and radiant home wedding the month of June has brought in Taylor's social life, when Miss Katherine McLane of Taylor became the bride of Mr. Carey Hosmer of Tulsa, Oklahoma. Dr. James L. Hardy of Houston, former pastor of the First Presbyterian church here and long time friend of the bride's family, performed the ceremony, using the beautiful double ring ceremony.

Preceding the entrance of the bridal party Mrs. Wm. Emmen sang with Mrs. S. L. Reinhardt as accompanist, Stultz's "Sweetest Story Ever Told," and Guy de Hardelot's "Because." The bridal party entered to the strains of Mendelssohn's "Wedding March," played by Mrs. Reinhardt, and during the ceremony an appropriate selection from Schubert was softly played.

The living room was decorated in green and white, the green of smilax blending into the profusion of gladiolas and asters to form a color symphony that was more than beautiful. The improvised bower in one corner of the room was a charming nook from fairyland, the interwoven smilax sprinkled with lilies of the valley, formed a pleasing canopy, while baskets of stately white asters, tuberose and clematis, placed on either side, added their wonderful beauty and elusive perfume, and overhead united hearts of puffed maline and lilies of the valley, scattered the joy of their union in a cascade of flowery sweetness.

At the opening notes of the wedding march Dr. Hardy took his place. Miss Isabel Templeton of Waco, jun-

ior bridesmaid, led the bridal procession, gown in white chiffon and carrying an arm bouquet of pink carnations. Following came the four bridesmaids, Miss Margaret McLane, sister of the bride, and Miss Roselle Peavey of Garland, were dressed in pink organdy with picture hats of white georgette and carried bouquets of pink sweetheart rosebuds; Miss Sallie Kate McLane of Cameron and Miss Georgia Hosmer, sister of the groom, of Atoka, Oklahoma, wore white organdy, with picture hats of pink georgette and carried bouquets of pink sweetheart rosebuds.

These were followed by the maid of honor, Miss Frances McLane, sister of the bride, who was charmingly gowned in pink taffeta, with an over-dress of Spanish lace, and carried a bouquet of pink sweetheart rosebuds.

The ring bearer, Little Miss Lucille Templeton of Waco, entered with the ring borne on a single gorgeous callily. She wore a dainty frock of white chiffon.

Little Henrietta Emmen, the charming flower girl, dressed in pink georgette, scattered rose petals in the bridal train. The bride entered on the arm of her father, who gave her in marriage. Attired in a charming wedding gown of white taffeta, trimmed with princess lace, draped gracefully over white, with a veil of tulle and princess lace, caught with a wreath of orange blossoms and lilies of the valley, and carrying a bouquet of bride's roses, white orchids and lilies of the valley, she was a picture of loveliness that will remain long in the memory of the fortunate groom, the attendants and the guests.

The groom entering with the best man, M. C. Alderson of Tulsa, Oklahoma met the bride and her retinue at the entrance to the nuptial bower, where the impressive marriage ritual was read.

For the reception, following the ceremony, the dining room was decorated in pink crepe myrtle and smilax. The beautiful white wedding cake rested in a bed of crepe myrtle in the center of the table, which was draped with a cover of cluny lace, and from an art basket of crepe myrtle suspended from the chandelier, a single streamer of pink maline reached downward to draw the eye to the wonderful confection where the symbolic trophies lay hidden. Glittering crystal candlesticks with pink candles and shimmering cut glass nappies of white mints decorated with pink roses and green leaves, completed the alluring color scheme. The wedding cake was cut by the bride, the guests following with keen anticipation of cutting the lucky trophies it contained. Punch was served.

An opportunity was given to view the wonderful array of beautiful wedding gifts, a collection that must certainly have brought joy to the heart of the bride, and caused the groom to feel a surge of pride. Prominent among the gifts were a chest of sterling silver a present from a group of the groom's business associates, and a complete set of beautiful Haviland China, from a different group of associates.

The reception room was decorated in pink crepe myrtle and smilax. Here the guests registered in the bride's book as they entered.

The bride's guest book was presided over by Mrs. J. R. Cobb of Atoka, Oklahoma.

The bride's going-away suit was a stunning model in Poirat twill, with modish hat and accessories, and an over-bouise of imported French beaded Canton crepe, the tout ensemble being a perfect harmony.

The bride's bouquet of white roses and lilies of the valley, which was thrown as she ascended the stairway to prepare for the start of the wedding journey, was caught by her sister, Miss Frances McLane.

Members of the house party and out of town guests for the wedding were the following: Mesdames Finley Sheets, Louis Lowe, J. S. Kritzer, H. C. Mantor, C. A. Waddill, W. O. Bennett, of Taylor, Mrs. J. R. Cobb, and Miss Georgia Hosmer of Atoka, and Miss Roselle Peavey of Garland, Mrs. Robert McLane, Miss Sallie Kate McLane and Miss Mildred Chambers, Mr. and Mrs. C. W. Lawrence, Edward Shaw and Drayton McLane of Cameron, Mrs. W. H. Templeton and children, William Edward, Isabella and Sarah Lucille, of Waco, Mrs. E. A. Camp, and Emory Camp of Rockdale, and Mr. and Mrs. W. T. McLane, Jr., of Breckenridge.

## JURY DISAGREES IN SYPERT CASE

FOUR FOR CONVICTION AND EIGHT FOR ACQUITTAL AFTER DAY DELIBERATION.

The jury in the case of State of Texas vs. Joe Sybert in which defendant was charged by indictment with the sale of intoxicating liquor was unable to agree after a day and night deliberation and on last Saturday at six o'clock was discharged by Judge Watson in the District Court.

Saturday morning Vince Lucas, city Marshal of Cameron, was placed on the stand again, to clear up in the minds of some of the jurymen certain testimony given in the case. After this was done the jury then retired and after all day in the jury room came before the court and said that it could not agree.

The case grew out of arrests made by Vince Lucas and George Richards. An examining trial was held in the city court and the defendants bound over to the district court. Bob Elliott employe of the Santa Fe railroad, made a sworn statement which was introduced in the trial.

The following is the jury in the case:

Jeff D. Hefley, Jr., August Gurecky, John Zalesky, George Laffere, Louis Louis, Tom Askley, E. K. Avriett, C. Miller, R. P. Southwell, J. H. Whitfield, W. D. Favor, B. F. Gibson.

Those for conviction were: Louis Louis, Tom Askley, W. D. Favor and B. F. Gibson, the remainder being for acquittal.

### REVIVAL MEETING.

Rev. Carl D. Kelley of Waco will begin a revival meeting at Curry school house July 14. All Christian people are invited to attend and help in this meeting. The meeting will continue until July 26.

Mr. and Mrs. Jeff Kemp and daughter, Ruth, spent last Friday in Austin.

CAMERON, MILAM COUNTY, TEXAS, THURSDAY JULY 6, 1922.

TWELVE PAGES TODAY.

NUMBER 10.

## BIDS ON BEN MILAM HIGHWAY BUILDING READY BY JULY 25

### ROAD TO BURLESON COUNTY LINE FROM AD HALL WILL BE CONSTRUCTED IN 1922.

Bids for the construction of the Ben Milam Highway running from Ad Hall to the Burleson county line through the city of Cameron by way of the McCown Bridge road thence to Milano, will be opened on July 25.

This announcement is made by Giles L. Avriett, of the good roads committee and auditor of Milam county.

This highway is named the Ben Milam Highway on the suggestion of Hon. C. M. Beard of Milano who as a member of the legislature went before the Highway Commission and presented the name. The highway has not been called by name and few people are familiar with the facts. It is altogether desirable and proper that this highway should be known and called by name.

Milam county was named for this hero of Texas war for independence and all will be glad to honor his memory by naming one of the important highways of the state for him.

Following is minutes of the meeting: Roll call showed the following present.

Officers—Robert McLane, president; W. W. Chambers, vice president; J. R. Hays acting secretary.

Directors—J. W. Coleman, Dr. Jas. Watson, John E. Mangum, C. R. Phillips.

Committee Chairmen—Edwin York, J. D. Dobbins, Giles L. Avriett, W. M. Cobb, W. G. Gillis.

Minutes of the previous meeting were read, and upon motion adopted. Giles L. Avriett reporting for the good roads committee, stated that the bids for the Ad Hall road from McCown bridge to the Burleson county line would be opened July 25th.

\$45.00 was allowed for the Milam County Oil Men's Association banquet upon motion of Giles L. Avriett seconded by Dr. Jas. Watson.

Upon motion of Giles L. Avriett, seconded by W. W. Chambers the surplus money from the Posey Deep well basket dinner was paid into the treasury of the club.

For the Cameron Base Ball Club Mr. Lesovsky asked the Commercial Club for \$50 per week for the remaining time they should play; upon motion of J. W. Coleman seconded by W. G. Gillis a committee of three was appointed to co-operate with the ball committee in raising the money.

Mr. Chambers called the attention of the Commercial Club to the importance of the Reclamation meeting and urged that every member of the Club and the citizens of the community be present.

### CLARENCE REDFIELD BUYS INTEREST IN BUSINESS.

Clarence Redfield, formerly with the local postal service and later a student in Baylor University, has purchased half interest in the business of F. F. Reed, grocer and confection dealer. Clarence recently returned from California where he toured the west with the Shriners. He is a Cameron boy and deserves the patronage of the public.

## ED R. BENTLEY TO SPEAK IN CAMERON

### CANDIDATE FOR STATE SUPER- INTENDENT WILL ADDRESS VOTERS HERE FRIDAY.

Ed R. Bentley of McAllen, candidate for State Superintendent of Public Instruction, will address the voters of Milam county at the court house Friday afternoon at 3:30 o'clock July 7.

Friends of Mr. Bentley in Cameron are making a campaign to get a large crowd to hear the candidate. Mr. Bentley is recognized as perhaps the leading candidate in the race for State Superintendent and many friends in Cameron are seeking his election.

## EARLE B. MAYFIELD WILL SPEAK HERE SATURDAY, JULY 8

### SENATORIAL CANDIDATE TO AD- DRESS VOTERS AT COURT HOUSE 3:30 P. M.

Earle B. Mayfield, candidate for United States Senator, will address the voters of Milam county at the court house in Cameron Saturday July 8 at 3:30 p. m.

Friends of Mr. Mayfield are this week arranging to give the railroad commissioner a big reception and a large crowd to hear his address. Mr. Mayfield has many supporters in Milam county who are now urging his election to the Senate of the United States.

The candidacy of Mr. Mayfield is pitched largely on the question of railroad rates and the encroachment of the federal government through its interstate Commerce Commission upon the rate making power of the Texas Railroad Commission.

Mr. Mayfield is a good speaker and his presentation of the rate question will appeal to all thinking men and women.

His friends in Cameron are making an effort to carry the county for him and with the large membership for the Mayfield committee it appears that the railroad commissioner will be a leading candidate in the race in this county.

While Mr. Mayfield will speak in the afternoon of Saturday it is expected that he will have a large crowd to hear him.

### BOX SUPPER.

A Box Supper will be held at the Sandy Creek School house Friday July 14. Announcement of this supper is made by R. S. Cloud who invites all the candidates and the general public to attend this supper.

### METHODIST CHURCH.

Rev. I. F. Butts Sunday School Field Secretary of the Texas Conference will preach at the Methodist church Sunday morning.

Rev. C. T. Tally will preach at night and hold third Quarterly Conference.

## LECTURER DRAWS LARGE CROWDS AT THE PARK

### WORLD TRAVELER AND LECT- URER HERE REMAINDER OF THE WEEK.

Dr. Hubert Yeuell lecture entertainments which started at the Methodist church Sunday night are creating a largely increasing interest. Last night every seat in the City Park was occupied and large numbers were standing. The entertainments were taken to the Park Tuesday night at the general request of the people. The first night several interruptions hindered the progress of the entertainment owing to some irregularities in the lighting system. Dr. Yeuell has a special wire attached direct to his machines so that on Wednesday night there was not one break from start to finish. The best people of the city are in attendance and Wednesday night after the performance Mr. W. H. Triggs in calling for the offering said that nothing in our Chautauqua this year has been comparable to Dr. Yeuell's entertainments and that Cameron had never seen or heard anything just quite like it.

Efforts are being made to have Dr. Yeuell stay over Sunday and repeat the Passion Play which was received so enthusiastically Monday night.

Tonight the Yeuells subject is "France—Yesterday and Today". On Friday night he will give "Ben Hur". Saturday night his popular patriotic travelogue on "Wonders of America" will be given.

Mrs. Mattie F. Rutland left for her home in Nashville, Tenn., last Monday. She will stop in Dallas for a visit with her sister, Mrs. Oscar Adams.

## Cullen F. Thomas Speaks To 1500 Democrats Here In Behalf of His Candidacy

More than 1500 Milam county Democrats heard Cullen F. Thomas speak in behalf of his candidacy for the Senate of the United States on last Friday night June 30.

Hundreds cheered the candidate as for more than two hours he vigorously defended his record and discussed the issues of the campaign. Mr. Thomas always a favorite with Milam county democrats has awakened a live interest in his candidacy here and his many friends are laying the lines for a big majority in the county when the vote is cast.

Coming from Rockdale Mr. Thomas was accompanied by Hon. T. S. Henderson, O. L. Kidd, Jeff T. Kemp and others. He was introduced by Mr. Henderson who in eloquent speech paid a tribute to the political record of Mr. Thomas.

In opening his speech Mr. Thomas said that in times past he had campaigned the state for other causes and for other men and that now he comes to plead his own cause.

Reference was made by Mr. Thomas to his record as a Democrat and in answer to those who are challenging his Democracy. He was cheered when he said that he had penned the platform on which many of his critics had stood for election in Texas. The chief difference, he said, between his brand of Democracy and those who are criticizing him is that his record on prohibition did not co-inside with their views. Sterling Strong who has come out for Bob Henry was rapped by Mr. Thomas for his misrepresentation of him on the moral questions that have figured in Texas politics for many years.

Friends of Mr. Thomas as well as the friends of other candidates resent the attack of Mr. Strong as a malicious and willful disregard of the facts in the case.

It required two hours for Mr. Thomas to deliver his speech. He spoke freely and fluently and the applause was frequent. Many women were present to hear his address.

Mr. Thomas defended the League of Nations in its entirety and made a comparison of the views of his opponents and asked the voters which of them they would choose.

"The hour is at hand for every man and woman in Texas, who believes in the League of Nations as the best machinery yet set up on the earth to preserve the world's peace, to make choice among candidates for the United States Senate.

"No political question has arisen during our country's history bigger with destiny for mankind. Good and patriotic men in both parties have opposed America's entrance in the league. I believe the failure of our Government to accept the League of Nations is an unspeakable tragedy.

"The people of Texas are called upon to select their spokesman in the Senate to voice their own sentiment and faith. Who among us will they commission?

"Will they choose Colonel Bob Henry, in the past and now an uncompromising foe of the league?

"Will it be Governor Jim Ferguson, who bolted his party two years ago in the campaign when the paramount issue dividing the two old parties was the fate of the league?

"Will it be Commissioner Earle

Mayfield, content with his own candidacy for re-election two years ago and lending no aid to the forces in Texas fighting resolutely for the league?

"Will it be Senator Culberson, who, though a supporter, passed through all those stormy days, inside and outside the Senate, in Texas and throughout the Union, without his voice being once heard in defense of the league?

"Will it be Colonel Owsley, inactive in the past, who during this campaign grown faint of heart, announces to Texas that he regards the result of the national election two years ago as a mandate from the people against the league.

"I was for the league when Woodrow Wilson brought it back from Paris. I was for the league when Woodrow Wilson fell stricken on the political battlefield, while commander in chief of the Democratic forces. I am for the league as Woodrow Wilson, in patient exile, awaits in faith the day of vindication and victory.

"Two years ago, as a private citizen, I fought hard in Texas against the powerful forces that planned repudiation of the league. I was chairman of the committee of men and women on resolutions in the State-wide conference and penned the address that called to arms in Texas the friends of the league. I was a member of the subplatform committee of the State convention, and as such I was one of the two members who wrote the plank that plighted the faith of the Democracy of Texas in the league. I was honored as a delegate to the national convention in San Francisco that declared the loyalty of the intrepid Democracy of the Nation to the league. I traversed Texas from border to border, repelling as best I could the assaults of all those inside and outside the party who sought to destroy the league.

"I am not yet ready to surrender. I would make appeal to 1924. I would turn from the diaster of Goliad to the glory of San Jacinto.

"I want to see the standard of Democracy two years hence placed in the hands of some great American who believes in the league. I want to see in the White House a worthy successor of Woodrow Wilson, inspired by his toil and sacrifice for the league. I want to see a militant Democracy in every State of the Union seek triumph with candidates for the Senate who will work and fight for the league. I want to see the Democratic party represented on the floor of the Senate by spokesmen who will give battle to the Reeds, and Borahs and Lodges, who conspired to destroy the league.

"And then I want to see my country hear the call of the wide world and take its seat reserved at Geneva at the head of the league of our best hope for stabilizing the world's business and safeguarding the world's peace."

Sam Mewhinney, farmer and stock raiser of the Buckholts community and president of the Milam County Purebred Livestock and Poultry Association, was in Cameron Saturday on business and looking after some details of the meeting of the association held in Cameron Monday.

## Largest Producer In History of Minerva Making 35 Barrels

Baggett and House drilling on the Henry farm, have brought in the largest producer in the history of the Milam county fields. At the usual depth for oil in the shallow territory, the well is making a good 35 barrels daily the production coming from 16 feet of oil sand that is said to be unbroken. The well flows when agitated and is the first well in the field that has been drilled in that will flow for any length of time. This firm is reported to be getting nearly 50 barrels of crude daily from 2 wells. Their number three is drilling and will be completed this week.

The Owens Petroleum Co., number 6 Henry, 80 acres have a light well in this part of the field. The Lee Oil Company in their number 10 Nichous is reported to be a 15 barrel well at the usual depth.

All the deep tests are shut down, some of them it is said will start drilling soon. The Owens Refining Company plant at Minerva are working on the new still, which will be completed and placed in operation the coming week.

The pipe line runs for the last half of June was 227 barrels daily.

## JACKSONVILLE TEAM COMING TO CAMERON FOR 6 GAME SERIES

### FANS TO GET GLIMPSE OF RIVAL TEAMS IN ACTION FOLLOW- ING WACO SERIES.

Cameron baseball fans will have a chance to see Manager Frank Bridges fast Jacksonville club in action against our own Club, after the series played in Waco. Manager Rogers of the Comets has arranged for the Jacksonville club to meet the Comets on their home grounds Saturday July 15th. This game should eclipse even the fondest expectations of the fans, and will be a steller base ball affair, regardless of which way the series go in Waco.

The class of ball that will be played during the crucial series between the two fast clubs at least equal to that of the Texas League will be displayed next week, with each club fighting for the series. Hundreds of Cameron base ball fans are expected will go to Waco for the games each day. It is being planned to have at least two special coaches for the fans on the opening day Monday July 10th carrying the rooters to Waco, and a special rate for the round trip is being arranged for, the Cameron Concert band will furnish the music for the occasion and several hundred fans are expected will go for the opener.

The Comets have staged three shut outs in a row and seems they cannot be headed. Manager Frank Bridges club will run up against stronger opposition than any it has encountered this season, when it meets the Comets in Waco next week. Cameron meets the fast Caldwell team in Caldwell today, returning home for tomorrow for a game with the Rosebud Roses, Saturday a game is scheduled with the Belton crew, while on Sunday the Comets go to Rosebud for a game, thence to Waco for the little world series, starting Monday July 10 to 15 inclusive.

Fans wishing to make reservations for the trip will get in touch with Frank Lesovsky, secretary of the Cameron Base Ball Club at once.

## \$2,000 IS PAID BY CITY FOR PROPERTY ADJOINING PARK

### PUBLIC HEALTH SERVED BY REMOVAL OF SLAUGHTER PENS NEAR LIMITS.

Purchase of property adjoining the Wilson-Ledbetter Park near the City Limits for \$2000 by the city of Cameron has removed a menace to the public health. The property was formerly operated as a slaughter pen for killing of cattle for local markets.

The purchase of this equipment was first mentioned in the Commercial Club when the civic improvement committee of which Edwin York is chairman. The club voted to ask the city to buy the property.

Oxshier Smith and George T. Graves, members of the council also advocated the purchase of this property. When the matter was presented to the new council the finance committee composed of O. M. Smith, George T. Graves, and Henry M. Hefley, was instructed to negotiate the purchase.

The matter of closing this deal was delayed several months because of matters pertaining to the purchase price and because later it was thought by the council it would not be wise to buy this property on account of the probability of other property being thus used near the city limits. However the city through the finance committee has been able to complete the purchase and the unsanitary conditions about the park will be removed.

The city has undertaken to finance a park program for Cameron which will give the city playgrounds and open air amusements.

Miss Lillie Mag Jeter is spending the week in Milano with her sister, Mrs. Walter Newton.

## REPUBLICANS SPLIT IN MILAM COUNTY; CONTEST LOOMING

### FRICION DEVELOPS IN RANKS OF LEADERS AND TWO CON- VENTIONS HAVE BEEN CALLED.

Republican Leaders in Milam county are split and two calls by two separate chairmen have been issued for a convention on the same date.

Dr. G. B. Taylor, prominent republican, has issued for publication a call for a county convention to be held on July 29 to which is signed the name of Frank Redfield, as chairman for the county.

In June Sam Mewhinney, the elected chairman for the county at the last meeting, issued a call for the meeting on July 29.

Dr. Taylor is authority for the statement that friction has developed among the leaders and for the reason that he among others claim that Mr. Mewhinney in calling the convention named men for precinct chairmen who had not been elected by the original committee.

A meeting was held Saturday July 1 in Cameron and Frank Redfield named as chairman by dissenting Republicans who are to contest the course of the former chairman.

The following call is issued by Dr. Taylor:

Cameron, Texas, July 5, 1922.  
To the Republican voters of Milam County:

In compliance with the law, and with the instructions of State Republican Executive Committee, and of the Republican Executive Committee of this county, a delegated convention of the Republican voters of Milam County is hereby called to meet in the city of Cameron, being the County seat of said County, at two p. m., on the 29th day of July, 1922:

First—To elect delegates and alternate delegates to the Republican State Convention to be held on Aug. 8th, 1922.

Second—To elect delegates and alternate delegates to each of the various Republican District Conventions to be held on August 29th, 1922.

Third—To nominate a complete County Republican ticket for all County and Precinct officers, as designated.

Fourth—To transact such other and further business as may properly come before said Convention.

Each election precinct will be entitled to one vote in this County Convention for every twenty-five votes, or major fraction thereof, cast in such precinct for John G. Culberson, Republican candidate for Governor, in 1920; each precinct in any event being entitled to one vote in such convention.

Republican Precinct Conventions will be held in each election precinct in this County on Saturday, July 22nd 1922, and due notice of the hour and place for the holding of such Precinct Primary Conventions will be duly posted in each Precinct by the Republican Precinct Chairman thereof.

All citizens who are qualified voters under the law, regardless of past political affiliations, who believe in the principles of the Republican Party, and who will pledge themselves to support its nominees in good faith, are eligible to participate in said precinct and county convention, and they are cordially invited so to do.

FRANK REDFIELD,  
Republican County Chairman Milam County Texas.

Mr. and Mrs. Dow Eplen returned to Cameron Saturday from Anderson and Navasota where they have been for the past two weeks visiting with relatives. The trip served as a vacation for Mr. and Mrs. Eplen, the former making several fishing trips along the streams of that country in company with friends. Mr. Eplen is associated with and half owner of the Cameron Furniture Company in Cameron.

Mrs. George A. Thomas, Sr., will spend Thursday in Waco with her niece Mrs. Tom Law.

Mrs. R. D. Brown left Thursday to visit her mother at Weatherford.

P. G. M., by W. T. Savage, P. G. M.

7. Memorial Address—C. B. Lewis Dallas.

8. Music—Sacred Selection—Boys Band.

9. Memorial Address—B. J. Hubbard, P. G. M., by W. F. Boggess, Del Rio.

10. Music—Sacred Selection—Boys Band.

11. The Lodge Secretary, His Duties and How They Should Be Performed?—C. L. Gibson, Rogers.

12. What Is The Matter With the Secretary?—E. Q. Vestal, Grand Secretary.

13. The Annual Report G. E. McLiff, San Antonio.

14. Question Box.

Hilton E. Howell

Severely Injured

THROWN TO STREET FROM AUTO

TRUCK YOUNG MAN ESCAPES FATAL INJURY.

Hilton E. Howell, graduate from the law department of the University of Texas, and son of Mr. and Mrs. T. A. Howell of Cameron, was severely injured Thursday afternoon when he was thrown from an auto truck to the street and his body severely cut and bruised.

The Howell Brothers, famous musicians, were moving a piano to their home and Hilton was standing in the bed of the truck when the truck rounding a street corner toppled the piano and both Mr. Howell and instrument were thrown to the street.

An automobile driven by Miss Nelle DuBois was passing the truck at the time of the accident and it is thought that in falling Mr. Howell hit the moving car. The piano is also thought to have fallen in part across his body but not sufficient to precipitate the entire weight of the instrument.

Mr. Howell was picked up from the street by his brother and men who witnessed the fall and taken to the Jackson & Read Pharmacy. Dr. M. C. Sapp was called and the injured

man taken to the office of the doctor over the First National Bank where examination was made and treatment given.

The most severe injury sustained was across the right shoulder and the collar bone and breast. It was found that no bones were broken and that no internal injury was sustained.

Mr. Howell showed remarkable courage and nerve, walking from the street to the drug store and then with slight assistance up the steps to the doctor's office where later he refused to be carried to the examination table, walking across the room and without assistance got upon the table for the ordeal of examination and dressing of his wounds.

Mr. Howell graduated this year from the University of Texas law department and having obtained his license to practice law was planning to go to Dallas to enter a well known law firm. His injuries, while not serious, are expected to delay his plans for several weeks.

The Howell Brothers have become famous for their musical talent, now composing one of the leading jazz bands and orchestras of the state. They were able to attend the University because of their talents which brought them ready funds to pursue their studies. Their father and mother are musicians also. Mr. Howell famous as a violin player, and Mrs. Howell as a music teacher.

Friends of Hilton in Cameron will be interested to know that his injuries are not serious and that although badly bruised and shaken he will recover in a short time.

### TO THE CITIZENS OF CAMERON, TEXAS.

Feeling that, in spite of nearly seventeen years I have lived in Cameron, I am not very well known to most of you, and since the President of the United States, Warren G. Harding, has appointed me to be Postmaster in Cameron, the Senate confirming that appointment, I wish you to know a little of my personal history, especially before coming to Cameron.

I was born in London, Ohio, of Scotch-Irish and English people; my father was a Presbyterian minister and his grandfather, also a Presbyterian minister, performed patriotic service for the government during the Revolutionary war so that I was enabled through him to be a member of the D. A. R. and I am still a member in the Henry Downs Chapter in Waco.

After passing through the Public and High Schools of London, Ohio, I spent four years at the Western Col-

lege at Oxford, Ohio, graduating in the classical and musical courses. The next two years I taught Public School Music in London, Ohio, and in the summer of 1894, I went with my mother and sister to Europe spending the next three winters in Vienna, Austria studying music and languages French German and Italian, and the summers we spent in travel, through Belgium, Holland, Germany, France, Switzerland, Bohemia, Austria and Italy, coming home by way of Gibraltar and New York. In September, 1897, through a friend I was invited to come to Baylor University, Waco, Texas, to teach Vocal Music and I came and taught there five years, having charge of the voice work, private and chorus, glee clubs, chapel and concerts. I also taught one year in Birmingham, Ala., and one year in Portland, Oregon, at St. Helen's Hall. In 1905, upon invitation, I came to Cameron and have been here constantly since that time, attending to my home and family.

During the war, owing to the floods, the fall in prices, as well as failure of crops as many of you know, the financial losses of our family were very great, notwithstanding which we did our little portion of war work as I was a regularly appointed agent in the district given me, in the various Liberty Loans, War Fund and Red Cross Drives.

Basing my application for Postmaster at Cameron upon qualifications gained through education, travel and experience, I felt I was fitted to serve in this way, in the administration of our President, Warren G. Harding.

The postoffice is a part of the government and as such is carried on for the people and by the people. Therefore I am ready to do what I can to make the business of the postoffice run smoothly for you and for the government and I ask your co-operation in making this office the very best of its kind in this state and the country.

Thanking you,

Very truly,

Mrs. Bessie Finley Hefley,

Postmaster.

Cameron, Texas, July 5, 1922.

Alfred Walston who has been in the Baylor University, has returned to Cameron. He recently went to California with the Shriners, being a member of the Waco Shrine.

FOR SALE—Valuable property on Hefley Heights for sale. See Mrs. W. A. Gillon.

Hemstitching and dressmaking Mrs. Allie Kinard, Moore building Cameron, Texas.

4tf

## EVAN'S Corner

This corner is devoted to business, politics and general news.

After 500 years have passed the modern scholar has undertaken to rob old man Columbus of the honor of discovering America.

Perhaps in another hundred years, some will steadfastly refuse to accept Geo. Washington as the "father of our country."

The 4th passed off nicely—no mishaps or misfortunes. The worst thing I heard of was Taylor getting walloped by the Comets.

This corner spent the day in Rosebud and had a good time shaking hands with old friends.

Do you want to buy a good second hand oil stove? I have a 5 burner Detroit with built-in oven, burns oil or gasoline. It is in good condition. Cost \$63 and you can have it for \$15. Mrs. Evans prefers to cook over a real good hot wood stove—one that heats up the whole house.

We have a few second hand watches for sale.

We repair watches, clock and jewelry. Fit glasses, eat fried chicken and vote just like we want to—You are invited to see me.

## GUS EVANS Jeweler and Optician

Geo. A. Thomas & Sons, Drug Store.

Rev. R. C. White, pastor of the First Baptist church in Cameron is this week holding a protracted meeting at the Baptist church in Ben Arnold. As soon as this meeting is completed he will hold a meeting in Maysfield. The Christian people of Cameron are asked to attend these services and to help in the meeting.

Miss Eugenia Wallace returned Saturday from a visit in San Antonio where she visited her sister, Mrs. Ira Perry.

Mrs. Bertha Barrett and sons, Don and Robert Lee, returned last week from a pleasant visit to relatives and friends at Davilla.

Dr. and Mrs. J. M. Woodson and son, Burbank of Temple were in Cameron Saturday of last week to spend the day with Mr. and Mrs. S. P. Cross.

Price Cross who has been in Cameron for several days has returned to his home in Greenville.

# This Month Gala Time For Turks --Beginning of Religious Festivals --Fast By Day, Feast By Night

No. 40 Rue Brousse-Pera, Constantinople, Turkey, 28 May 1922.  
Mr. Alfred E. Brady,  
Cameron, Texas, U. S. A.

My Dear Son—This month has been a gala time for the Turks. Religious of course, but they make of it quite a feast, nevertheless. The beginning of the religious festivals are the occasion of the Sultan proceeding in state to one of his many palaces and this year he choose the Seraglio Palace in Stamboul, and such a gorgeous turnout, with his large retinue entirely surrounding the carriage—soldiers afoot, horseback, officers of high rank and government officials entirely surrounding him and in magnificent attire—all made quite an imposing sight as they moved thru the streets to Stamboul where it seemed that the entire population had turned out to do him honor. This is the month of Ramazan, the month of fasting by day and feasting by night, at which time it is considered a crime to eat anything during the day, and it has been reported that the Sultan, as head of the Church issued an edict that this part of the church law must be kept to the letter this year. He stated to his people that they had been lax in their duty which had brought them great trouble, and that his soldiers and police were to arrest any who broke this part of the law this year. All day one sees Turks going about the streets counting their prayer beads, and towards night the crowds are so dense that it is with great difficulty that one passes thru. While they are supposed to sleep during the day, few of them do so after ten o'clock. All night long one hears them talking, laughing, singing and making merry—the street merchants can be heard calling their wares, pianos, phonographs going, the scuffle of feet on the pavement, the laugh and chatter of the young folks as they stroll about, makes it seem quite unreal.

The feast of Hirka-i-Sharif (Holy Mantle Day) occurs on the 15th, of Ramazan. Shecker Byram ((Sweet-meat Feast), lasting three days, falls at the end of Ramazan; and Curban Byram (Sacrifice Feast, lasting four days and commemorative of Abraham's sacrifice, falls at a stated period after Shecker Byram. The Surey Emin, a despatch of the holy caravan with presents for the shrines at Meccan and the conveyance of pilgrims, takes place some four weeks before Ramazan sets in. On the 10th, Persians celebrate at Valideh Khan, in Stamboul, the martyrdom of Hussein, son of Ali. I attended Shecker Byram at St. Sophia and must say it was the most impressive sights have ever witnessed. No foreigners are allowed below, but are allowed to go to the gallery above. Such a mass of people all round and in the building—hundreds failed to get in. Not a seat in this vast building, and men standing in row after row clear across the floor so close that their arms touched each other. Every man with his shoes off and standing as if at attention, when suddenly the priest spoke, and as if by magic, every one of the seven or eight thousand men bowed low, came up and again bowed, fell to their knees and placed the lips to the floor and come up crossing their hands to the front. Again and again this was repeated with clock-work precision. The 99 names of God were chanted 99 times, prayer after prayer repeated and many things done that I could not understand. This is the night when true believers look for the return of their prophet, Muhammad, and is called the "Night of Power." The Koran (written in Arabic) is the Turkish Bible and Turkish Law combined in one. Compiled and published two or three years after the death of the prophet Muhammad, its author, by his father-in-law Abu-beker. It contains 114 chapters, 6000 verses. Believed by all Moslems to have been delivered to Muhammad by the archangel Gabriel during the career of Muhammad. There are five commandments: to pray five times daily, to give alms to the poor, perform the pilgrimage to Mecca, to keep the fast of Bamazan, observe bodily cleanliness—and to this end they always wash their feet before going to pray, no matted hair cold the weather.

Among the commandments not binding there is to be found: abstain from wine and gambling, not to break the Sabbath (Friday), to eschew pork and game, etc. A Turk will under no consideration kill a pigeon. In the Koran the prophet exhorts his followers to believe in one God, in the angels, in the other prophets, set down at 124,000 and in himself; in the five books of Revelations, Psalms, Old Testament, the Koran, the resurrection of the dead, the last judgment,

and the existence of Heaven and Hell. In prayer, ones face must be turned toward Mecca. It is not absolutely necessary that one go to a Mosque to pray provided the order of prayer is observed—but one must pray five times a day. In January and February I have seen people by hundreds washing their feet in the long granite and marble troughs just outside the Mosque, and snow and ice covering the ground. Think it over.

Mosque of Sultan Bayazid, called by many "The Pigeon Mosque" is interesting only on account of its courtyard, which is the finest of any mosque court in Constantinople. The columns supporting the numerous domes of the arcade running round it were taken from Greek monuments and churches. In the center of the court is a beautiful fountain surrounded by large trees. There are dozens and dozens of Turks selling beads, perfumes and other Oriental articles, seal-cutters, Persian and Turkish sweets, etc. There are hundreds of pigeons to be seen all over the building, in the trees, on the ground and on every bit of resting place to be found. A grain stall is kept in the court for the purpose of feeding them, and the very poor, sick lame, halt and blind will spend a few piasters for grain to throw them, even tho the ground be covered with grain. They think their Prophet will see and send them good luck and prosperity, for it is said that Sultan Bayazid bought from a poor woman a single pair of pigeons and presented them to the mosque, and that all these are the descendants of this pair.

It is quite astonishing when you realize that 7 to 8000 men were in St. Sophia, and that there dozens and dozens of places like this, but of course not so large. Have been told that all of them are full each year on this particular time. The Cistern of 1001 Columns is extremely interesting, (altho it has only 639 columns) and said to be the finest in Constantinople. Dates from the time of Constantine the Great. It is 135 feet long by 167 wide, altho looking much larger than this. I went down the steep steps leading to the water, got in a small boat and went all over the place—it has electric lights strung about so that one will not become lost. I wondered if perhaps the roof would cave in with the fifty of more houses of top, the tramways, autos, carts, horses and people walking about above. Makes a fellow creepy to be way down below ground that way in a cistern made hundreds of years ago, and with large tunnels leading in many directions that the people even now do not know just where they go. The ceiling looked to be twenty feet or more high, and it is said that mud had settled on the bottom from dirt accumulated there for centuries, filling up a great part of it—looked big enough as it was, to me. The guide said that no one knew just where the water entered—it "just comes in" he said. It looks like the ruins of an enormously large castle, with its tall marble columns, row on row, with their peculiar inscriptions and odd letters.

Went again to see the Porphyry, or Burnt Column. Originally 120 feet high, but only about 90 now. Composed of 6 blocks of porphyry, so cleverly joined as to look like a monolith. It formerly supported a bronze statue of Apollo, altered to represent Constantine, and brought by him from Rome, like the column itself. About one hundred years ago the Turks thought it was about to fall, so placed huge iron bands round it—suppose it will stand another 1000 years. Very interesting. Numerous fires in the past few hundred years have discolored it, and people call it now, 'the burnt column.'

A Russian lady came to the office the other day to ask for some money with which to buy her daughter a wedding dress—I told her we were not running a matrimonial bureau, and of course could not help her. She seemed not to understand that we could not give her fifty or sixty liras for such an important thing as wedding dress, some perfume a few bottles of wine and such simple things. Asked why she, a poor girl needed such finery when they had no money, she replied that it would be a disgrace to me married without being "all dolled up"—tried to explain to her that our money went to feed the hungry, care for the sick, and clothe the actually needy. After a few questions, it seemed that about all this couple would have after they were married was a couple pewter spoons and three dish-rags with which to set up house-keeping.

After waiting, waiting, and waiting

for the past six months for a large box that was shipped me from Berlin via water freight, it finally came in a few days ago. This box was made up of a number of packages accumulated in the Berlin office from you folks and friends in America, and shipped to me from Stettin, Germany by boat. The box, as I say, came in, but the thing was completely empty! Say, but there was a mad "guy" around here for about forty minutes, when I found a ll my stuff gone. I proceeded to talk good, straight American language to the customs official, but what could he do? Nothing. And after taking a last look at the empty box, I gave it a kick and left the thing on the dock. I did not need kindling wood. What was in this box am sure I do not know, nor from whom the packages were—nor how many packages.

For fear that you do not know the latest among parlor athletes, will give you the newest fad in eating soup. This fashion has been introduced by the Russian Refugees who have lost their bushy whiskers in the "cooty" plants on the borders of civilization. Without whiskers it is almost impossible to eat soup with the approved Russian accent. The poor refugees were at their wits end until the famous Russian inventor, Soupor Alexandrovich Dounroskytchivoutkzenski inventor of the "whatsiz" a tool that is a combination mousetrap, corkscrew and egg-beater, devised the plan of inhaling soup through a large sponge that completely covers the mouth. You dip up a sponge full of soup, place it gently over the mouth and then inhale. It works perfectly. A fellow can close his eyes and imagine the rest of the world eating soup thru the most splendid whiskers. This custom prevails throughout Poland, Germany, Turkey and Persia, and every time you go into a Cafe you hear that all these nations like soup. Personally, have about lost my taste for soup.

The most wonderful strawberries, apricots and such small vegetables are on the market now. Strawberries almost grow wild here—in fields of from five to twenty-five or more acres are to be seen on all sides just outside the city. Quite cheap too. Am feasting now on these, as the season will not last long in case hot weather sets in. Watermelons are on the market, but have no idea where they are

from. Eggplant about a yard long, with the approved bright purple color, but certainly do not taste like our plants at home. Rather good, tho. A sort of squash-like do-dad-thing that looks like a gourd at one end, a cucumber at the other, but is about twenty inches long, and tastes like boiled ice-cream (if you know what I mean), it is usually served stuffed with rice and chopped meats, chicken livers, etc. Rather a nice dish after one gets used to it.

My work continues interesting. Much to be done, much that we can never do because funds are not available and time would not permit with the force we are able to carry, should we have additional funds. What these folks will do this winter is more than I can say. Tell all your friends to contribute their old clothes to the

Near East, as the more they clothe will lighten the load my office has to bear. Love to all.

## GIRL'S STATEMENT WILL HELP CAMERON.

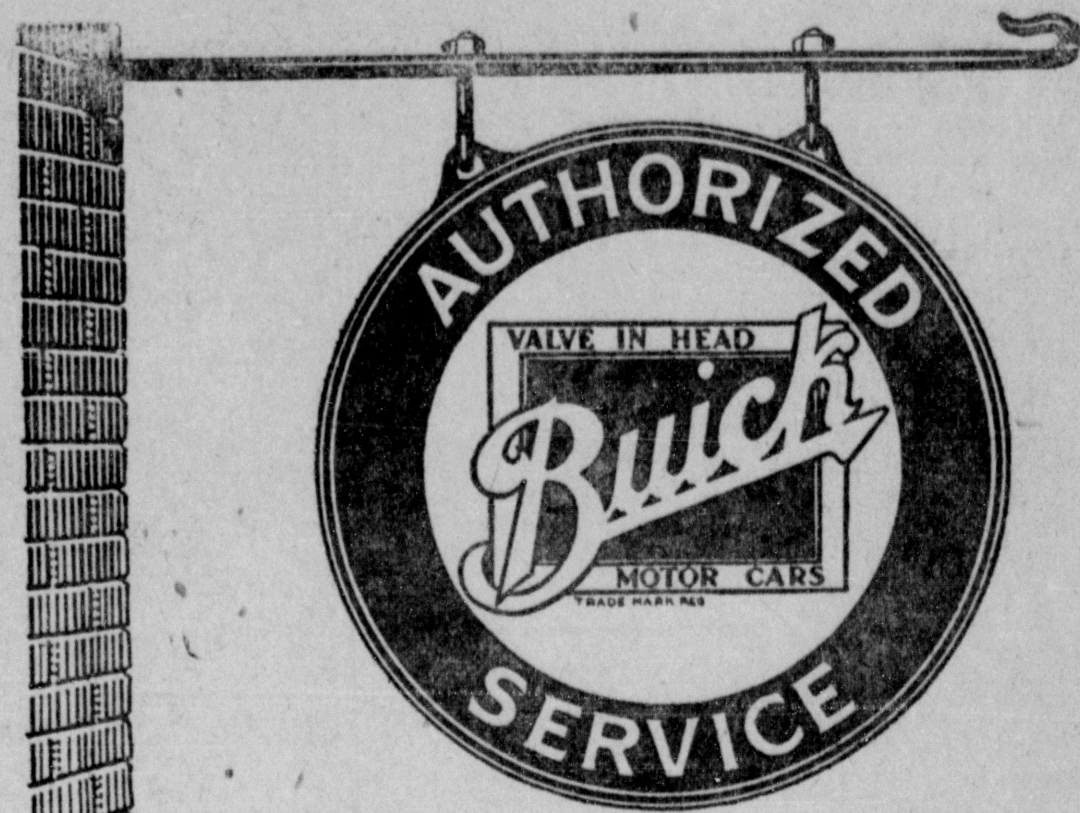

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-i-ka I can eat anything." Adler-i-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. New Cameron Drug Company. (Adv.)

Tanlac builds up the weak, run down system and makes you feel strong, sturdy and well, as nature intended. For sale by the New Cameron Drug Company and druggists everywhere.

## Pains Were Terrific

Read how Mrs. Albert Gregory, of R. F. D. No. 1, Bluford, Ill., got rid of her ills. "During . . . I was awfully weak. . . My pains were terrific. . . I thought I would die. The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach. . . I simply felt as if life was for but a short time. My husband was worried. . . One evening while reading the Birthday Almanac, he came across a case similar to mine, and went straight for some Cardui for me to try.

TAKE

# CARDUI

The Woman's Tonic

"I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my ills left me, and I went through . . . with no further trouble. My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui." For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women.

## AROUND THE COURT HOUSE

## DISTRICT COURT.

The State of Texas vs. W. C. Bryant, charged with unlawful sale of intoxicating liquor, which was tried last week, resulted in a verdict of guilty and punishment assessed at one year in penitentiary.

The State of Texas vs. Fritz Rochetzky charged with unlawful sale of intoxicating liquor, verdict of guilty, and punishment assessed at one year in the penitentiary.

In the trial of the W. C. Bryant case the state put a witness on the stand expecting to prove by him his purchase of liquor from defendant, but the witness said he did not know the party who had sold him the liquor, but admitted having made affidavit before the Justice of the Peace at Thorndale and had testified before the grand jury that he purchased it from the defendant, but stated that he had made a false statement before the grand jury. After witness retired from the witness stand the court ordered the sheriff to take witness into custody to await complaint on charge of perjury. The witness was placed under bond for \$1,000 to await the action of the grand jury. The court overruled motions for new trial in the cases of Bryant and Hochetzky, and they appealed to the Court of Criminal Appeals.

The State of Texas vs. Fred Calvin, charged with burglary, set for Tuesday, June 27th.

The State of Texas vs. Rinhard King, charged with burglary, set for Tuesday, June 27th.

The State of Texas vs. Joe Brown, charged with theft of horse, set for Tuesday, June 27th.

The State of Texas vs. Ed. Schiller selling intoxicating liquor, set for Wednesday, June 28th.

The State of Texas vs. Joe Syper, unlawfully selling intoxicating liquors set for Thursday, June 29th.

The State of Texas vs. two cases unlawfully selling intoxicating liquors set for Friday, June 30th.

The case of Will Heintze vs. Jas. A. Baer, receiver of the I. & G. N. Railroad Co., set for Monday, was reset for July 11th. This is a suit for damages for the overflow on Brushy Creek crossing near Thorndale.

## COMMISSIONERS COURT.

Commissioners Court met in special session this week. Road matters were considered.

## COUNTY COURT.

needs QUININE to Purify it and IRON to

Enrich it. Destroys Malarial germs and

Grip germs by its Strengthening, Invigorating Effect. 60c

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Hall's Family Pills for constipation.

## FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

## SCHEDULE

OF

## CAMERON

## BASEBALL TEAM

To July 14th

July 6th, Caldwell at Caldwell.

July 7th, Rosebud at Cameron.

July 8th, Open.

July 9th, Rosebud at Rosebud.

## NOTICE—

July 10th, 11th, 12th, 13th, and 14th, Cameron will play Jacksonville at Waco, at Carroll Field.

Being the best ball teams in central Texas these games will be well played and enjoyed by all. We want you at these games.

Games Called At 4 P. M.

## Cameron Baseball Club

The heavy-duty type Radiator must keep up the motor's efficiency, reduce fuel and oil waste—have it looked over by us regularly for cleaning, repairing.

Quick but thorough work—low prices.

## Milam County Hardware Company

FOR RENT Vacuum Sweeper, 131, Ever Ready Electric Company.

Advertising is not an expense, it's an investment.

FOR RENT—Six room house with garage, apply to Miss Pope, phone 153

## Twenty-Two Years Ago Today

The Citizens National Bank first opened its hospitable doors to the residents of Cameron. Twenty-two years in which it has been a constructive, stimulating force in this community and Milam county.

With every year's experience, new ways have been found to improve the equipment, increase the facilities and broaden the service.

Today, this institution is widely known for its far-sighted, progressive banking policy, dependability and strength; for its notable lack of cold business atmosphere that characterizes many institutions.

Courteous attention and the best in modern service is extended to our depositors, old and new.

## The Citizens National Bank

Capital and Surplus \$225,000.00.  
Cameron, Texas.

## Make Your Advertising Pay

Print your ad where your prospective customers will see it and will read it—in our Display Columns.

Post-cards and other direct-by-mail advertising plans are all very well, but—how many people read them? very, very few. Most of these selling plans reach the waste-basket when they do enter the average home or office—unopened—unread—a total loss to the advertiser.

The people of this community buy the Cameron Herald to take home and read. And they do read every line of it, advertisements as well as news and editorials. The amount you would spend on printing, addressing and mailing post-cards or pamphlets to each of these readers, would pay for an entire page in this Newspaper, where you could be sure of bringing your message to each reader's attention.

ADVERTISE AND GET RESULTS IN

## THE CAMERON HERALD

Phone 221.

OLD-TIME COLD CURE—  
DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

## RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

## THE CAMP MEETING—JULY 21-31

In order that two of three towns and four or five neighborhoods, several miles away might reach the meeting with reasonable ease, the place has been located at the Conoley school house, on the highway leading from Thorndale to Gano.

There is a little church house near by for the convenience of mothers and little children and the feeble or sick that may attend. Water will be provided daily. Those wishing to camp for a time can easily do so. The July dates suit best all families on farms.

Effort is being made for a country-wide meeting, hence the co-operation of all is desired. It is aimed to be an interchurch arrangement. It behooves all desiring a better country to put interest, work, sacrifice and prayer into it. Any selfishness or personal feeling would blight the influence and destroy the happiness of these manifesting it. BEWARE!

One day will be given to the American Legion, all enlisted men, and to the mothers and wives of such men. And one day will be for boys and girls. Dinner will be served on those days; soldiers and children first, respectively, with their mothers and wives. Dinner both Sundays.

The Tabernacle will be built out of lumber and covered with wagon sheets if they can be had. Kindly secure and let us have as many as possible the more the better. Place owners name on the canvass.

If any are lost or destroyed they will be paid for.

The seating capacity will be about 1000 and the best of lights already arranged for, will be used.

A man will care for the grounds day and night. All churches and part. If any can not join in a union their preachers are requested to take meetings for two weeks here, what about the meeting in heaven for all eternity. All kinds of musical instruments are again solicited. A small Revival book of old songs, shaped notes, will be used. A 15 cent book. Different leaders will be asked, from time to time, to lead the music. So be at your best and keep in a good humor.

You may not preach, but you can pray and have faith in God, and that is the main thing in a revival.

Numbers of friends out of the church are manifesting interest and have offered help, which is greatly appreciated. Of course church members will rally to the work. Pray for a great awakening.

Look for further notice and advertisement.

Irvin B. Manly, Pastor,  
Methodist Church Thorndale.

MR. CAMPBELL SOLICITS  
YOUR CO-OPERATION.

Thorndale Champion:

Regarding the Purebred Livestock and Poultry Association organized at Rockdale June 10, of which I was elected a Director for the Thorndale territory, I wish to have the co-operation of everybody in this territory interested in Purebred Livestock or Poultry and both Farmers and Business Men in my efforts to serve this territory, and any suggestions will be gladly considered.

The next meeting is to be held at Cameron Monday, July 3rd, and the question of our fall shows and sales and any other business which may come before the meeting will be considered at this meeting, and it is very

IF BACKACHE OR  
KIDNEYS BOTHER

Eat less meat and take a glass of  
Salts to flush out Kidneys—  
Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water, also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

important that we have a good membership from this end of the county so as to give our community a better representation and influence in the Association. Therefore I earnestly urge every person in this territory who is interested in the promotion of better livestock and poultry to join the association and give it your active support. The Agricultural class of The Thorndale High School is hereby invited to become members. The Commercial Club of other towns in the county are co-operating and I solicit the co-operation and counsel of the local club; in fact, I am wholeheartedly indorsing the organization of this county into the Association for I believe there is a great need of more and better cows, hogs, turkeys and chickens with our system of farming and I suggest that all who wish to become members either send their application to Mr. J. B. White, secretary at Cameron, or see one of the membership committee for Thorndale consisting of Robert Poe, A. K. Campbell and myself, before the next meeting. Be on hand Monday July 3.

If the Champion can spare space I will try to keep the community posted as to the progress and community benefits derived from the Association.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes.

More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

sociation.

Pledging my earnest co-operation,  
I am,

Respectfully,  
J. D. Campbell

CAMERON CITIZENS TO  
MAKE UP FISHING PARTY.

R. D. Brown, city secretary and treasurer and manager of the Cameron Compress Company; R. P. Jeter of the Jeter Lumber Company; Chas. A. Pitts, cotton merchant and Fred Thompson with the Cameron Compress Company, will leave Cameron on July 6 for Devils river where they will spend about one month on a vacation.

The party will go in the vicinity of Del Rio. All are true and tried fishermen and can recount many happy stories of camp life in the canyons and up where the eagle soars among the crags. The party will go by auto and when they reach their destination

will be many miles from the busy haunts of civilization.

R. D. Brown is completing this week an artificial bug, an ingenious invention to be used as a bait when casting for the big speckled ones in the waters of the Devils. While this process of invention has been going on Mr. Brown has confided to a few friends about how he expects the trout and bass to chase this bug and for the benefit of many lovers of forest and stream who will swelter in the stuffy confines of office and factory while these fishermen pass away the happy hours in the blue mountain fastness, the Herald will ask him to prepare to tell us all about it when he returns.

## BOX SUPPER.

At Marlow school house Monday night, July 10th for the benefit of the school. Candidates and the general public is invited to attend.

10¢  
They are GOOD!

**Heavy Milkers are Summer Fed**

Look up the production records of cows that show a big milk flow year after year, and you will find that they are all summer fed. Their owners have realized the deficiencies of only grass. Alone, it can't produce a maximum flow, because a cow can't consume sufficient grass to supply the necessary protein. The protein in grass varies throughout the season.

These inequalities of a grass ration are perfectly corrected by using

**Purina Cow Chow**

It not only furnishes ample protein—24%—but it is your absolute guarantee of purity and uniformity. Practical tests by dairymen show that Cow Chow will make the average cow produce

**6 lbs. more milk per day at an added cost of about 6c.**

## No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Advertising is not an expense, it's an investment.

## You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel it strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

"Where there is smoke there is always fire," so when twenty million well-known men and women in all walks of life say Tan-Lie is a good medicine, there must be something to it. For sale by the New Cameron Drug Company and druggists everywhere.

## BUCKHOLTS NEWS ITEMS.

Mrs. T. S. McFarland and children of Washington, D. C., are guests in the home of Mr. and Mrs. W. E. Coley.

## ALL WORN OUT.

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Cameron people endorse Doan's Kidney Pills. Ask your neighbor! You can rely on their statement.

S. E. Pitts, merchant, Nolan Ave., Cameron says: "About five years ago my kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore across my kidneys and felt played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left me. I ad-

vise anyone to try Doan's Kidney Pills who has any kind of kidney complaint."

Price 60c, at all dealers. Don't

simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pitts had. Foster-Milburn Co., Frgs., Buffalo, N. Y.

Hot Water Each Morning  
Puts Roses in Your Cheeks

Look one's best and feel one's best to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisons before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of indigestible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

## BUCKHOLTS PEOPLE TO GIVE BARBECUE

**JULY 12 DATE SET FOR ENTERTAINMENT AND PUBLIC SPEAKING.**

The people of Buckholts will give a big barbecue with public speaking by candidates for public office on Wednesday July 12.

D. R. Criswell of Buckholts was in Cameron Wednesday to announce the coming entertainment.

The barbecue will be held in the Adams grove near the city business district. A large canvass will be stretched for the comfort of the people on that day.

Mr. Criswell says that candidates for state and national offices will be asked to attend the meeting and to deliver addresses. The people of Cameron are invited to attend the barbecue and a special invitation is extended to the candidates in the county.

### METHODIST SUNDAY SCHOOL SCORES SUNDAY BASEBALL.

In regular session last Sunday June 25, the Methodist Sunday School adopted the following resolution:

Resolved that the Cameron Sunday School is very much opposed to playing base ball on Sunday and earnestly requests the management of the Cameron team that they refrain from playing baseball on Sunday at any place.

Resolved also that an invitation shall be extended to every member of the Cameron team to Sunday School.

### ASSISTANT CASHIER OF BANK AT THE AGE OF 20.

Mr. Clay A. Gibner of Spearman, Texas, is one of the youngest Assistant Cashiers in the country. He has the following to say in regard to his position: "Being only twenty years of age and now holding the office of Assistant Cashier of the First National Bank of this city. I feel that my record should be an encouragement to other young people who want to gain their independence. Before entering the above bank, I took a course at the Tyler Commercial College, and I take pleasure in recommending their courses to anyone who may want to qualify for a position in the business world. My observation is that the Tyler Commercial College is conducted in a very able manner, and their courses are well worth the time and money they require."

In our big illustrated catalogue are scores of other letters from our graduates. You will find them interesting. The catalogue is free. Fill in name and address and it will come to you by return mail. We prepare you for positions as Bookkeeper, Stenographer, Accountant, Private Secretary, Station Agent, Telegraph Operator, Cotton Classifier and Wireless Operator. We also teach by mail. Positions secured.

### Piles Cured in 5 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, smarting, bleeding or protruding piles. It instantly relieves itching piles, and you can get relief before the first application. Price 60c.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00. JAMES F. BALLARD, Prop. St. Louis, MO.

### BAPTIST CHURCH ON RECORD AGAINST SUNDAY BASE BALL PLAYING.

At the regular service of the First Baptist church of Cameron, at 11 a. m. Sunday, June 25th, 1922, by a unanimous vote, the membership of the church authorized the publication of the following resolution:

"Resolved That The First Baptist church of Cameron disapproves of Sunday base ball, and hereby earnestly requests that the management and members of the Cameron Base Ball Team refrain from playing base ball at any place on Sunday."

### HIGH SCHOOL ANNUAL READY THIS WEEK.

The High School Annual being printed by the Herald will be ready for distribution by Saturday of this week if no further delays are had. This book is a 96 page edition and in many respects the most attractive book gotten out in recent years by the school.

"I feel twenty years younger," is what thousands have said after Tanlac restored them to health. Try it. Sold by the New Cameron Drug Company and druggists everywhere.

### A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, invigorating Effect. 75c.

### Blacksmithing and Horseshoeing

Wood work a specialty, Mr. Joe Hamble, Sr., is the workman of the wood department. If it's anything that can be made of wood Mr. Joe Hamble, Sr., can do it no matter how small are big or nice, or hard to be made, he can make it. See us for your wood work. Cameron, Texas.

E. J. Sebesta

### OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache—no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure. (Advertisement.)

### SAYS CALOMEL SALIVATES AND LOOSENS TEETH.

The Very Next Dose of this Treacherous Drug May Start

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take

a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you

sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

## 3 LIVESTOCK SHOWS FORMILAM COUNTY; STOCKMEN MEET

### COUNTY SHOW AT CAMERON TO BE OPEN TO ALL EXHIBITORS.

Co-operation in the promotion of three live stock and poultry shows in Milam county during the fall of 1922 is the part the Milam county Purebred Livestock and Poultry Association will play in representing these vital interests of the county.

The co-operation of the Association will be given to the Thorndale Chamber of Commerce which holds a community livestock and poultry show in August and also the Rockdale Chamber of Commerce which holds an annual show in that city. The shows at Thorndale and Rockdale will be held just prior to the County Livestock and Poultry Show which will be held in Cameron on September 29 and 30, Friday and Saturday respectively.

The date for the Milam County Livestock and Poultry Show has been set for September 29 and 30 for the benefit of a number of Milam County hog, cattle and poultry raisers who will exhibit at the Dallas fair which begins on October 6.

At the first regular meeting of the Association held in Cameron Monday President Sam Mewhinney appointed a committee of three to confer with the several chambers of commerce of the county regarding the shows. To this committee, the names of the President and Secretary of the Association were added by motion. The committee is as follows:

Robert Poe, Thorndale; W. E. Gaither, Rockdale; George T. Graves, Cameron; Sam Mewhinney, Buckholts and J. B. White, Cameron.

A big feature of the Milam county show to be held in Cameron will be an auction sale of fine livestock and poultry. This is to be made an annual feature of the show. The following Committee was appointed to assemble livestock and poultry to go on the auction block during the two days of the show:

George Banzhaf, Rockdale; Paul Graves, Buckholts; R. E. Sharpe, Cameron; Sam Mewhinney, Buckholts; J. D. Campbell, Thorndale. The livestock and poultry to be auctioned off will be purebred stuff and in most instances has been donated by the exhibitors, the proceeds to go to the maintenance of the show.

Because its members are owners of all of the Purebred Livestock and Poultry in the county, the Association will be able to give invaluable assistance to the several commercial bodies of the county in arranging these shows.

The county show will be financed by the Cameron Chamber of Commerce and business men of Cameron. The program for the show will be worked out Friday night when the Association meets.

The meeting in Cameron Monday was attended by stockmen and poultry raisers from all parts of the county who have become members of the Association to aid in the promotion of the Livestock and Poultry industry in the county. A large number of new members were enrolled at the meeting.

President Sam Mewhinney set the date for the next meeting at Thorndale and September 5, being the first Tuesday in September. This will be a called meeting because Monday is a day on which A. & M. College men cannot leave the College. The constitution of the Association sets the meeting for the first Monday every two months but as it is planned to have A. & M. speakers at the Thorndale meeting the meeting has been called for Tuesday.

Hon. T. S. Henderson of Cameron addressed the meeting on Monday, expressing gratification at the organization of such an association in

Milam county. Mr. Henderson has been interested in livestock for many years, being an extensive farm and ranch owner in the county. He bespoke success for the association in the great work it has undertaken among the livestock and poultry raisers of the county.

Hon. C. M. Beard of Milano, former member of the Legislature from Milam county, and who is a member of the Association, spoke to the members of the Association, encouraging its aims and purposes. Mr. Beard who is a breeder of purebred livestock said that the association if possible should permit none but purebred stuff on the farms of the county. Purebred sires he said will solve the problem of better livestock and urged the members to adopt the policy of encouraging at all times the best of breeding methods. Mr. Beard also encouraged the poultry industry which he said had become one of the leading industries of the farm.

George Banzhaf, county agent, said that the purebred male among all livestock is fifty per cent of the herd. He said the members must swat the scrub male in their herds and among other things he proposed the publication of a bulletin for the benefit of the members to advertise the livestock of the county. He outlined the manner in which A. & M. College will aid the Association.

Robert Poe of Thorndale, breeder of famous Barred Rock chickens and who recently took three of the silver cups out of four offered at the San Antonio poultry exhibits, presented the show as a means of advertising the livestock and poultry. Mr. Poe will help the committee arrange the poultry premium lists and exhibits this year.

R. E. Sharpe of Cameron, breeder of the famous White Leghorn chickens, outlined what may be accomplished by persistence in the business and the use of proper strains of chickens and methods of care and breeding. Mr. Sharpe has developed a famous flock of White Leghorn birds and will be one of the principal exhibitors at the county fair this year.

Robert Poe told of the success of the Barred Rock Association of San Antonio of which J. N. Kincaid is president. Two years ago this association started with five members but is now one of the largest and most influential in America. Last year the association held a great show in San Antonio and for this year has secured the National show, the first time it has been held in the south, and Barred Rock exhibits will be in Houston from all over America and Canada.

W. M. Cobb, chairman of the Commercial Club committee for the Live-

stock show was present to act for the club, also C. R. Phillips, T. S. Henderson and George T. Graves. Mr. Cobb asked the Association for its co-operation in staging the county show in Cameron. On motion of T. S. Henderson as mentioned above the committee of five was named to co-operate in planning for the show.

It was decided after some discussion to make the exhibits open to the world and to encourage other counties to send in their livestock to the show at Cameron. At first it was thought best to confine the exhibits to Milam county producers but a brief canvass of the situation found members of the Association anxious to have outside competition in order to encourage better exhibits and better livestock in the county.

Scott Baldridge of Rockdale, breeder of the Big Bone Poland China hogs who took first prize at Dallas Fair last year, will give hog to the auction sale and will donate the proceeds to the expense of the show. Mr. Baldridge was cheered for his generous gift and was quickly followed by J. D. Campbell of Thorndale who offered a Poland China pig and some Barred Rock Chickens for the auction. In a short address Mr. Campbell stressed the advertising value of the show to the producers of Livestock.

George T. Graves, breeder of the

famous Hereford cattle, advocated the open competition plan that more and better livestock will be brought to Cameron show.

R. E. Sharpe also advocated the open show and offered to contribute some of his famous White Leghorn chickens to the auction block for the benefit of the county.

Reports from the membership committees over the county were heard and the following new members were reported to the secretary of the Association. Rockdale: J. E. Cook, John C. Scott, G. M. Edmonson, D. R. Wallis, B. Rekenbrecht, Perry & Quebe, Dr. H. G. Coulter, L. A. Baxter, H. L. Hudson, Ed. Simms, Citizens State Bank, First National Bank W. E. Gaither, H. P. Talley, W. E. White, Bob Hale, Rockdale State Bank, Daniel Sandford; Milano: C. M. Beard, Walter Newton, Lesser Newton; Thorndale: Robert Poe, Chas. Saller; Buckholts: J. A. Walschak, W. F. Sharpe, H. A. Fuchs, T. F. Criswell; Cameron: J. W. Coleman, J. D. Eplen, H. M. Hefley, J. K. Freeman, R. B. Pool, Dr. Jas. Watson, S. P. Cross, R. P. Jeter, Dr. M. C. Sapp, C. W. Read, Matt. B. Bailey, R. B. Rylander, T. S. Henderson, W. M. Cobb, Chas. Pollard, R. L. Batte, George T. Graves, J. D. Nesbitt, J. B. Rogers, C. R. Phillips, Cameron State Bank, H. E. Reason-

over; Davilla: H. B. Payne, B. H. Keith, B. M. Jennings.

Membership committees will continue their work until the county has been thoroughly canvassed for members. In a short time the work of getting listed with the secretary of all livestock in the county so that a catalog may be issued for the benefit of advertising will begin.

J. B. WHITE Secretary.

### No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and set as a General Strengthening tonic to the whole system. Nature will then throw off the worms, and the child will be in perfect health. The tonic is safe, and is a perfect tonic.

# KEY CROSS SHEDS LIGHT ON 15,000 KLANSMEN IN WACO

00 MADE CITIZENS OF INVI-  
SIBLE EMPIRE KNIGHTS OF  
KU KLUX KLAN.

Waco, Texas, June 28.—Under the  
effused light from a flaming cross  
red, erected at a height above the  
entire surroundings, and readily seen  
for miles around, and in an open  
space illuminated by the head lights  
from 3,621 automobiles facing the  
open square, approximately 15,706  
men participated in the initiation of  
008 into the Invisible Empire,  
of the Ku Klux Klan Thursday night  
in the pasture of Ollie Buchanan, four  
miles on the McGregor road. The  
scene was characterized as one of the  
most impressive and brilliant ever  
witnessed in this section of the coun-  
try, and the program included a big  
barbecue.

Under a pledge of secrecy, a re-  
porter from the Times-Herald was in-  
vited to the big barbecue and picnic  
which was held in conjunction with  
the initiation, and was allowed to  
witness the initiation in part, at  
times being taken to a considerable  
distance, and then brought nearer.

Great preparations had evidently  
been made for the event for some  
weeks beforehand, as everything  
seemed to be timed exactly to clock-  
work, and every detail apparently  
had been arranged with minute care.  
Representatives from klans from all  
over the state of Texas were said to  
have attended the initiation, which  
was a most impressive sight.

Early Thursday afternoon in Waco  
it seemed evident that something was  
"in the air." Men from all over the  
country were seen in town, and "it  
wasn't Saturday, either." As some-  
one remarked in the afternoon before  
the events, it seemed that almost all  
the cars favored, or were favored by,  
the men. As early as 5:30 o'clock  
cars began to wend their way to the  
scene of the big barbecue and picnic  
on the McGregor road, and that sec-  
tion of the county was soon literally  
alive with cars. A constant stream of  
automobiles traveled from Waco, out  
the McGregor road, and progress was  
exceedingly slow. White robed fig-  
ures some on horseback, stood guard  
around the field, and none but the  
properly qualified were admitted. An  
adding machine was installed at each  
entrance, it was stated, and the record  
made thereby of those attending.  
Cars were parked in a line around an  
open space approximately a half mile  
each way, the fronts of the cars point-  
ing toward the center. Within the  
center of the space was the point  
designated for the initiation, and  
equipped as such.

Although all the klansmen had not  
arrived until fully 8 o'clock, the bar-  
becue dinner was begun near 7, and  
there was plenty for late arrivals.  
Provisions had been made to accom-  
modate 10,000 men, but the relay plan  
solved the problem of the serving of  
the additional number attending. Ac-  
cording to officials in charge of the  
serving, five tons of beef and one ton  
of goat meat were barbecued over a  
900-foot pit, and served on tables ex-  
tending over a space aggregating  
8,000 feet. The tables were made of  
boards 12 inches wide, laid two across  
and it is said these boards laid end to  
end would have reached approximately  
to the Amicable building from the  
picnic grounds.

There were three barrels of pickles  
used, about 30,000 buns provided, and  
coffee was served from a 300-gallon  
coffee pot, said to be the largest cof-  
fee pot ever made in Waco. Ten  
thousand cups, 10,000 plates, 10,000  
spoons, and 10,000 knives and forks  
were provided, it was said, and every  
other detail arranged accordingly.  
Everybody was given more than  
plenty, and 25 barrels of ice water  
located at convenient stations over  
the field served the klansmen.

The initiation scene was a most im-  
pressive one. Just about dark, and  
prior to the beginning of the cere-  
monies, a big cross, erected on a 50  
foot telephone pole, and measuring  
25 feet wide by a little more than that  
long and studded with hundreds of red  
colored electric bulbs, blazed forth  
amid the cheers of all. The scene of  
the ceremony was a slightly sloping  
hill-side, and the cross was at a  
height above all. It was plainly visi-  
ble from the road, and could even be  
seen from Waco. Electricity from  
four lighting plants illumined the  
cross, and furnished lights for the  
activities.

The two thousand and more candi-  
dates for initiation were lined up in  
a column of fours, and marched past  
two lines of white robed figures. Be-  
fore the ceremonies had begun, all  
klansmen bowed their heads, and an

impressive prayer was spoken by a  
minister, said to have been a member.  
The candidates marched into an open  
space surrounded by klansmen, and  
there the initiation was held.

In the center of the ring an Ameri-  
can flag was raised amid the cheers  
of Klansmen, and delicately and beau-  
tifully colored lights played on it  
while it waved in the breeze, making  
a most impressive sight. A truly  
flaming fiery cross was also carried,  
its flames being fed from a gas tank.  
The strains of "America," "Nearer,  
My God, To Thee," and other impres-  
sive songs were heard from the group  
as the writer viewed that part of the  
ceremony from a distance. Absolute  
silence prevailed among the thous-  
ands surrounding the candidates as  
the solemn ceremony progressed.

Old men walked by the side of  
young men in the initiation. All  
seemed to have forgotten everything  
and a certain look on their faces be-  
trayed a feeling of common enjoy-  
ment and a real purpose. One very  
old man had to be assisted in the  
march by a robed klansman, but he  
appeared to be the hoppiest of all.

As the ceremony began, the head-  
lights of the thousands of automob-  
iles were turned on, and the im-  
mense square was illumined by their  
glare. The sky overhead was clear,  
and a new moon seemed to shower  
down its good will on the scene.

Following the initiation, several  
short addresses were made by klans-  
men, both of Waco, and by those who  
had come from afar. The purposes  
of the klans were told, and its virtues  
extolled by all. An interesting point  
was brought out by one of the speak-  
ers when he asked all men who had  
been klansmen in the reconstruction  
days of the Civil War to stand. There  
was a goodly sprinkling of white  
haired men who stood, and some of  
them shouted. With the red illumined  
cross high up above all, the head-  
lights from the automobiles still  
glaring in on the scene, and the moon  
sinking low on the horizon, the speak-  
ing continued for a period, and then  
the meeting came to an end.

## MARLOW PRESBYTERIAN CHURCH SERVICES JULY 9.

Services Sunday afternoon at 3:30  
as usual.

H. R. McFayden, Pastor.

## PRESBYTERIAN CHURCH.

There will be the regular services  
Sunday morning and evening, preach-  
ing both services by the pastor. Our

GROVE'S signature on box.

## RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop  
the pain. Break up the congestion. Feel  
a bad cold loosen up in just a short  
time.

"Red Pepper Rub" is the cold rem-  
edy that brings quickest relief. It can-  
not hurt you and it certainly seems to  
end the tightness and drive the conges-  
tion and soreness right out.

Nothing has such concentrated, pen-  
etrating heat as red peppers, and when  
heat penetrates right down into colds,  
congestion, aching muscles and sore,  
stiff joints relief comes at once.  
The moment you apply Red Pepper  
Rub you feel the tingling heat. In three  
minutes the congested spot is warmed  
through and through. When you are  
suffering from a cold, rheumatism,  
backache, stiff neck or sore muscles,  
just get a jar of Rowles Red Pepper  
Rub, made from red peppers, at any  
drug store. You will have the quickest  
relief known.

## THE STORY OF A CHECK.

Here is a fine example of home  
industry benefits.

Last week the Owens Refining  
Company issued a check to John  
W. House for \$18.00. This check  
was given Mr. House for royalty  
on oil lands. The check was given  
the Electric Service Station by  
Mr. House. The check then in-  
turn was given to the Owens Re-  
fining Company in payment for  
gasoline for the filling station.

Thus within a few days the  
check again rests with the original  
giver.

Think of the money sent away  
they never pay a debt in the com-  
munity and never comes back.

## CHARLES HOWES OF MILANO WITHDRAWS FROM TREASURER RACE.

Charles Howes of Milano, candidate  
for county treasurer of Milam county  
has withdrawn from the race. While  
no formal announcement has been  
made by Mr. Howes his name was not  
placed upon the ballot when given to  
the Herald printing department for  
printing.

Mr. Howes was for many years  
postmaster of Milano and has many  
friends in that section of the county.

## 666

666 is a prescription for Colds,  
Fever and LaGrippe. It's the most  
speedy remedy we know.

LOST—Highly valued watch fob,  
gold locket on leather strap. Locket  
hand engraved on one side with J. E.  
M. engraved on the other side. Lost  
at ball park please return to J. E.  
Mangum for reward. 8 2t

## Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-  
prepared Syrup Tonic-Laxative for Habitual  
Constipation. It relieves promptly but  
should be taken regularly for 14 to 21 days  
to induce regular action. It Stimulates and  
Regulates. Very Pleasant to Take. 60c  
per bottle.

## HEALING CREAM STOPS CATARRH

Clogged Air Passages Open at  
Once—Nostrils Cleared

If your nostrils are clogged and your  
head stuffed because of catarrh or a  
cold, get Ely's Cream Balm at any drug  
store. Apply a little of this pure, anti-  
septic, germ destroying cream into your  
nostrils and let it penetrate through  
every air passage of your head and  
membranes. Instant relief.  
How good it feels. Your head is  
clear. Your nostrils are open. You  
breathe freely. No more hawking or  
snuffling. Head colds and catarrh  
yield like magic. Don't stay stuffed  
up, choked up and miserable. Relief  
is sure.

## DOES YOUR COMPLEXION RIVAL THE ROSE'S?

A pretty girl should look her best  
in the morning—awakening with flower-  
like freshness of complexion, welcom-  
ing the revelations of searching sun-  
shine.

Such charm is not necessarily a  
gift of nature, but the result of know-  
ing what your skin needs—of giving it  
the intelligent daily care which makes  
it bloom with health.

The secret is a thorough cleansing  
every day to remove all dirt, surplus  
cold cream, rouge and powder. This  
can only be done with soap.

The soap must be mild, balmy  
and soothing in its action. Palmolive  
is such a soap. It is the scientific blend  
of Palm and Olive oils, the cosmetic  
cleansers of Cleopatra.

You can buy Palmolive Soap at  
all first class groceries and drug stores.

THE PALMOLIVE COMPANY /  
Milwaukee, Wis.

## To Stop a Cough Quick

take HAYES' HEALING HONEY, a  
cough medicine which stops the cough by  
healing the inflamed and irritated tissues.  
A box of GROVE'S O-PEN-TRATE  
SALVE for Chest Colds, Head Colds and  
Croup is enclosed with every bottle of  
HAYES' HEALING HONEY. The salve  
should be rubbed on the chest and throat  
of children suffering from a Cold or Croup.  
The healing effect of Hayes' Healing Honey in-  
side the throat combined with the healing effect of  
Grove's O-Pen-Trate Salve through the pores of  
the skin soon stops a cough.  
Both remedies are packed in one carton and the  
cost of the combined treatment is 35c.  
Just ask your druggist for HAYES'  
HEALING HONEY.

## To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets.) It  
stops the Cough and Headache and works off the  
Cold. E. W. GROVE'S signature on each box. 30c.

## Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails  
to cure Itchiness, Blind, Bleeding or Protruding  
Piles. Instantly relieves Itching Piles, and you  
can get restful sleep after first application. 60c.

"Hey, you Buck an'  
Charley, you go an'  
lay down for a time  
while I get to the deep  
bottom of this big  
bowl of Kellogg's Corn  
Flakes an' fruit for  
my lunch! Fishes have  
got to wait for me  
when I eat Kellogg's—  
you jes' betcha, boy!"

## Health and happiness in every spoonful of Kellogg's CORN FLAKES

For tomorrow's breakfast—treat the family  
to Kellogg's Corn Flakes and fresh fruit! See  
that there is a big pitcher of cold milk ready!  
And, urge each big and little family member to  
eat plenty, for Kellogg's are the perfect warm  
weather food!

Kellogg's Corn Flakes are not only delicious  
in crispness and flavor, but they're wonderfully  
nourishing and refreshing. They give stomachs  
a chance to rest in warm weather because they  
digest so easily. Eat Kellogg's regularly and get  
away from so much heavy foods  
and see how much better every  
one in the house feels!

Insist upon Kellogg's Corn  
Flakes in the RED and GREEN  
package that bears the signature  
of W. K. Kellogg, originator of  
Corn Flakes! None are genuine  
without it!

Also makers of KELLOGG'S KRUMBLER and KELLOGG'S BRAN, cooked and krumbled

## Free Proof That Ironized Yeast Builds Weight

Beautifies Skin and  
Gives New Energy To  
Thin, Run-down Folks

Do you need more flesh? Are you run-  
down, pale or scrawny looking? Do you  
lack energy—or is your skin blushed  
by humiliating pimples, blackheads or  
boils? If so, here is good news for you!  
Simply mail coupon below for the famous  
Three Day FREE Trial Treatment of  
IRONIZED YEAST. Take these re-  
markable tablets—two with each meal.  
Then get ready for a surprise!

## Watch the Quick Results!

You simply will not believe your eyes when  
you see how quickly your skin begins to freshen,  
and how quickly pimples, etc., begin to disap-  
pear. Note the immediate increase in appetite  
and energy. And as for putting new, hard flesh  
on your bones—not flabby fat, but good firm  
flesh—people report gaining five pounds, as in  
IRONIZED YEAST, these results are secured  
often in just half the usual time!

## Yeast Best With Iron

The reason IRONIZED YEAST brings such  
splendid results is because it contains specially  
cultured medicinal yeast which is unequalled  
for its richness in the essential Water Soluble B  
vitamines. Also contains the correct amount  
of the two other vitamins—Fat Soluble A and  
Water Soluble C—which are equally important  
to health, yet lacking in the modern diet.  
\*Vitamins bring fine results even if taken  
alone—but when taken with a proper amount  
of easily assimilated, organic iron, as in  
IRONIZED YEAST, these results are secured  
often in just half the usual time!

## Try Ironized Yeast Today

Simply mail coupon for the wonderful Three  
Day FREE Trial Test. Or go to your druggist  
and get IRONIZED YEAST on our guarantee  
that the first package will bring satisfactory results  
or your money instantly refunded. You  
will be amazed at the quick improvement IRONIZED YEAST shows in you. Get it today!

## WARNING!

There are certain types of yeast which have  
absolutely no medicinal value. By insisting  
on IRONIZED YEAST, and refusing cheaper  
imitations or substitutes, you can be sure  
that you are taking a vitamin tonic treat-  
ment which is unsurpassed in effectiveness,  
convenience and genuine health-building  
value.

Note: Full Sized Packages of IRONIZED YEAST Sold at all Druggists

## FREE!

Amazing 3-Day Test

#### HONEST WEIGHTS AND MEASURES.

The Cameron Herald Magazine Section of date of July 20, will have a story on "Honest Weight and Measures," written by Chas. E. Baugham, commissioner Markets and Warehouse Department State of Texas. All our readers will appreciate this story. It deals with short weights and measures as practiced by a few dishonest dealers in Texas.

Subscribe for the Cameron Herald and get the Magazine Section free.

#### SECRET OF HAPPY MARRIAGE.

In the forthcoming issue of our Magazine Section of July 20, date is an article written by Kathleen Norris, entitled: "Secret of Happy Marriage." The writer is of the opinion that the average bride is bewildered with the glamour of her wedding day and expects an easy, joyful time all the rest of her life. "In fact," explains Mrs. Norris, "successful marriage lies in service

and in motherhood, and in work, mixed with thoughtfulness and tenderness for the husband."

Subscribe for the Cameron Herald and get our Magazine Section without extra cost.

#### THE TEXAS FARMER IN PIONEER DAYS.

Mr. Geo. W. Tyler, of Belton, was a Texas pioneer farmer and he tells in the Monthly Magazine Section of the Cameron Herald to be issued July 20, how his father and other pioneer farmers cultivated the land in the 40's and 50's plowing altogether with oxen and mowing the grain with scythes (or cradles) Our black lands, writes Mr. Tyler, were once regarded as "worthless prairie" until the introduction of barb wire which afforded a practical means of fencing the prairie lands. WATCH for our magazine section!

## CAMERON 2; CALDWELL 1.

Although the Caldwell nine picked out eight safe ones with the bat off Slim Haislip they could not make them count and Cameron, superior in diamond tactics, made five hits, net 2 runs. It was something of a pitcher's battle between Severn for the Caldwell nine and Haislip for the Comets.

The score:

CALDWELL—	AB	H	R	PO	A	E
B. Rankin, ss.	5	1	1	1	5	2

## CAMERON 19; ROSEBUD 4.

Adding machines were necessary on last Thursday to compute the totals. It was a wild massacre of good ball club when the Comets putting on a little extra blaze made twenty-two hits count for nineteen runs off Rosebud at Comet park. Casualties from the Roses firing line read like the casualty lists of Vimy ridge. The Roses exhausted their firing squad and everybody was given an opportunity to pitch but the Comet artillery had the range and Manager Rogers called for a little more grape shot.

Rosebud made nine errors which contributed to the expensive gains made by the Comets. Cook and Edens pitching for Cameron gave up only six hits which the buds could make count for only 4 runs. It required two hours and twenty minutes to play the game. Homer Peel who has dropped to second place in batting came up six times and cracked out five hits for the day. One of the features of the game was the home run by Edens.

The score:

ROSEBUD—	AB	H	R	PO	A	E
Ellis, 2b. ss.	5	1	0	1	4	1

Totals 45 22 19 27 15 3

Struck out by Cook 6, Edens 1, Munch 1, Woods 1; base on balls off Munch 3, Cook 4, Wood 1, Edens 2; hits off Cook 4 in 7 innings, off Edens 2 in 2 innings, off Munch 10 in 4 innings, off Lanning 2 in 1 inning, off Woods 10 in 4 innings; Stolen bases Mulcahay 3, Nowlin 1; two base hits, Peel, McGlasson, Nowlin, Mulcahay and Edens; home run Edens; time of game 2:30; Umpire West and Shumate.

skyline of batting average and is leading the club with a per cent of 472. He has displaced Peel who is second with an average of 376.

The following table will show the batting and fielding averages of the club members:

# FLOOD CONTROL TO BE TALKED HERE

## COMMERCIAL CLUB MEETING FRIDAY NIGHT FOR RECLAMATION PROGRAM.

Reclamation of more than 100,000 acres of farm lands in the valley of Little River and the Brazos in Milam and Brazos counties, will be planned at a meeting to be held here Friday night.

The Legislature has made provision where bonds may be voted by districts to carry on levee and reclamation work.

The following out of town speakers will be on hand:

Luther A. Johnson, Corsicana.  
C. S. Clark, Austin.  
A. H. Dunlap, Austin.  
C. E. Elsworth, Austin.  
Lee Rountree and Jackson of Bryan.

## LEFTY THOMAS HAS KALSOMINE SUPPLY.

Taylor—Lefty Thomas tossed his glove out on the diamond in Taylor Tuesday, and the Taylorites were beat, but didn't know until the customary nine innings of baseball were reeled off before a great holiday gathering of 1500 Williamson and Milam county fans. Thomas applied the kalsomine to the locals in artful fashion. Only three hits were obtained off his delivery and the Comets

hung up another victory, this time by a score of 4 to 0.

Mike Flannagan of one-time more or less big league fame, and who still has that fast one, which has made him one of the most feared pitchers in independent circles for the past few years, was in the box for Taylor, and he gave a very creditable box exhibition. A two-base hit by Red Partain of the visitors with two on, however, proved his undoing. Homer Peel, sensational Cameron youngster, also hit a double. At that, however, only six hits were garnered off the delivery of the former Southwestern university pitcher, and it was a real battle all the way through.

The pitching of Thomas was the outstanding feature. Not a Taylorite reached first base off his delivery after the third stanza. The great southpaw is looking better on each day out, and is bound to deal some misery to the much-touted Jacksonville team in Waco next week.

Both clubs were superb in the field today.

The score:

	R	H	E
Cameron	4	6	0
Taylor	0	3	1

Thomas and Henderson; Flannagan and Ferguson.

Struck out by Thomas 6, by Flannagan 5. Umpires, Proctor and Brock.

## ENTHUSIASTS NOW ASSURED TRAVELING BE CONVENIENT.

J. E. Smith, local agent of the S. A.

and A. P. railway, the Cameron Chamber of Commerce and the Waco News-Tribune are in receipt of a letter from George F. Lupton, general passenger agent of that railway at San Antonio, announcing that the southbound "Sap" due to leave Waco at about 4 p. m. will not leave this city next Monday, Tuesday, Wednesday, Thursday and Friday until after the base ball games between Jacksonville and Cameron are staged.

This is done at the request of local authorities and those of Cameron, in order that the hundreds of Cameron and Rosebud fans, as well as those from other communities along the line may come to Waco on the train which arrives here at about noon, and then leave immediately after the contest of each afternoon.

With the co-operation of the S. A. and A. P. railway in making the semi-pro "world series" a success, there is hardly a doubt but that enthusiasts from Cameron, Rosebud, Lot, Ben Arnold and all down the line, as well as fans below Cameron will flood the city for the great series.

The train will leave each afternoon immediately after the game.

Both Cameron and Jacksonville continue to stamp all opposition. The Comets have run their list of victories to well over 20, with only one defeat and the Jacksonville Bears have lost only two games in nearly 20 starts.

Lefty Thomas, former Fort Worth Panther star, who pitched the Cats to a 1 to 0 victory over the Cincinnati Reds during the training season, is regaining his early-season cunning

with the Comets, and will probably be sent to the mound in the opener next Monday. He will probably be opposed by Teddy Lyon, all-conference base ball and basket ball star during the past season at Baylor.

It will be largely the Baylor university team, eligibles and ineligibles against the cream of the University of Texas and Texas A. and M. talent. Battles worth going miles to see can be expected daily. E. W. Provence is fast getting the well known turtle-back diamond at Carroll field in top shape, and by Monday it will be in just as good condition at it was during the intercollegiate season.

Rivalry between the adherents of the two clubs is becoming keener each day. While it is natural that the great portion of the Waco fans line up with Manager Bridges and the Baylor stars, the Comets are not without their following in this city. Nothing better than even money is being offered on this crucial series, and the Jacksonville backers are getting just about all their money called. Odds of 2 to 1 were offered Wednesday by a Cameron backer that Lyons would not win two games during the series, but there were no callers.

The short end of that bet doesn't sound so good, although granting that Teddy is a wonderful pitcher.

Mrs. Edward Cathom of Dallas is in the city visiting her parents, Mr. and Mrs. J. D. Cone.

FOR RENT—Two furnished rooms for light house keeping. Phone 388.

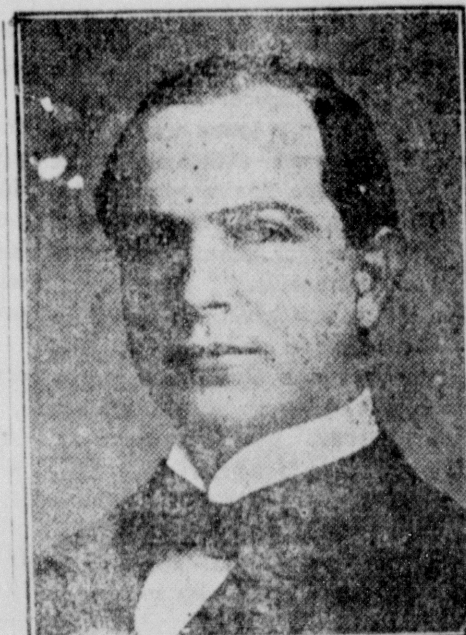

# EARLE B. MAYFIELD

Candidate For

## United States Senator

Will Address the Citizens of Milam County at

**CAMERON**  
Saturday, July 8th  
AT 3 P. M.

EARLE B. MAYFIELD

## On The Court House Lawn---HEAR HIM!

Mr. Mayfield is the only candidate for the United State Senate who offers a definite program to the solution of the many perplexing problems confronting the people at this time.

The farmers and the entire public are suffering from excessive freight and passenger rates, and Mr. Mayfield offers definite relief.

Statistics show that at many points it costs more to ship a calf 100 miles than the animal is worth, while all over Texas our farmers are having to let their product decay in the field on account of the prohibitive freight rates. Mr. Mayfield is truly the farmers friend.

Mr. Mayfield has always been a staunch prohibitionist and a leader for the cause of woman suffrage

He stood for these issues in the days when they were unpopular. He has been unswerving in his convictions, and has had the courage to express and make a fight for his beliefs. Hundreds of women Mayfield Clubs have been organized in Texas.

Mr. Mayfield is an eloquent speaker and his platform appeals to people of every walk of life. He has made the most vigorous campaign of any candidate for the Senate, having delivered more than 150 addresses in behalf of his candidacy. It will be a treat to hear him.

All voters of Milam and surrounding counties are invited to attend his speaking here Saturday night which will be the epochal event of the present political campaign.

## W. A. Johnson of Hall County Here

## CANDIDATE FOR LIEUTENANT GOVERNOR GREET'S FRIENDS IN COUNTY.

W. A. Johnson of Hall county, former Lieutenant Governor, and now a candidate for re-election to that office was in Cameron Thursday greeting his friends, having come over from Rockdale.

Mr. Johnson has always carried Milam county and has many strong friends and supporters here who are urging his candidacy for the lieutenant governorship.

The stand of Mr. Johnson on the prohibition question is well known and his political record is one of standing for clean politics and all moral issues.

Regarding his race Mr. Johnson said:

"My record for ten years, as a member of the Senate, stands four-square for Economy, Efficiency and Law Enforcement. I am the author of the law raising the age of consent for girls, the law which put pool halls out of Texas, and the first resolution to investigate Jim Ferguson. I am for Prohibition and Equal Suffrage. A ruling by me, in the chair of the Senate, made it possible to ratify the Equal Suffrage Amendment in Texas."

### PATRIOTIC PARTY.

Last Monday night Mr. and Mrs. John Mangum entertained quite a number of their friends at a forty-two party on the lawn.

The lawn was strung with electric lights and colored lanterns.

The color scheme of red, white and blue was carried out in every way.

Fifteen tables were arranged covered with red white and blue covers and marked with numbers hanging between two flags. Tally pads featured "Uncle Sam," score cards were shields and when a game was scored a fire cracker was attached, while "84" favors were "baby giant" fire crackers, flags, caps, kewpees, horns, and hats, suit cases, drums filled with candy, and parasols.

The party was given in honor of Mrs. John Snyder of El Paso, and Mrs. Mangum was assisted in entertaining and serving by Mesdames George Graves, Fritz Fahrendorf, Snyder and Myrtle Avriett.

Red punch was served throughout the evening and at the close delicious brick cream in the stars and stripes and angel food cake was served.

### MRS. KERBY BOWLES HONORED.

Mr. A. R. Tucker, manager of the Bell Telephone Company left last week for Burk Burnett, and Mrs. Kerby Bowles was made chief cashier and supervisor, and Mr. Roy Elkins of Hillsboro was made manager of wire department. Mrs. Bowles well deserves her promotion having served so efficiently so long.

### WESLEY BIBLE CLASS.

Last Thursday afternoon the Wesley Bible class of the M. E. church entertained with a picnic party at the city park. Mrs. W. H. Triggs has charge of the class now.

They sang and several talks were made and an unique contest, gotten up by Mrs. R. H. McIntosh, was given.

The contest was "Sweet Courtship." Mrs. McIntosh read the story and the ladies filled out the blanks. Mrs. S. A. Cottle won the prize, a delicious cake.

### MRS. CLAUD TRIGGS HONORED.

Last Friday afternoon Mrs. Alex Triggs entertained at forty-two in honor of her new sister, Mrs. Claud Triggs. The home was decorated in all kinds of cut flowers.

Six tables were arranged and a number of spirited games played.

Mrs. Triggs was assisted throughout the afternoon in entertaining and serving by Mesdames W. H. Triggs, W. O. Triggs, W. A. Bonds and Miss Estha Fielder.

A combination salad and ice course was served, wafers, fruit salad in tomato cups and sherbet.

Plate favors were miniature brides.

The guests present were the Kilcare-Siema Phi Club, Cameron's other bride, Mrs. Hayden Lawrence and a few other friends.

### MRS. GILES AVRIETT

ENTERTAINES.

Last Thursday morning handsomely

the home of Mrs. Giles L. Avriett knowing from other experiences that this party would be another charming success.

Mrs. Avriett, in her usual joyous and happy style welcomed fifty or more ladies.

Her little home was most artistically decorated throughout. Baskets and vases held pink crepe myrtle, lavender phlox, zenias, and other pink and lavender flowers in keeping with color scheme pink and lavender.

Twelve tables were arranged, with table No. 1, especially decorated and prepared for the two brides, Mesdames Claud Triggs and Hayden Lawrence, this table was decorated with blue birds hanging from the ceiling with the breeze blowing them about over the heads of the brides.

Miniature corsage bouquets made of orange blossoms marked their places.

At this time Master Giles Avriett came in and said he wanted to make a speech to the brides, which he did in a courtly way. The names of his piece was "The Four Leaf Clover."

If these brides will remember Giles' little speech and "love and smile and have faith" they will indeed have happy lives.

Beautiful floral design score cards fan and butterfly shape were distributed and with a glorious south breeze blowing and electric fans a number of enjoyable games were played.

Mrs. J. C. Tucker won high score and was presented with an arm bouquet of lavender parenial phlox, and Mrs. L. R. McCown was consoled with a large bouquet of lavender and pink zenias.

Eighty-four favors added life and zest during the games. There were small ivory fans, lunch baskets, tennis rackets, potted plants and kewpies, and were distributed by Miss Myrtle Avriett.

Mrs. Avriett was assisted by her sisters, Mesdames Charles McDermott, W. O. Triggs, Wm., Rogers, Misses Jeff Lewis, Myrtle Avriett and Mrs. Fritz Fahrendorf.

A delicious two course luncheon was served consisting of shrimp salad, potato chips, sandwiches, wafers, pineapple salad, olives and lavender colored ice cream—each glass decorated with a pink, blue or white butterfly—and angel food cake.

The ladies were profuse in thanking Mrs. Avriett for the mornings pleasure and congratulating her upon the success of her party.

### DANCE AT BURLINGTON.

The young people of Burlington gave a dance Tuesday night and invited some of the young people from Cameron.

The Howell Bros. Band—"The Moonshiners," played for the dance.

Those attending from Cameron were: Misses Jaunita Caldwell and guest, Ellinor Phillips, Nona Hubert, Irene Cheeves, Ruth Wiley, Gladys Watson, Mary and Jenny Tyson, Gladys Walker and Mary Young. Jack Adams, Albert Collins, Leslie Ballard, Emil Klatt, Vernor Roberts, Fountain Elison and others.

### TYSON-McCALL.

A wedding of unusual interest was that of Mr. Clyde Tyson of Cameron and Miss Winnie McCall of Rogers.

Last Friday morning at 7 o'clock the relatives and intimate friends gathered at the home of the brides' parents, Mr. and Mrs. D. B. McCall to witness the sweet and impressive ceremony.

The home was very effectively decorated with floral baskets of gladiolas and ferns.

A beautiful arch in lattice style was made of fern under which the bridal couple stood.

Very sweetly, Miss Jenny Tyson, sister of the groom, played the Bridal chorus from Lohengrin.

The attendants entered first, Mr. Roy Tyson and Miss Sue Belle McCall followed by the bride on the arm of the groom. The Rev. J. F. Adams, of the M. E. church officiating using the ring ceremony.

The bride wore a handsome going away gown with accessories entome and carried a tiny brides' Bible from which fell snowy blossoms.

Miss McCall is the accomplished and talented daughter of Mr. and Mrs. D. B. McCall of Rogers, a graduate of Rogers High School, and later attending State University at Austin, after which she became a very popular and efficient teacher at Calvert and Taylor.

Mr. Tyson is the son of Mr. and Mrs. R. R. Tyson of Cameron, a graduate of Cameron High School and later attended A. and M. College and State University. He is now a popular young business man of Hillsboro, associated with the Cooper Grocery Company, wholesale grocers, of Waco.

Immediately after the ceremony a reception was held and the guests served delicious punch by Mrs. J. W. Thomas.

Amid hasty congratulations and best wishes the happy couple departed in their car for Houston, Galveston and other points of interest. After a few days they will be at home in Hillsboro.

The Cameron Herald and a number of other friends wish for this worthy couple long life and prosperity.

### Hosmer-McLane Wedding Wednesday High Noon.

At high noon Wednesday the W. T. McLane on West Seventh Street was the scene of what was certainly the most charming and radiant home wedding the month of June has brought in Taylor's social life, when Miss Katherine McLane of Taylor became the bride of Mr. Carey Hosmer of Tulsa, Oklahoma. Dr. James L. Hardy of Houston, former pastor of the First Presbyterian church here and long time friend of the bride's family, performed the ceremony, using the beautiful double ring ceremony.

Preceding the entrance of the bridal party Mrs. Wm. Ennen accompanied by Mrs. S. I. Reinhardt as accompanist, Stultz's "Sweetest Story Ever Told," and Guy de Hardelot's "Because." The bridal party entered to the strains of Mendelssohn's "Wedding March," played by Mrs. Reinhardt, and during the ceremony an appropriate selection from Schubert was softly played.

The living room was decorated in green and white, the green of smilax blending into the profusion of gladiolas and asters to form a color symphony that was more than beautiful.

The improvised bower in one corner of the room was a charming nook from fairyland, the interwoven smilax sprinkled with lilies of the valley, formed a pleasing canopy, while baskets of stately white asters, tuberoses and clematis, placed on either side, added their wonderful beauty and elusive perfume, and overhead united hearts of puffed maline and lilies of the valley, scattered the joy of their union in a cascade of flowery sweetness.

At the opening notes of the wedding march Dr. Hardy took his place. Miss Leola Templeton of Waco, accompanied by Mrs. J. R. Cobb of Atoka, Oklahoma, led the bridal procession, gown in white chiffon and carrying an arm bouquet of pink carnations. Following came the four bridesmaids, Miss Margaret McLane, sister of the bride, and Miss Roselle Peavey of Garland, were dressed in pink organdy with picture hats of white georgette and carried bouquets of pink sweetheart roses; Miss Sallie Kate McLane of Cameron and Miss Georgia Hosmer, sister of the groom, of Atoka, Oklahoma, wore white organdy, with picture hats of pink georgette and carried bouquets of pink sweetheart roses.

These were followed by the maid of honor, Miss Frances McLane, sister of the bride, who was charmingly gowned in pink taffeta, with an over-dress of Spanish lace, and carried a bouquet of pink sweetheart roses.

The ring bearer, Little Miss Lucille Templeton of Waco, entered with the ring borne on a single gorgeous callily. She wore a dainty frock of white chiffon.

Little Henrietta Ennen, the charming flower girl, dressed in pink georgette, scattered rose petals in the bridal train. The bride entered on the arm of her father, who gave her in marriage. Attired in a charming wedding gown of white taffeta, trimmed with princess lace, draped gracefully over white, with a veil of tulle and princess lace, caught with a wreath of orange blossoms and lilies of the valley, and carrying a bouquet of bride's roses, white orchids and lilies of the valley, she was a picture of loveliness that will remain long in the memory of the fortunate groom, the attendants and the guests.

The groom entering with the best man, M. C. Alderson of Tulsa, Oklahoma met the bride and her retinue at the entrance to the nuptial bower, where the impressive marriage ritual was read.

For the reception, following the ceremony, the dining room was decorated in pink crepe myrtle and smilax. The beautiful white wedding cake rested in a bed of crepe myrtle in the center of the table, which was draped with a cover of cluny lace, and from an art basket of crepe myrtle suspended from the chandelier, a single streamer of pink maline reached downward to draw the eye to the wonderful confection where the symbolic trophies lay hidden. Glittering crystal candlesticks with pink candles and shimmering cut glass nappies of white mints decorated with pink roses and green leaves, completed the alluring color scheme. The wedding cake was cut by the bride, the guests following with keen anticipation of cutting the lucky trophies it contained. Punch was served.

An opportunity was given to view the wonderful array of beautiful wedding gifts, a collection that must certainly have brought joy to the heart of the bride, and caused the groom to feel a surge of pride. Prominent among the gifts were a chest of sterling silver a present from a group of the groom's business associates, and a complete set of beautiful Haviland China, from a different group of associates.

The reception room was decorated in pink crepe myrtle and smilax. Here the guests registered in the bride's book as they entered.

The bride's guest book was presided over by Mrs. J. R. Cobb of Atoka, Oklahoma.

The bride's going-away suit was a stunning model in Poiret twill, with modish hat and accessories, and an over-bouise of imported French beaded Canton crepe, the tout ensemble being a perfect harmony.

The bride's bouquet of white roses and lilies of the valley, which was thrown as she ascended the stairway to prepare for the start of the wedding journey, was caught by her sister, Miss Frances McLane.

Members of the house party and out of town guests for the wedding were the following: Mesdames Finley Sheets, Louis Lowe, J. S. Kritzer, H. C. Mantor, C. A. Waddill, W. O. Bennett, of Taylor, Mrs. J. R. Cobb and Miss Georgia Hosmer of Atoka, Oklahoma, Miss Roselle Peavey of Garland, Mrs. Robert McLane, Miss Sallie Kate McLane and Miss Mildred Chambers, Mr. and Mrs. C. W. Lawrence, Edward Shaw and Drayton McLane of Cameron, Mrs. W. H. Templeton and children, William Edward, Isabella and Sarah Lucile, of Waco, Mrs. E. A. Camp, and Emory Camp of Rockdale, and Mr. and Mrs. W. T. McLane, Jr., of Breckenridge.

The bride is the oldest daughter of Mr. and Mrs. W. T. McLane of Taylor. She was born in Cameron, but has lived in Taylor for eight years, attending school here and graduating from Taylor High, she entered Southwestern University, where she finished, also attending the San Marcos Normal. She is one of the most popular members of Taylor's younger social set, and is a charming and accomplished young woman whose lovable character and charming disposition has made for her a host of friends among our people, among whom none is held in higher esteem, or enjoys greater popularity.

The groom is a man who has displayed more than ordinary ability in chosen line, as is evidenced by his steady advancement. Though a young man, he is already occupying a high official position in railroad circles, being general freight and passenger agent of the M. K. & T. lines at Tulsa, Oklahoma, and his record places him in line for further advancement.

The young couple left on the afternoon Katy for a month's tour of the New England States, after which they will be at home in Tulsa.

All the Taylor friends of the brides' family, extend to the groom their heartiest congratulations on the winning of this charming girl, and to the bride their very best wishes for a life of happiness and success.—Taylor Daily Democrat.

### ABSENTEE VOTERS MAY VOTE ON AFFIDAVIT BEFORE COUNTY CLERK.

Voters who will be absent from the city during the election may vote by going before the county clerk and making affidavit. The voters may vote by the latter part of this week as ballots will be ready by that time. It has been impossible to prepare these ballots before this time.

Voters may vote to within three days of the election date at the office of the county clerk and all who are to be away on their vacation are requested to vote before they leave as the law makes provision for this voting.

F. J. Bolton of Sharp was in Cameron Monday on business. Mr. Bolton is manager of the telephone exchange at Sharp and proprietor of the City Barber Shop.

Mayor J. B. White was a business visitor in Austin Thursday, having gone there in the interest of the City of Cameron.

### JURY DISAGREES IN SYPERT CASE

FOUR FOR CONVICTION AND EIGHT FOR ACQUITTAL AFTER DAY DELIBERATION.

The jury in the case of State of Texas vs. Joe Sybert in which defendant was charged by indictment with the sale of intoxicating liquor was unable to agree after a day and night deliberation and on last Saturday at six o'clock was discharged by Judge Watson in the District Court.

Saturday morning Vince Lucas, city Marshal of Cameron, was placed on the stand again, to clear up in the minds of some of the jurors certain testimony given in the case. After this was done the jury then retired and after all day in the jury room came before the court and said that it could not agree.

The case grew out of arrests made by Vince Lucas and George Richards. An examining trial was held in the city court and the defendants bound over to the district court. Bob Elliott employe of the Santa Fe railroad, made a sworn statement which was introduced in the trial.

The following is the jury in the case:

Jeff D. Hefley, Jr., August Gurecky, John Zalesky, George Laffere, Louis Louis, Tom Askley, E. K. Avreitt, C. Miller, R. P. Southwell, J. H. Whitfield, W. D. Favor, B. F. Gibson.

Those for conviction were: Louis Louis, Tom Askley, W. D. Favor and B. F. Gibson, the remainder being for acquittal.

### REVIVAL MEETING.

Rev. Carl D. Kelley of Waco will begin a revival meeting at Curry school house July 14. All Christian people are invited to attend and help in this meeting. The meeting will continue until July 26.

Mr. and Mrs. Jeff Kemp and daughter, Ruth, spent last Friday in Austin.

# The Texas Farmer in Pioneer Days

By  
GEO. W. TYLER

When the supreme government of Mexico passed the colonization law of 1824 it offered to every head of a family immigrating to the Texas colony one league and one labor (4605 acres) of land, of which a certain amount should be arable land, the balance grazing land. The provision as to tillable land was not generally taken very seriously, as the colonists were not impressed with the agricultural possibilities of a great portion of the country and were not prepared for the cultivation of more than small fields of corn for immediate subsistence. In some of the coast counties, particularly along the lower Brazos and the lower Trinity, some fairly large plantations were opened up and cultivated with slave labor, brought hither from the old states, but the upper country—including all of central and northern Texas—was long regarded as simply a great stock range, and the rainfall was too uncertain to justify extensive farming operations.

The first lands broken up for farming purposes were along the streams, and the "civilization that follows the plow" came up the country gradually in that way. There were several reasons for this. The river land was rich and generally made from alluvial deposits from the streams in prehistoric floods. It held the moisture better and was easiest to cultivate. Usually the material for fencing the farm was taken from the land in clearing it. This included also the logs for the crude home of the colonist. The stream furnished a good and convenient supply of water for man and beast, and, more important than all this, the timbered bottoms were the best protection and the best refuge from the unfriendly Indians, who dreaded ambush from the cover of the woods, and seldom penetrated the brush, either in attack or pursuit.

## Blackland Prairies Once Regarded as Worthless.

The prairies—the great black land prairies where lie the splendidly improved and prosperous farms of today—were at first regarded as absolutely worthless, except to pasture the growing herds of cattle and horses, and even then the water supply for stock, away from the streams, was an uncertain proposition. In selecting his land the colonist looked first for water for his family and stock, and for timber for fencing and fuel. With these secured, he cared not who owned the back lands on the prairie, as the frontage on the stream, with wood and water, was the key to the situation, the vantage ground of supreme control, and enabled him to keep out all comers, throw his stock back on the prairies and graze them upon the broad acres of the non-resident owners of those "worthless hills."

The principal crop was corn, though the lower country early began the culture of cotton. Diversification was not practiced to any great extent, as there was no convenient market for the surplus. Of course vegetables for home consumption, potatoes, cabbage, turnips, beans, peas, watermelons, musk melons, peaches etc., were luxuries that could be found at the homes of the more prosperous who had maintained their settlements long enough to grow them. But

"Plowing in my boyhood days was all done with oxen."

as to northern and central Texas, it was principally corn and small grain and cattle. Cotton was, I believe, absolutely unknown prior to the Civil war on the Leon and its tributaries at a point higher up than Belton, and not much was raised above the Reed settlement on Little River. Mr. Fred Hill, just before the war, erected an old fashioned cotton gin, with a great wooden screw press, at his place across the Leon just east of Belton, now known as the Venable or Kelso place. When I was a boy I used to think that old wood screw press, sticking up there in the air, was the most gigantic piece of machinery on earth. Nor did cotton growing cross the Belton and Waco road in its progress until some two years after the war, and even then it was more of an experiment than otherwise, as people doubted the sufficiency of the rainfall and the adaptability of the soil to its requirements. The price was good and the people took chances on it, as we are doing now in the boll weevil section. But by 1870 it had become the general crop of the upper country, as well as in the lowlands, and we have been running store accounts on our cotton prospects and bulling the cotton market ever since.

With the advent of crude flouring mills in the 40's and 50's, mostly in the central and southern parts of the state, the farmers sowed more wheat and thus the family was supplied with flour, and the surplus was sold to the people around. Oats, rye, barley, millet, Hungarian grass and sorghum—most generally for home consumption—have been grown all over Texas from an early day. Sorghum, did I say? Well, yes, but they called it sugar cane in those old days. The old settlers, you know, never had any violins either, but almost every family owned a fiddle.

## Mowed Grain With Scythes.

I well remember when all the grain was mowed with scythes and for that reason the grain crops were not very extensive. In this connection I will state (a fact known to some of you) that my father, Judge O. T. Tyler, in 1858 or 1859, I think, brought the first reapers to this part of the state—one upon each of his farms in Bell and Coryell counties—the first reapers ever seen in either of these counties. They were of the original McCormick pattern, with hand rake

held by a man sitting on the machine to the rear of the driver. The bunch of grain delivered to the ground by the rake was then picked up by hand and tied in a bundle with the straw. They were just alike except that one was painted yellow and the other blue. In harvest time people came for miles around to see them run.

Before the days of railroads our nearest markets were Shreveport and Houston. This consisted chiefly of flour, meal, hides, honey, chickens, eggs, butter, etc., and cotton, of course, where it was produced. The transportation was accomplished with large, heavy, wooden-axle wagons, drawn by teams of four to six yoke of oxen. A trip to Houston and return generally required about three or four months, unless the Yegua got up and then you were lucky to ever get back at all with your outfit. The waters of this stream at high tide were said to be "six inches deep and a mile wide," and as to the mud and quick-sand in its valleys after the water ran down, or rather, soaked in, no bottom was ever found to them. Sometimes men who got waterbound on the south side of this "lovely" stream would rent land and make a crop, waiting for the mud to dry so that they could return to their up-country homes. In fact it was bad form to ask for sugar in your coffee above the Yegua as the people up there were generally out and stayed out most of the time. But when sugar did come there was a whole barrel of it, and how we children used to enjoy a stealthy raid on the sugar barrel hidden away in the closet by the jam of the old stack chimney—good old brown sugar that would stick all over our dirty faces—what even though there was likely to be a reduction of the small timber growth around there when the old folks "caught on." But going to market was not always as bad as this, and then there were other routes, with ferries, etc., down the east side of the Brazos, and altogether the people became reconciled to these conditions. The teamster would bring home some family supplies—sugar, coffee, salt, domestic, jeans, etc., and would load his wagon with goods for the up-country merchants and thus earn freight money on his return trip.

## Garrison of Cavalry.

About 1849, immediately after the

war between the United States and Mexico, the war department established a garrison of cavalry at Fort Gates in Bell, afterwards Coryell county, about 40 miles above Belton on the Leon River, the purpose of which was to protect the frontier settlements from Indians. The supply of this garrison with beef, corn and hay became quite an industry for the few settlers and furnished a good market for all surplus products. Induced by this demand, my father opened the first farm in Coryell county and settled there, participated in the organization of the new county and became its first chief justice. He surveyed and laid off the county and the town of Gatesville, which the people had chosen as their county seat, and I am always proud of this fact when I see the broad streets of that old town, which look as though it may be a considerable place some day. In supplying the troops at Fort Gates, my father, with his associates Col. Wm. C. Dalrymple and Col. Henry McKay, who had a contract with the quartermaster's department, purchased all the surplus corn from the farmers as far down as Cameron on Little River and hauled it to Fort Gates with ox teams, and made what used to be known as "the Old Corn Road," which passes up on the prairie on the east side of Little River and the Leon. Afterward, in 1853, the troops were removed further west, to Fort Chadbourne and Fort Phantom Hill, and then they hauled the corn up there and laid out "the old Phantom Hill road," familiar to old settlers. During all these years, and until the great drouth of the later fifties, the farmers made abundant crops of corn and sold them at good prices to the government, or to the newly arriving immigrants.

Along about 1855 came the drouth, which lasted a long time and which some people still refer to as "the seven years' drouth." During its continuance but little corn was raised in the upper country, though the small grain crops were fairly good. My father sent to the Brazos for seed corn two years in succession; the bunnies raised on our farm those years were unfit to plant. One year he fattened his hogs upon turnips boiled with these bunnies, which were first mashed in an old fashioned corn crusher. The mast in the timbered bottoms was cut short by the drouth. In fact for many years, and up to the early seventies, people said that this would never be anything but a stock country, that it was not seasonable enough for agriculture.

## Plowing With Oxen.

The plowing in my boyhood days was all done with oxen, and we never pretended to feed them either. At night they were turned out to grass, two necked together, one of the two "hobbled" and wearing a large ox-bell, otherwise you would spend most of your time hunting for your oxen. And some of those old oxen were very cunning. They would graze around in the glades till about 3 or 4 o'clock in the morning, meantime getting as far away as possible, and then crawl into a dense brier thicket, lie down, put their heads down so the bell would be flat on the ground, and then keep as still as death. You

might ride around that thicket without finding them. But, perchance, a hungry fly would come buzzing along and bite Mr. Ox so deeply that he would forget himself, throw his head around to scare away the fly, and then it was "all off" with Mr. Ox. His hiding place discovered, he would be driven home for another day's work upon the farm. Great was the farming of the early day, with grass—generally some other fellow's grass—to feed the teams on all the year round, while increasing herds of cattle and horses pastured over the unenclosed prairies, costing absolutely nothing, but proving a constant and increasing source of revenue to the farmer. True, cattle were not worth much—only \$10 for a beef steer, \$5 for a cow or steer yearling, but that was all clear profit. And when the buyers came around and paid the cash for them, it was "like a letter from home with a check in it." These buyers would get together several hundred head and drive them to Alexandria or Shreveport, and thence ship them by steamboat to New Orleans, or would drive them through on foot on the grass, without any feeding whatever. These drives were great excursions for the cowboys, and were full of adventures which served them for big windy stories the balance of their lives. Sometimes they would return by way of the Gulf on board a fine steamer, and it is said that when a steamer waiter at breakfast asked one of these big brown-faced Texas cowboys, with boots and spurs, whether he wanted his steak "rare or well done," he replied, "let it rear and be d—d, I can ride anything that wears a hide."

## Old Settlers Had Their Fun.

My old settler friends, we came too early for baseball, football and other manly sports of the present day, but we had our "innings" all the same in riding wild ponies, roping yearlings on the prairie, hunting wild game and driving great herds of cattle with long-plaited whips, which roared through the woods like cannon, and with Mexican spurs with rowells and jingling bells which might have been mistaken for Santa Claus and his reindeer or a troop of Swiss bell ringers. And, oh, those old oxen—six and eight yokes hooked up in a team—no vestibuled train of Pullman palace cars will ever be half so grand a sight to me. The first time I had the honor, as a ten-year-old boy, of walking down the big road beside one of these long majestic bovine processions, with whip in hand and voice of stern command to which old "Loge" and "Lep," old "Buck" and "Brandy," gave prompt and trembling obedience, the "Czar of all the Russias" upon his throne of purple, never felt half so big or half so grand. Have you ever been there? Then you know how it was—otherwise you can never understand. But I never could drive hogs nor stop a hog in a lane, in fact there were no lanes then. I was greatly disappointed last year at the failure of my friends at Nolanville, to hold their promised ox drivers' re-union. I wanted to go and "pop the whip" at the dumb old symbols of my youthful power, and feel once more the thrill of a departed glory.

With the culture of cotton came the

(Continued on Page 4.)

# Honest Weights and Measures

By Chas. E. Baughman  
Commissioner Markets and  
Warehouse Department, State  
of Texas.

Honest dealers appreciate every protective measure thrown about their business, whether such protective measure be against fire, water, intrusion of the thief, robber, or those who would perpetrate some petty fraud, so long as this protective measure is beneficial to the customer and does not infringe the individual or personal right.

The honest dealer has nothing to fear and is often glad to extend the hand of co-operation to the proper authorities in the furtherance of protecting the public from fraud and swindle. A petty thief is looked upon by humanity as of less worth than the thief who takes a hundred thousand or a million dollars, yet there is no difference.

Laws are enacted to protect society and at the same time offer a channel of reformation for those who are disobedient to the law's functions.

The world in reality is getting better. True there is more meanness, more crime, more rascality, more divorce, but this is due to the fact that those who are inclined to be mean are less careful about hiding their meanness, or their crime; they are bolder in their activities, while on the other hand those who are inclined to be good are likewise more earnest in their goodness. People are associating themselves with the moral as never before.

Sums of money barely dreamed of in the years gone by have been raised by the church and are being expended in uplift work, educational campaigns for world humanity—so over all it is merely creating a balance, with the fuller weight in favor of the good.

Whether it be natural, whether it be moral, social, educational, fraternal, political or commercial spheres, everything works on the principal of balances.

## The Criminal Instinct.

If the instinct, or the desire, or the disposition, whichever it may be, of men to do other than right would cease, there would be some satisfaction in the slogan, "Fewer Laws and Better Laws," but so long as men persist in disobedience to the principles of right and justice, we must of necessity continue to make laws to guard against the ingenuity of minds which are guided by selfish and criminal instinct.

It was for this reason that weights and measures laws were enacted by the several states of the Union.

We have always had and shall always have those who seek to increase their worldly possessions at the expense of humanity, and there is little distinction when it comes to perpetrating these designs.

Wearing apparel, sold to an honest buyer as a wool garment, turns out to be only cotton.

Hosiery, apparently pure silk, is made from long staple cotton—and the dealer smiles a pleasant "thank you," as he takes your money for "pure silk."

Cotton seed oil, thoroughly refined, is sold as olive oil.

Sugar having a certain per cent of sand, coffee having beans of other varieties, black pepper with olive tips mixed in abundance, shoes having as much paper, or composition material as leather, baking powder put up in large size containers and only about four-fifths full, are oftentimes sold to the public.

Ice has been delivered short of the weight claimed, from five to as high as thirty per cent. Flour, bran, shorts, cornmeal, cotton seed meal have been put out short from three to as high as fifteen per cent of the required weight. Scales have been so set as to give short weights. All these things made it necessary that protective measures be thrown around dealers and consumers.

Here are a few illustrations of some of these frauds:

A grain dealer was found to have loaded a car of oats and he put a negro in the car with a hose and turned on the water in order to have these oats wet down and weigh heavier.

A flour mill was found to have in use a poise which had been drilled out so as to cheat twelve ounces on a hundred pounds of bran or shorts.

Forty-eight pound sacks of flour, weighed two days after the miller had weighed these out as full weight were found short almost one and one-half pounds.

Flour taken right from the weighing machine at the mill was found to be short as much as a half pound.

Gasoline filling stations with automatic pumps, purporting to deliver the customers five gallons, were found delivering only three.

One of the largest oil companies delivered gasoline to its customers in purported ten-gallon cans were using cans short even one quart. While this is a small item, yet one dealer, so we were informed, had filed claims amounting to more than \$500 against this company for the several shortages.

One inspector in a town of about 10,000 people found a gasoline filling station shorting its customers at the rate of \$10,000 per year, and there were twenty-three filling stations in that town. Not all of these stations were short, however, some were giving more than they were being paid for, some were short a quart on each five gallons, some a pint; yet eight-five per cent were giving short measures, and a conservative estimate places the yearly shortage at approximately \$25,000.

That is not much, and yet it is quite a sum when divided among some seventeen men.

We have in our department a chart-

cheating scale, taken from a dealer. Thirty of this same type have been confiscated by the department. These scales were sold under a guarantee that they would cheat three per cent. We have a photograph of that guarantee.

A dry goods merchant was found to be using four yard sticks cut short by one and one-quarter inches. "Small shortage," you say. Yes, only about four and one-quarter per cent—enough to pay part of clerk's hire.

A wood dealer admitted that when a woman asked him over the phone to saw a cord of wood into sixteen-inch blocks that he only delivered sixty-four cubic feet—just half a cord—and he was getting \$9 per cord, but in reality he was getting \$18 per cord.

These are some of the reasons we need weights and measures laws and inspectors to see they are enforced and obeyed.

We could cite hundreds of instances of the same nature, but we must turn now to a new phase.

## The Housewife.

The housewife should decide to protect her interests. In so doing she helps the honest dealer, the honest manufacturer—the honest public.

Take for instance: If cheese is selling at 40 cents the pound and the customer gets only seven-eighths of a pound, the cheese really is costing 45 cents the pound.

The housewife should purchase a good pair of equal arm balances—scales—spring scales are always uncertain; they can't be relied upon as being correct.

If the housewives of Texas will join hands with this department we can soon weed out the unprincipled ones who persist in giving short weight and measure. There are always honest dealers, merchants with whom we may deal. They welcome the weights and measures in-

spectors and request these inspectors to come again.

There are honest gasoline dealers, honest flour and oil mill owners, honest ice dealers, honest wood dealers.

It is a violation of the law to sell any article and recommend it as being more than it is.

## Small Items Make Large Amounts.

Investigations made by our weights and measures department reveal shortage in weights that indicate a momentary value of a million and a half dollars yearly on one common every-day table commodity. If we stop long enough to estimate a one-ounce shortage to each pound of cheese, meat, butter, bread, twelve ounces of flour for each forty-eight-pound sack, fifteen to twenty pounds of ice to each one hundred pounds, a little shortage on cabbage, onions, lettuce and other vegetables, then a little shortage here and there on the liquids, etc., we would soon run it way up in the millions of dollars yearly.

The thing to do is to demand honest weights and measures. If a manufactured article put out in containers is found to be short, quit buying that manufacturer's goods. If a merchant gives short weight, and it is found he is doing it purposely, go to the honest dealer next door.

Buy your articles, your commodities by the pound, by count. Quit buying 25c, 50c, \$1.00's worth of anything. Get the price and figure the change to be given.

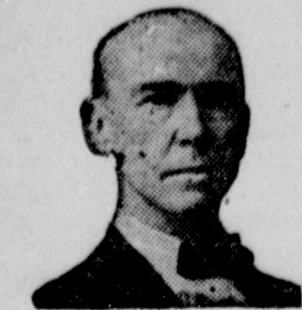

The women's clubs of Texas could render a most valuable service in bringing these matters to the attention of the citizenship. They may aid materially in building up the business of the honest dealer, and tearing down the business of the dishonest dealer, or else—to say the least of it—they might make him reform.

# CURRENT COMMENT

By J. H. LOWRY

## HARVEST TIME

As this is written the reapers are winding up their work in the grain fields and the thresher men are oiling up their machines. As an old-timer watches the huge self-binders skimming through the wheat fields leaving behind them bundles of grain well-tied and ready for the shock, his mind wanders back to the grain-field scenes of fifty years ago. The wheat-harvesting device of that period was the cradle, and to the man of that time the cradle was truly a triumph of inventive genius. It was perfect; nothing better could be imagined, nothing better was needed or desired. As a youngster I used to wonder how the human mind worked out such a perfect device—how any man could be so smart. Had I been brought face to face with the inventor I would have been glad to fall down and worship him for making the work of grain-harvesting so rapid and so easy. I had heard my father tell of how wheat had been harvested in the days of his youth. Such a thing as a wheat cradle had not been dreamed of then, and the grain was cut with a reap hook, a blade about eighteen inches long that described a half circle and had a wooden handle. My father had kept one of the reap hooks as a memento of other days, and occasionally he got the old hook down and showed us how grain was saved in his youth. The process was very simple, the reaper grasping as many wheat stalks as he could in one hand and whacking them down with the reap hook, which was held in the other. I judge that three men, working long hours, could harvest an acre of grain in a day! But finally that restless, ambitious thing we call the mind of man worked out the wheat cradle, and with this wonderful invention a man could cut three acres of wheat in a day; yea, an expert could cut three and a half acres, as much as ten men could do with reap hooks. I know one or two men who, it was claimed, could cut four acres. They were the real heroes of the community, and the glitter of their haloes was excelled only by the glitter of the halo of the community's best fiddler.

There are yet a few grain cradles in the world, but many who will read this never saw one, and the chances are that they will never see one, for the hand of the iconoclast was laid on this once

great labor-saving device long ago. The grain cradle consisted of a scythe blade about three and one-half feet long, five wooden fingers, and a crooked wooden stock. The blade cut the grain, which fell on the fingers and was removed therefrom with one hand of the workman, or "swathed" on the ground by a quick jerk of the cradle. But I must add that not all cradles had five fingers. All the cradles bought from the stores did, but these were called "Yankee" cradles, and some of the good old Johnny Rebs wouldn't use them. They made cradle stocks of their own, from seasoned ash timber, and put only four fingers therein. There were many heated arguments every harvest time over the merits of the two kinds of cradles—the Yankee kind and the home-made type with four fingers. I never knew a fight to grow out of the arguments, but I have seen men grow very red in the face and heard them intimate that business would pick up if certain assertions were repeated. The question had not been settled when I was run out of Tennessee more than forty years ago.

One day a strange looking machine was unloaded on the platform at the railway station of the village. Men crowded around it even as ants crowd around the bung hole of a molasses barrel. The machine was painted bright red, it had a long tongue, a big wheel, a little wheel, an apron that looked like the bars of a fish trap and a reel of revolving blades. Everybody wanted to know what it was, and a well-dressed fellow who was in charge said it was a reaper—a wheat cutter! The well-dressed man said the machine would cut the wheat and drop it in bundles, ready for binding. The wise men of the community shook their heads and said it wouldn't do it. In a few days the red machine was taken to a field for trial. It did cut the wheat, and, by working a lever with his foot, the driver could drop the grain in bundles, ready for binding. Still the wise ones said it wouldn't do—said it would waste the wheat, and offered other objections. But when I was run out of Tennessee the cradles were hanging in the tool sheds at the sides of the barns, their blades rusty and their stocks worm-eaten. The dropper-reaper, however, was short-lived. The self-raker soon pushed it aside, and was in turn pushed aside a few years later by the self-binder.

A patriotic congressman has introduced a bill to prevent imitation of royalty in America. He would prohibit the use of such titles as "king" and "queen" at carnivals, pageants and other blow-

outs or social functions. That's the idea; we must not ape royalty in this land of the free even to the slightest degree. Down with the Queen of May and the queen bee. And let a bill be introduced at once to change the name of the King snake to the President snake.

About twenty-one years from now the wicked Republican party will be buried so deep under an avalanche of ballots that the political world will know it no more forever. The Republican tariff bill doubles the tax on safety pins. Won't there be a rush from Republican ranks twenty-one years from now when the infants of today learn how the Republicans of today tried to rob them of the protection of safety appliances and get them stuck?

Twenty years hence, no doubt, such things as horses and horse wagons will never be seen in town. Of course it will be a swifter and a better age, but in some ways it will be hard on both men and dogs. The men can not engage in the great American diversion of horse-swapping and the country dogs will never get to come to town.

**JULY UNHAPPY MONTH.** July is a very unpopular month, and during its reign there is more unhappiness among the people of the world than in any other month of the calendar year. In taking its name from Caius Julius Caesar the month burdened itself with an unhappy title, and when it permitted Julius to yank it out of fifth place and stake it in seventh place a fatal error was made. July would have been May, the queen of months, if it had held its place in line against ambitious, meddlesome Caesar, and but for the unlucky swap would have heard the early bird songs, seen the blush of the first roses and looked upon the great army of sweet girl graduates, instead of beholding so much human misery and having her ears pierced by the wails of the discontented. As it is, July comes just in time to witness the disillusioning of the June brides. Only a month before these rare and radiant creatures led the men they had captured down flower-strewn aisles to Hymen's altar while the strains of Mendelssohn told the sweet story of undying love. They knew John, or Henry, or Charley, or Reginald, was the dearest man on earth, and that their soul's affinity was sent from Heaven that they might be smiled upon and petted forevermore. No thought that the smile on John or Henry's face might ever be curled into a frown; no thought that the

soft and tender words of love that had come as sweet as the tones of a golden harp from John or Henry's mouth would ever freeze into a harsh "gosh" or a cruel "damn" before such a trifle as an unpaid bill. Happy in the belief that John's immaculate shirt front would never become soiled, that his shoes would never lose their polish, that his trousers would always be neatly creased and his face would always carry a fresh shave—yea, soothed by the blessed thought that John would never emit the odors of perspiration, neither would he snore in his sleep, or lose his smile, or become impatient, the June bride entered into connubial bliss as lovely, as hopeful and as happy as an angel of light. And poor July must witness the disillusioning and watch the bitter tears of disappointment stain the rosy cheeks of hope. Poor John was not a man of steel, but a man of clay, and he has already fallen from the beautiful pedestal and broken to pieces. The poor fellow is of the earth earthy. He actually perspires when he becomes warm from exertion, and horrors, sometimes he smells sour! Furthermore, John's mind isn't on his wife all the time. The scoundrel is a bundle of deception; he lied! He swore he'd never grow tired of sitting with his dove-dove and pouring into her ears the words of love. What a deceiver. His mind is on other things already. He hurries away in the morning; he hurries away at noon; he wants to read the paper a little at night. He's making of life a workaday routine instead of one grand sweet song of love. His ideals are no longer hung upon the clouds or pinned to the stars; he dreams not of the Elysian fields of love, but of bank accounts, store bills, cotton, corn and hogs. He actually showed temper the other day and was pettish when he paid a store account that was larger than he had anticipated, and when his June bride attempted to kiss away his troubles he turned away and was harsh. And poor July must see the tears and hear the sobs of the disillusioned June brides.

**BIG COTTON CROP ASSURED.** We are to have a fine crop of cotton this year. Present conditions being somewhat unfavorable, many will question my prediction, and some will receive it with titters and scorn. I know very well that the cotton crop is late and that the plant lacks much of being in good condition at this time. I know the worm family is marshaling its mighty hosts to pounce upon the South's great staple crop. I know also that grass and weeds are matted with the cotton plant and that the de-

structive weevils are here in full force, waiting for the plant to square and bloom, that they may steal the fruit. But in spite of these things I say with boldness and with perfect confidence that we will have a fine cotton yield this year, and I invite all to chalk down the prediction and confront me with it next December when the returns are in from the fields. I am not basing my prediction on what the experts of the schools or the agricultural bureaus say, but upon the word of one who knows. There is a good old negro in Lamar county who knows all about cotton signs, and when he speaks I never question. This wise old Senegambian says when there is a big crop of ants there is always a big cotton crop. I never saw a larger crop of ants than we have this year, therefore I know we will have an unprecedented yield of cotton. I don't know what kind of a spell the ants exercise over the cotton, and it isn't necessary for me to know. I only know that the old negro of whom I speak and whom I trust implicitly can discern the signs of the times, and when he reads the signs and tells me what to expect I never doubt. It was the same negro who exploded the ground hog theory of weather forecasting, a theory that has deceived millions of good people and caused them to lose millions of dollars' worth of garden truck and countless millions of cabbage and potato plants. He it was who taught me that winter is never over until the lizzard opens its mouth.

## HOW THE BONES GROW.

Our bones grow with the rest of the body, but the teeth are never larger than when they first come through the gums. The reason for this is that the outside of the teeth, or the enamel, as it is called, has to be very hard, so that they can cut and grind the food. This substance when once made is finished, and does not grow any more. If the first teeth should remain in the head they would be too small when their owner grows up, and as the jaws grew they would be far apart instead of close together. So the first set begins to be shed about the seventh year, and new ones—larger and more in number—take their place little by little.

The first bale of the 1922 cotton crop of the United States was sold at auction on the floor of the Houston Cotton Exchange for \$1,200. The bale was raised by Mack Mize of the Riohondo community, Lower Rio Grande valley, 30 miles north of Brownsville, Texas. The cotton classed as middling, 29-30 millimeter staple. The bale weighed 533 pounds.

# Secret of a Happy Marriage

By KATHLEEN NORRIS

"Fluttered and Radiant Over Clothes."

What are the facts about your marriage?

Is it 80 per cent—or only 50 per cent—a success?

And of the 20 per cent, or 50 per cent, failure, what share is your fault?

These are great days for tables of statistics, in connection with education and with business. And it might be worth while for those of us who are engaged in the extremely educational business of marriage to analyze it along the same lines.

The failure of the American home, as an institution, is the failure of the American nation. And who can study the divorce problem, the race suicide problem, the servant problem, the notorious "flapper" problem, the problem of hundreds of thousands of dissatisfied, restless, extravagant, idle American wives, and assert that we are not racing toward national failure?

## Golden Eye Dust.

Happy marriages—which mean happy wives and good mothers, contented servants, and obedient sons and daughters—are obviously the solution to all these problems. But what has happened to marriage? If we can find the answer to that question, we shall find the answer to them all.

Perhaps one painful truth is that we American women are too apt to forget that no human life is entirely happy. We are not educated to face this simple fact.

of golden dust in our eyes when the grave hour of marriage comes. We are fluttered and radiant over clothes, presents, flattery, the first delicious excitement of house-finding, and we hear on all sides such idiotic phrases as "ideally happy!" "not a cloud in the sky!" "dearest fellow on earth!" "just one of the perfect things of life!"

## Poor Bride—Poor Bride!

To most brides the wedding day seems the accomplished ambition rather than the dubious beginning of a hard, long road.

Poor bride—poor bride! If she was graduating from the medical college, or opening a gift shop, how much more reasonable we would be. How we would talk then of possible failure, of insurance, of competition; how we would warn her about her impulsiveness, and her fatal indolence and vacillation!

"I don't expect to be a success right away," the doctor or the shopkeeper would assure us buoyantly, "but you watch me for a few years, and you will see!"

Even then the shopkeeper or the doctor would have the advantage, in that she had at least studied her business for years or months before plunging into it. But the bride has been studying geometry and algebra and the second book of Caesar; nobody has told her anything about duty, self-denial, house-keeping, wifeliness, and the glory that is motherhood.

In six months she is bewildered with misery, in 12 she is wretched. Two or three years later she is free. She confesses failure—but she is free!

## Betty, Bob—and Fred.

Then comes a salutary year or two of loneliness and unpopularity. Betty gets utterly weary of telling her friends how horrid Bob was, and how right she was. And even her friends somehow can't believe that Bob was quite all to blame. As for Bob's friends, they tell a very different story, and Betty's mother weeps, and Betty begins to study stenography or interior decorating.

And then Fred comes along, comforting and big and tender, and how thankfully Betty turns to him, and how proud she is of her new name and her new husband and her new home! How she pets and praises Fred, and what a darling little girl they presently have, and then what a darling boy, and what a wife and

days as Bob's wife, she says, are as if they had never been.

## Two Facts About Men.

But, of course, Bob and Fred are exactly alike; all men are. If Betty had married Fred first, then she would have flown with just the same love and gratitude to Bob.

Both men only wanted companionship and sweetness, and a comfortable home with children in it. It was Betty who changed, who learned and developed through mistakes and unhappiness; Bob and Fred made exactly the same demands of her.

"And what of men?" Betty asks indignantly. "Aren't they to learn and change and develop, too?"

Well, yes, of course. But there are two significant facts about the education of Bob and Fred.

Firstly, they get a good deal of education along the way. School is harsher with them than with their sisters; their first jobs discipline them. Our civilization gives them a far better chance than it does women to become useful, reasonable, inexacting citizens.

## We Make or Break Them.

Secondly, the vital, absorbing, inspiring interests of a man's life are outside of his home.

And there might be a thirdly—that in all the matters of the spirit, wherever actual "goodness" is concerned, men look to women for guidance. Almost any woman can make almost any man a successful husband, father and citizen, or she can ruin his life and crush out his faith in human nature.

It is only in the exceptional case that the reverse is true.

Woman, for thousands of years, has had for her ideal the life of the absolute parasite. Men, in my opinion, have formed and given her that ideal—but it doesn't matter how she got it, the interesting thing is the need for her to get away from it.

We have been educated to believe that to have other men and women serving our meals, making our dresses, washing our hair, teaching our children everything from catechism to dancing and driving our cars, is the secret of happiness.

## A Truth Wives Must Learn.

Now the great fundamental fact that we American women have to learn is the truth that, in the words of the greatest of all our teachers, "He that

would be first among you, let him be as one that serves."

Service—anywhere, everywhere, anyhow. That is the one and only secret of happiness.

That is what makes your husband contented, while you mope at home wishing you could act, or write, or even go into one of the beautiful shops and handle gowns.

You don't know it, unhappy wives all over the nation, but what you want is—work.

You may think it is fame or money, but no sane person gets anything but annoyance and increased responsibility from these. A woman poet has well called them merely "a gathering jeer." And wasn't it Mr. Dooley who said, "We build our triumphal arches of bricks, Hinnessy, so that we can throw the bricks over our heroes when they've gone through them?"

## No Success Like Motherhood.

No, you want service. Service in nurseries, big public nurseries that replace all the little separated rooms where babies are toppling blocks and wishing the rain would stop today. Service in the big new schools of the future, where mothers are teachers, and lesson hours have nothing to do with clocks. Service in all the magnificent big clubs of all sorts that will come to solve women's problems, when women realize, as men do, the importance of their position and the glorious possibility of their uniting to serve.

Children, whole families of them, must come back into fashion—not because of duty, no, nor because the nation needs them, no. But because the woman of the future will be wise enough to know that no fame, no fortune, no success brings to a woman a self-expression and a joy comparable to the glory of reigning over a group of little sons and daughters; and because the nation of the future will be educated to know that mere bridge-building, stock-broking, mere finance and commerce are but shadows beside the importance of her work who replenishes life itself.

## "Just to Be Useful."

The discontented women of the nation, who think they want clothes, think they want travel, lovers, glory, can find a sure road toward the happiness that is better than all—and, incidentally, to fame and fortune, if they choose to try. They need only, first,

solve their own problems, whatever they are—make the little circle happy before they attempt to increase their responsibilities; and then, secondly and lastly, look for a place to serve. Not to be admired, not to become famous and rich, but just to be useful.

Any woman who cannot solve her immediate personal problem naturally has nothing good to spare to a hungry world. But the women who know in their hearts that they can increase their power and their audience may well ponder Shakespeare's lines:

"The fault, dear Brutus, is not in our stars, but in ourselves, that we are underlings."

## An Old, Old Promise.

And there is another promise, two thousand years old, that bears directly upon all the unhappiness and mistakes of modern marriage, and, indeed, of modern life:

"The Kingdom of Heaven is within you."

## FARMERS IN THE LEAD.

"The biggest users of motor trucks in the world are the American farmers, with 79,789 motor trucks in operation," says an authority. "Manufacturers come second, with 75,928, and retailers third, with 74,086."

"These figures are taken from reliable statistics for the year 1917. Estimates for 1918 show a tremendous increase in the number of motor trucks in use, but the farmer is still in the lead."

"It is estimated that during 1918 approximately 350,000,000 tons of farm products were hauled to market in motor trucks by the farmers and gardeners of the United States."

"The motor truck handles life's necessities. Legislation which hits motor trucks hits at the very source of the life supply of the people. To unwisely legislate against the motor truck is to take food away from those who need it and to increase its cost."

"The motor truck is the people's friend and servant, and legislation aimed to injure and handicap motor truck transportation is a blow against the best interests of the people—both producers and consumers."

"Much of this 350,000,000 tons of food products hauled from the farm to the city by motor truck was of a perishable nature, and hundreds of thousands of tons of it would have been lost but for the motor truck."

# BRIEF TEXAS NEWS

FROM OVER  
THE STATE

## TEMPLE CHURCH TO INSTALL ORGAN

The congregation of the First Methodist Church of Temple closed a contract for the installation in that church of a magnificent pipe organ to cost approximately \$10,000.

## SUGARLAND TO HAVE LARGE WAREHOUSE.

Work has begun at Sugarland on a new first-class fire-proof warehouse with capacity for the storage of 25,000,000 pounds of sugar, but its principal service is expected to be for the storage of raw supplies.

## SERVICE MEN'S HOSPITAL GETS RADIO SET.

In the William Beaumont General Hospital at Fort Bliss a radio set has been installed which is said to be one of the best. It will be used by the convalescent patients and was donated by Davis-Seamon post of the Veterans of Foreign Wars.

## CORPUS CHRISTI EXTENDS PLEASURE PIER

It has been decided by the city council of Corpus Christi that the pleasure pier which is now being built out over the Corpus Christi Bay for a distance of 1,000 feet be extended 200 feet further, with a "T" head. This will be one of the longest pleasure piers extending over Texas coast waters.

## NEW FRATERNAL ORGANIZATION IN FORT WORTH.

Among the latest fraternal organizations to be launched in this state is The Native Sons of the Lone Star State. The first lodge has been established in Fort Worth. Native born citizens are eligible for membership. The articles of incorporation recite the objects as being benevolent, charitable and educational.

## "HYDRANT" MOONSHINE

Dallas officers affirm that Texas bootleggers are selling their wares from hydrants in some sections of the state. One offender, arrested in the Panhandle recently, was said to have an underground still with a "corn liquor reservoir" in the attic of his barn. The hydrant in the yard was connected with the reservoir, and "corn" was on tap for customers at any hour of the day.

## CENTENARIAN DIES.

Mrs. Martha Ward, centenarian, died in Georgetown recently after a brief illness. She was born October 7, 1821, at Columbia, South Carolina. She is survived by one son, R. E. Ward, manager of the Georgetown water and light plant. Mrs. Ward was mentally and physically active up to a short time before her death. Interment was made in Athens, Tennessee.

## AGED MAN WRITES 1,300 WORDS ON CARD.

Youth does not always win against age. For instance, there is Walter E. Taylor of Lubbock, sixty-six years of age, who beat Donald Mayfield, thirteen years of age, of Baird, in a contest to see how many words they could put on a postal card. The boy wrote 844 words while the man wrote 1,300. Mr. Taylor is an architect and formerly resided in Fort Worth.

## LETTER BLOWN 42 MILES BY TEXAS TORNADO WINDS.

A letter written by W. T. Padgett of Ballinger to his son, J. R. Padgett of Austin, was picked up near Bales, Texas, by L. A. Guin while plowing in his cornfield recently.

Bales is 42 miles from Austin, and it is presumed that the recent storm carried the letter to where it was dropped in the cornfield.

## SITE IS OFFERED FOR MASONIC SANATORIUM.

The first site offered for the proposed Masonic sanatorium is a large tract of land at Boquillas Hot Springs, near Alpine, which is owned by J. O. Langford of El Paso. Mr. Langford said the offer includes one hundred acres of land with perpetual water rights if they were desired.

A committee of Masons from El Paso, San Antonio and Phoenix, Arizona, is to meet in El Paso at an early date to discuss preliminary plans for the tri-state Masonic sanatorium which is planned to cost two million dollars and will be used by the states of New Mexico, Arizona and Texas.

## FORT WORTH HAS LARGEST SUNDAY SCHOOL IN WORLD.

The First Baptist church of Fort Worth has an average Sunday school attendance of about 3,500 and an enrollment of over 5,000. This is the largest Sunday school in the world, according to W. N. Wiggins, general superintendent of the Texas Sunday School Association. The second largest Sunday school is the First Baptist church of Dallas, which has an average attendance of over 2,500 every Sunday.

Texas excels all other states in the union except Pennsylvania in point of total membership in Sunday schools. While four other states exceed Texas in population, none of those states have

## PECAN TREE PROPAGATION

Grimes county residents are experimenting this year in top working of wild pecan trees with the more domestic and commercial varieties and the grafting of tame grapes on the wild mustang and post oak grapes.

C. Horn, county agricultural agent, took a party of farmers to A. and M. College recently where demonstrations were given in pecan propagation. There are many wild pecan trees in Grimes county on which the experiments can be made.

## MONEY FOR PLAYGROUNDS IN GALVESTON LEFT IN WILL.

Between \$125,000 and \$150,000 will be available for Galveston playgrounds under the terms of the will of the late B. W. Key, lumberman. The will provides that the residue of the estate shall be devoted to developing playgrounds for both white and colored children in Galveston after all bequests and debts are paid.

The total value of the estate is said to be about \$290,000.

## SHOE DROPPED FROM AIRPLANE FALLS DOWN CHIMNEY OF HOME.

In Bonham, recently, two women conversing before a grate in a home on one of the principal streets of the town were startled to see a man's shoe strike the front part of the grate and roll out upon the floor, bringing a fog of soot with it. As a passing airplane from which the shoe fell failed to land, it is supposed one of the airmen accidentally dropped it, at the right angle just to fall into the chimney.

## CATTLE RUSTLERS OPERATING AROUND EL PASO.

Twenty-five and thirty years ago cattle rustling was common along the border of the Lone Star State.

Ranchers in the El Paso section are now suffering heavy losses as they did in the early days of the Southwest. It is reported that herds are being driven off by twos and threes and the dozens. The raiders come from the Mexican side of the Rio Grande and drive the stock across when the water is low, according to the report.

## FALLS COUNTY PIONEER WOMAN PASSES AWAY.

With the death near Marlin, recently, of Mrs. Lucinda Hunnicutt, there passes another Texas pioneer. Mrs. Hunnicutt was eighty-seven years of age and had resided in Falls county seventy-two years. She came to Texas with her husband in 1850, and had resided in the Blue Ridge community since that time. She is survived by twelve of her sons and daughters and more than one hundred grandchildren and great-grandchildren.

## GALVESTON AREA IMPORT VALUES ARE LARGE.

Imports through the Galveston customs district aggregated \$1,382,460, according to official figures just received from the treasury department.

Crude oil from Mexico and raw cane sugar from Cuba were the chief imports. Sugar imports were 22,846,000 pounds, valued at \$458,678; crude oil imports were 41,080,000 gallons, valued at \$507,714; coffee imports were 2,367,000 pounds, valued at \$253,548.

## ROBERT LEE TO HAVE TOURIST PARK.

Traveling by automobile is rapidly becoming more pleasant and more popular in the Lone Star state as the various towns are establishing camping places for the tourists. The latest town to build a camp is Robert Lee, which started work early this spring, and according to the plans of the Board of City Development, of Robert Lee, it will be completed soon. The building program also provides for the erection of a house, water connections and other conveniences.

## FOUNDER'S BIBLE USED IN GIVING DEGREES.

The Bible of Justus H. Rathbone, founder of the Knights of Pythias, which was used in administering the obligations to the first members of the order in Washington, on February 19, 1864, was brought to Fort Worth to confer the first rank of the order on a large number of candidates June 14.

William Ladow, supreme chancellor, conferred the ranks on the candidates and invitations were issued to a number of lodges and members.

## FIVE GENERATIONS OF FAMILY IN COLLIN COUNTY.

The new son of Mr. and Mrs. Doyle Nelson of McKinney is the fifth generation on his father's side and the fourth generation on his mother's side. The generations on the father's side are Mrs. Elmira Daffon, Bonham, great-grandmother; Mrs. J. W. Nelson, Sr., Bonham, great-grandmother; J. W. Nelson, Jr., McKinney, grandfather; Doyle Nelson, father. On his mother's side are Mrs. Sarah Chandler, Wylie, great-grandmother; J. A. Hefner, Gunter, grandfather; Mrs. Doyle Nelson,

## WHEAT SHORT ACCOUNT OF BLACK AND RED RUST.

Black and red rust is reducing the wheat yield in some northwest Texas counties. The wheat heads are large and apparently well filled, but upon closer investigation reveal nothing but husks. Most of the wheat is testing No. 3 and local buyers have paid \$1.03 for No. 1 wheat.

## TEST FOR POTASH A REALITY.

Odessa celebrated the spudding in of the long-awaited potash test well, recently, which is being drilled near there on governmental recommendation. The test is known as the shot-core drill and the rig was brought from Pennsylvania. The drill is capable of going to a depth of 6,000 feet.

## TEXAS BOY WINS ART SCHOLARSHIP TO EUROPE.

Watson Neyland of Liberty, Texas, former Rice student of 1918 and 1919, won the European scholarship of the Pennsylvania Academy of Fine Arts of Philadelphia, Pa.

This scholarship entitles the winner to a summer's tour of Europe, including the fine points of interest, historically and artistically studying at the different European art academies. On returning to the Pennsylvania Academy next fall, Mr. Neyland will be granted a year's study of fine arts at the academy with all his expenses paid by that institution.

## QUANAH LAKE MAY BE STATE-WIDE RESORT.

Damsite lake of 2,000 acres, near Quanah, is soon to become a pleasure resort of statewide fame, if plans now on foot materialize, according to a statement of the West Texas Chamber of Commerce. Rice Brothers of Houston, own the lake, and are negotiating with promoters whose plans are to enclose the lake to exclude trespassers and erect several rent cottages on its shores. Fishing in the lake is very good and hundreds enjoy the sport daily, as they make their way to the lake from various parts of the state.

## MARSHALL MAN PUTS 400 POUNDS OF MONEY IN BANK.

A. B. Brown, a business man of Marshall recently drove up to his bank with 400 pounds of pennies, nickels, dimes and quarters and deposited it.

It took four men, including the depositor and the cashier, to get the deposit, which was in gunny and paper sacks, out of Brown's one-horse vehicle and into the bank. The total amount was between \$700 and \$800. There were ninety-six pounds of pennies.

Brown explained that he had allowed the small change to accumulate until a number of recent robberies caused him to decide that the bank is the place for money—even pennies.

## 92 YEARS OLD AND WALKS FIVE MILES.

Uncle John Verheyden is "spry" at the age of 92 years. He is a farmer and lives five miles north of Waxahachie. He frequently walks the entire distance from his farm to Waxahachie, when he feels like "taking in the sights" of the town. A native of Belgium, he was born on the battleground of Waterloo and came to America when a small boy. For the last 62 years he has lived in Ellis county. Mr. Verheyden was a Confederate soldier and fought throughout the civil war.

## TEXANS GRANTED PATENTS.

The commissioner of patents in Washington announces that the following patents have been granted to Texas inventors:

Jack H. Bevel, Dallas, measuring device; Albert B. Couch, Marlin, surgical instruments; Ernst A. H. Jacob, San Antonio, feeder drum; Collier Monroe, Waco, hair clipper; Victor L. Ochoa, El Paso, wrench; Eugene Rynearson, Dallas, lock for meter boxes; William G. Stevens Jr., Willis, gear shifter; Frank L. O. Wadsworth, Pittsburgh, Pa., assignor to Hughes Tool Company, Houston, rotary boring drill; William S. Weston, Dallas, anti-creeper tin plate for railway rails; John W. White, San Antonio, brake.

## THE BALCONES FAULT IN EAST TEXAS AFFECTS OIL ACCUMULATION.

Since the discovery of the Great Mexia Pool, which has produced over 25,000,000 barrels of oil in the past six months, geologists have been studying the Balcones Fault area to determine if possible, where new oil fields might be found.

Dr. Edward R. Lovewell, who discovered the Breckenridge Field in 1917, disagrees with the State Geological Survey by pointing out that the Balcones Fault is a Faulted Zone rather than a continuous Fault Line, north of the city of Waco.

As a result of an extensive study of this area during the past several months, Dr. Lovewell has prepared a geological map of East Texas, which shows the various structural features, including the Balcones Fault Zone, the Red River Faults, and the lignite coal areas, as related to existing oil fields, and possible

## BIG RANCH DEAL IS CONSUMMATED.

Final papers were signed last week in a deal which marks the passing from active business connections of one of the oldest cattle firms in the Hereford section. It is the John L. Wilson & Son. Mr. Wilson started in the cattle business in 1881 and is one of the best known and most respected cowmen of the Panhandle of Texas.

The ranch, consisting of about 30,000 acres of leased land in Bailey County, has been secured by the Halsell Cattle Company; 365 head of steers were sold to W. E. Hicks, and 850 head of stock cattle were purchased by Jim Watson of Lubbock.

## NEW PHYSICAL TRAINING COURSE IS OUTLINED FOR TEXAS UNIVERSITY WOMEN.

Miss Anna Hiss, director of physical training for women at the University of Texas, is outlining a new course of study in physical training which, beginning with the year 1924-25, will become a part of the university curriculum. The course will be offered for women who wish to become instructors in physical education; it will count as one full course toward a degree, and be given in the education department of the university. Certain prerequisites for the course are being worked out by Miss Hiss. Girls who were sophomores or freshmen the past term and in all later classes will have the opportunity to take the course.

## LARGE SALE OF WOOL AT SAN ANGELO.

Two hundred and seventy thousand pounds of long 12-month wool, and 125,000 pounds of short eight-month fall wool was sold in San Angelo recently by the Wool Growers' Central Storage Company for 75 sheepmen in Tom Green, Sutton, Schleicher, Crockett, Sterling, Pecos and Irion Counties.

Although prices were not made public by the company making the sale, it is generally understood that the prices were doubled or more than last year's average of 18 to 20 cents a pound for long wool and 22 cents a pound for the short fleeces. Prices for this year are approximately 35 to 40 cents a pound for long wool and 44 cents a pound for short fleeces.

## HEN SEES KLAN PARADE; THEN PRODUCES K. K. K. EGGS

It is reported in Lockhart that a hen egg found by J. W. Flynn, near Harwood, twenty miles southeast of Lockhart, had K. K. K. embossed on one side of the egg-shell. This finding has aroused some curiosity. The opinion is ventured as an explanation of the phenomenon that several weeks ago, there was held in Gonzales a parade of the Ku Klux Klan. It is thought the funeral-like formation of the automobiles in the parade, with the "Klan" signs, impressed itself on the hen and caused K. K. K. marking on the egg.

It is stated that the hen is of Wyandotte breed and has formed a habit of laying specially marked eggs. Since laying the K. K. K. monogram egg, she has also laid one on which a woman's head is discernible.

## CONTEST DISCOVERS PERFECT SPELLERS IN TEXAS SCHOOLS

According to a statewide spelling contest recently completed by the Inter-scholastic League of Texas, there are forty-one perfect spellers in the public schools of the Lone Star state.

Over 200 counties participated in the contest and the papers of the spellers in the finals were sent to the League officials at the State University to be graded. In the list of 3,000 words furnished the counties for the contest there were forty-one correct papers, every word correctly spelled and legibly written.

The popularity of the contest with the heads of the various schools of the state was evidenced by the fact that there were over 110,000 copies of the lists of words printed to supply the demands from the various schools wishing to enter the contest.

## ORGANIZATION FORMED FOR PRESERVATION OF TEXAS LAND MARKS

An organization for the repair, restoration and preservation of the historical landmarks and relics of Texas has recently been granted a charter by the Secretary of State. The organization is chartered under the name of the Association for the Preservation of the Historical Landmarks of Texas. The organizers and members are composed of Texans who have taken part in the moves of late to preserve Texas landmarks.

The organization proposes to repair all old Texas buildings of historical value, preserve those now standing, complete and collect the relics, manuscripts and other things of note in the making of Texas history. The purpose clause especially mentions the Ancient Government Palace of Texas at San Antonio, an old edifice of importance during the days when Texas was a part of the Mexican government.

The headquarters of the association

JOHN J. CLINTON.

Texas Frontiersman, Peace Officer and Famous Indian Fighter.

John J. Clinton, chief of the police and fire department of Abilene for thirty-seven years, died in that city June 1, at the age of 74 years.

Mr. Clinton was one of the best known characters in the Southwest. His life was filled with adventure. Not only was he a peace officer during the wild days of Dodge City, Kansas, but he participated in many Indian battles. Among the most noted battles with the Indians in which he took part were those of "The Adobe Walls," on the Canadian River, in Hutchinson county, in 1874, and "The Fight at the Water Hole," which occurred near Van Horn, Texas, in August, 1868. Big Foot Wallace was in charge of the detachment of scouts which stood off the Indians at "The Battle of the Water Hole," made famous by the painting of the great artist, Frederick Remington.

Chief Clinton was born in Dublin, Ireland, Aug. 12, 1848. He came to this country with his parents when seven years old. He fought in the closing battles of the civil war and after the war became a government scout on the frontier.

## TEXAS FARMER IN PIONEER DAYS.

(Continued from Page 2.)

mule—the abominable mule—and the reign of the ox team was no more. Then came the railroads with hordes of new people of all sorts—farmers, merchants, doctors, lawyers, preachers, school teachers, speculators, capitalists, and what not, and they soon bought up all of our "worthless prairies," and then, lo and behold! a Yankee up in Iowa, by the name of Glidden, invented the barbed wire. In a few years, almost like magic, the prairies were all enclosed and put into farms, and the days of stock raising on "another fellow's grass" was ended. Most people doubted at first whether the new-fangled barbed wire would turn our Texas long-horns; but experiments were made, the long-horn tackled the harmless looking "briar vine" and the problem was solved. The broad prairies became white with the fleecy staple and rejoiced in expanses of waving grain. Our once worthless grazing grounds have become the most productive farms in the country.

## Texas Farmer More Comfortable Today.

Some people may regret, in a sense, the passing of the old times and the old ways, but I do not. I welcome the new state of affairs and am glad to have lived during the era of this great transformation, and to feel that my people have had some humble part in the evolution of this new, grand and glorious state. A thousand times better and more comfortable is the condition of the Texas farmer today than in the days of the ox-cart, the log cabin and the Indian. Comforts and luxuries, unknown to the pioneer, or even to the residents of Eastern cities 50 years ago, are now brought to our very doors. In contrast with these advantages I have, I hope, a pardonable pride in the career of my father, who laboring under the disadvantages of pioneer life, away from markets and with primitive methods of culture, yet, as many of you know, was a successful and prosperous farmer. Much of his success, I believe, was attributable to a maxim I often heard him quote, that "a farmer should go to town with his wagon loaded and return home with his wagon empty." This maxim of business, with energy, push and good judgment, made him a success, and will make any man succeed.

My boyhood was happily spent upon my father's farm—my experience there made a lasting impression upon my mind and character, and should conditions ever permit, it would be a joy to me to return some day to my first love and to spend my declining years in close communion with nature and nature's God. After all, farm life is our normal state, and its freedom, its independence, its vigor and health are worth all the giddy shams of the city, the nerve-wrecking jostles of the crowd.

But profitable farming is rapidly becoming a science and we shall soon have young farmers studying the chemistry of the soil, the value of fertilizers, the best methods of irrigation and culture, saving of crops, markets, etc., and it will become, I think, as it ought to be, one of the learned professions. To no broader field, to no nobler study, could our young men consecrate their talent and
